

SECTION 3: CUSTOMER SEARCH

If the customer record was not found with the Driver Identification Number (DID#), Social Security Number (SSN), or Federal Employer Identification Number (FEIN) entered, the following message will appear:

Select **OK** and verify the **DID#, SSN or FEIN** was entered correctly. Enter a corrected number and select **Next**, if appropriate.

If the identifier was entered correctly, select **SEARCH**.

Processing Tip: If you cannot find the correct record with the DID#, try using the SSN before using the Search function.

Note: You cannot create a new record with an incorrect Wisconsin DID#. You must first search by SSN if you cannot find a record using the DID#.

Highlight applicable entry and press select

Enter Non-Individual name and zip code. Select **Search**.

If the correct customer records appears, click on the record to highlight it and press **Select**

Processing Tip: When searching for customers, you may receive only incorrect search results. You cannot create a new record unless there are NO search results for the entered criteria. You must narrow your search criteria by entering a zip code or additional address information and search again.

When the entered information returns no search results, you may then proceed to create a new record by selecting **OK**. See *Customer Record Not Found* in this chapter.
