

Train-the-Trainer Session Attendee Registration Form

To support implementation of version 2.0 of the WisDOT Emergency Traffic Control and Scene Management Guidelines and the new National TIM Responder Training Program, WisDOT is hosting a number of train-the-trainer sessions across the state. The purpose of the guidelines and associated training is to provide incident responders within the state of Wisconsin a uniform approach to emergency traffic control and scene management. At the end of each train-the-trainer session, attendees will have the knowledge and understanding necessary to return to their agency and train their staff accordingly. This training is intended for all incident responders, including law enforcement, fire/rescue, emergency medical services, emergency management, towing and recovery, maintenance/public works personnel, and other transportation professionals.

The date, time, location and session number of each training can be found on the attached train-the-trainer schedule or online at www.dot.wisconsin.gov/travel/stoc/time.htm. We are asking that agencies complete and return this registration form to ensure an adequate supply of handouts are available at each training session. Please note, WisDOT will not be restricting participation in these sessions, however, due to resource limitations, each agency will be provided with no more than two instructor manuals per session, regardless of the number of individuals the agency registered for the session. Individuals will receive a registration confirmation via e-mail.

Please send completed forms to:
