Introduction
The Division of Motor Vehicles, Wisconsin Department of Transportation, is pleased to provide this manual for your information and reference.

This manual does not intend to explain all salesperson rules and regulations. It describes the rules and regulations which you must follow, and presents situations and problems which salespeople encounter most often. You are expected to know the information in this manual as you perform your responsibilities as a licensed salesperson. The Division of Motor Vehicles is committed to providing the highest degree of public service. The licensing of motor vehicle salespeople enhances the public’s confidence and image of the professional salesperson. Customers can be assured that Wisconsin salespeople have been trained in professional motor vehicle sales practices, state statutes and administrative rules.

If you have any questions or concerns not mentioned in this manual, contact your employer, legal counsel or the Dealer and Agent Section of the Division of Motor Vehicles for assistance.

We look forward to working with you and extend our best wishes for success in your new position.

Sincerely,

Michael Domke  
Chief, Dealer and Agent Section  
Division of Motor Vehicles
Eligibility

Who needs a motor vehicle salesperson license?
You must be licensed if you want to be involved in the business of selling or leasing new or used motor vehicles in Wisconsin. (This includes sales managers, general managers, sales representatives, finance and insurance employees and the dealer if they are negotiating vehicle sales or leases, or approving any contracts.) No one is permitted to sell or lease a vehicle for a dealer without a salesperson license. The Dealer and Agent Section of the Division of Motor Vehicles (DMV) are responsible for licensing salespeople in Wisconsin.

Requirements for a salesperson license
General requirements for getting a license include that you:
» Are 18 years old
» Agree to act in good faith as a salesperson
» Are familiar with motor vehicle sales laws, lease laws and contract laws

How to become licensed for the first time
A written test is required for all first time applicants. Your employer should have the license application (MV2184) and manual. If they do not, you can get this information by visiting our website at http://wisconsindot.gov/Pages/dmv/dlr-agents/busns-lcnse/salespersonlicense.aspx, or call (608)266-1425.

Have your employer sign your application. Bring the completed application to a DMV Customer Service Center to take the written test. No appointment is necessary, but plan to arrive at least an hour before the center closes (see hours and locations at http://wisconsindot.gov/Pages/online-srvcs/find-dmv/default.aspx). You will pay a test fee. After you pass the written test, you may begin selling or leasing motor vehicles. Your license will be processed by the Dealer and Agent Section and mailed to your employer.

If you do not pass the test, you will be allowed to retake the test after one day. All salesperson licenses expire when the employer’s dealer license expires. Keep your license in your possession whenever you are selling or leasing vehicles.

Dealership groups
Salespeople who are licensed at one dealership in a “dealership group” may, at the discretion of the dealer, work at any other dealership in the group without having a separate license for each dealership. “Dealership group” means two or more licensed dealership locations that share the same majority ownership. We suggest applying for the license for the location where you will work most often.
Renewing your license
A written test is not required for renewal. Your employer is responsible for renewing your license and will submit the necessary fee to the Dealer and Agent Section. Your renewed license will be mailed to your employer.

Duplicate salesperson licenses
If your salesperson license is lost or destroyed, your employer should complete a Salesperson Application (MV2184) for a duplicate license. Mail the application to the Dealer and Agent Section.

Changing employing dealerships
During the licensing period you may change employing dealerships. If you wish to transfer your license to a new employer, do the following:
- Give your license to your former employer
- Complete an MV2184 Salesperson Application at your new dealership

Your new employer will submit the license application to the Dealer and Agent Section. If your license had not expired before the transfer, your new license will expire when your new employer’s dealer license expires.

Terminating employment
When you terminate employment as a salesperson, you must give your license to your employer before you leave.

Lapsed licenses
If your Wisconsin license expired more than five years ago, you will need to take the written test again. The application and fee are the same as for first time applicants.

Criminal convictions
Under most circumstances you may be licensed even if you have been convicted of a crime. The Dealer and Agent Section will investigate convictions for any crime related to motor vehicles or fraud before either approving or denying a license.

Denials and appeals
If your application for a motor vehicle salesperson license is denied, you may appeal to the Division of Hearings and Appeals. If your application is denied, you will receive a denial letter which contains the reason for the denial and instructions for appeal.
Advertising
Using false, deceptive or misleading advertising or representations to induce the purchase of a motor vehicle is an unfair practice and is prohibited.

Vehicle prices
The advertised price must include all charges that the customer will pay, except sales tax, title and registration fees. Post advertised prices on the vehicle. Don’t use phrases such as “write your own deal” or “name your own price” because they mislead customers.

New vehicle discount
You may only advertise new vehicles using terms such as “invoice” or “cost” when you disclose that the “actual dealer cost is, or may be less, due to factory holdback, rebates, incentives, or other discounts.”

“Free” merchandise
Don’t use the word “free” in any advertising if the customer must purchase something to receive the “free” merchandise, equipment, accessories or service. You may state that an item “is included with” the purchase.

Trade-in allowance
You are not allowed to use phrases such as, “we will pay up to,” “appraise your own vehicle” or “as much as” when advertising an allowance for a trade-in.

Dealer name on advertising
When advertising vehicles for sale, include the dealer’s name in the ad.

Availability of vehicles
If you say a certain type of vehicle is available, be sure you have enough of them to meet anticipated demand. If they are not on hand, you must know that they will be delivered within a reasonable time.

Damaged vehicles
If two or more vehicles are damaged by the same cause, include the cause of the damage in all ads. For example, if two or more vehicles were damaged by a hailstorm, a flood or a tornado, disclose the damage for all vehicles that were damaged. Always tell the customer about a flood damaged vehicle, whatever the damage.

Model year
When advertising any motor vehicle, always state the model year. In addition, if the vehicle is of the current or previous model year, you must also designate it as “used” if that is the fact. Words like “demonstrator,” “executive,” “low mileage” and “one-owner” also designate a vehicle as used.
"Clearance" merchandise
Do not use statements such as “last of the remaining,” “close out,” or “clearance” to advertise used vehicles unless the dealership is actually going out of business.

Lease vehicles
Clearly identify which vehicles are for sale and which are for lease when advertising both in the same ad. If the advertisement only contains lease vehicles, this must be disclosed.

Disclosure of new vehicles

Vehicle information required before sale
Certain information and documents must be provided to customers when you are offering a vehicle for sale. State and federal laws require disclosures to protect consumers and allow an informed decision when buying a vehicle. The dealer is responsible for disclosing proper vehicle information. As the salesperson, you are responsible for giving that information to the customer. Concealing facts or failing to provide required information is illegal. All written or spoken information you give customers must be truthful.

Manufacturer’s suggested retail price (MSRP) label
This federally required label must remain in the window of a new vehicle until the vehicle is delivered to its retail purchaser. This MSRP label contains information about standard equipment, options, base price, transportation charges, final assembly point and receiving dealer. The label is not required for trucks.

Dealer supplemental price label
This label lists:
» optional equipment or accessories installed by the dealer
» the final dealer price
» any price changes from the MSRP including dealer mark-up
» any dealer service fee

Items or services which have not been installed are optional. The label must remain in the window until the vehicle is delivered to the customer.
Pre-delivery inspection sheet
This form is a report on a new vehicle’s pre-delivery tests and inspections required by the manufacturer. Give this form to the customer upon delivery of the vehicle.

Emission standards certificate
This certificate confirms that the vehicle’s emission control systems have been properly installed and inspected. It also provides information on what to do if the system fails. Give this certificate to the customer at the time of delivery.

Damage disclosure statement
When any new, demonstrator or executive-driven vehicle has corrected damage of more than 6 percent of the MSRP, a written disclosure must be presented to the purchaser before delivery of the vehicle. Damage to a vehicle’s glass, tires, or bumpers does not need to be counted in determining the 6 percent amount when the replacement parts are identical to the manufacturer’s original equipment. Any uncorrected damage, regardless of the extent, must also be disclosed to the purchaser before delivery of the vehicle.

Model year disclosure
Represent the model year as the manufacturer’s original designated model year. The only exception to this rule deals with vehicles manufactured by a second stage manufacturer. An example of this would be a motor home completed by a second stage manufacturer in 2008 on a 2007 incomplete vehicle chassis. In such a situation, advise the customer on the purchase contract that the vehicle chassis and the motor home have different model years.

Disclosure of used vehicles

Wisconsin Buyers Guide
Before a vehicle is offered for sale, it must be inspected for safety and mechanical defects. Standards for vehicle equipment are included in Trans 305 of the Wisconsin Administrative Code and Chapter 347 of the Wisconsin Statutes. Show the results of the inspection on the Wisconsin Buyers Guide. The guide must be attached to the window and readable from outside the vehicle. The purchaser keeps the window copy.

Display a Wisconsin Buyers Guide on all vehicles with the following exceptions:

» Trucks over 16,000 pounds
» Demonstrator or executive-driven vehicles still in service
» Vehicles that are not offered for sale and are labeled “not inspected for sale”
» Vehicles operated from selling dealers to purchasing dealers with valid dealer plates
» An unrepaired salvage vehicle
» A vehicle sold to the lessee at the end of the lease

The Wisconsin Buyers Guide includes:
» the vehicle’s prior use
» title brands (see title and registration section for definitions)
» any warranty offered or if the vehicle is offered “as-is”
» the odometer reading at the time the vehicle was acquired
» the price

**Reasonable care standard**
Required disclosure of vehicle history, prior use and title brands is limited to that which the dealer could find using reasonable care.

Dealerships are required to test drive the vehicle and to inspect the interior and exterior of the vehicle including under the hood and under the vehicle. They are not required to take the vehicle apart (except brakes) or run tests unless necessary to diagnose apparent symptoms. Standards for vehicle equipment are included in Chapter Trans 305 of the Wisconsin Administrative Code and Chapter 347 of the Wisconsin Statutes.

Dealerships are required to report information they get from manufacturer and auction notices, prior owner documents and disclosures, and their own vehicle inspection and repair records. Dealerships are not required to contact prior owners or get records of previous titles unless necessary to clear up inconsistent or questionable information that is apparent.

**Material vehicle history**
Dealerships are required to disclose any “material history” about a vehicle. Vehicle history is “material” if any of the following are true:
» The buyer asks about it
» The dealership knows or has reason to know the information would be important to the buyer
» The information would be important to any reasonable person

Material history should be disclosed on the Wisconsin Buyers Guide under “other” in the “Vehicle History” section. If history information becomes material after the guide has been completed, for example, if the shopper asks if a vehicle has been in an accident, the information should be recorded on the Motor Vehicle Purchase Contract under “Other conditions of sale.” If the dealership is unsure whether history information would be material to a buyer, it is best to disclose it and avoid problems later.
Not inspected for sale sticker
Display a “not inspected for sale” sticker on any used vehicle that has not been inspected for safety or mechanical defects. Do not offer an uninspected vehicle for sale.

Previous owner
You must provide the name and address of the vehicle’s previous owner to any prospective customer upon request.

Odometer disclosure
Show the prior owner’s odometer statement, usually on the title, to all prospective customers before sale.

Pending recalls
When selling a used vehicle make for which the dealer is franchised, disclose any unperformed manufacturer recalls in writing.

Odometer repair
Odometers may be repaired or replaced if they become defective or malfunction. If a vehicle is driven between the time the odometer malfunctions and the time the odometer is repaired or replaced, the seller may disclose that the odometer reading reflects the “actual” mileage only when all three of the following guidelines can be met:

» Repair or replacement is made within 30 days of the date the malfunction occurred
» A reasonably accurate determination can be made of the miles traveled since the malfunction occurred
» The repaired or replaced odometer is calibrated to show the mileage reading which was on the odometer at the time it malfunctioned plus the number of miles the vehicle was driven between the time of the odometer’s malfunction and the time of the repair or replacement

When it is impossible to reset the reading on the repaired or replacement odometer:

» Set the mileage reading to “zero”
» Place a sticker on the left door frame of the vehicle specifying the mileage reading before the repairs and the date on which the odometer was repaired or replaced
» The odometer statement must say “not actual” mileage

Test drives
Before any vehicle test drive, ask to see the customer’s driver license. The customer is responsible for providing proof of a valid operator license.
Purchase contract

When a contract is required
When closing a sale, you will give the customer a written document called the “Motor Vehicle Purchase Contract.” The contract will show that the customer is offering to purchase a vehicle and that, when the offer is accepted by the dealer, it will become legally binding upon both parties.

Complete a contract whenever you accept a down payment, deposit or title for a trade-in vehicle. If the dealer does not accept the customer’s offer to purchase within 2 hours, the offer is automatically voided. Voiding of the purchase contract requires that you immediately return any down payment, deposit or title for a trade-in vehicle to the customer. Any vehicle that has a pending offer to purchase may not be sold to another customer. You cannot write a purchase contract for a used vehicle unless the vehicle has been inspected and the Wisconsin Buyers Guide has been displayed.

Contract requirements
The following items must appear on a completed purchase contract:
» Names and addresses of the dealer and purchaser
» The salesperson’s full name and first 8 digits of salesperson license number
» The year, make, model, and vehicle identification number (VIN) of all vehicles involved in the transaction
» The chassis year and finished vehicle model year, if they are not identical
» Any warranties, warranty disclaimers, service agreements or insurance plans that are part of the offer
» The price due upon delivery and all of the components of that price
» A listing of any parts or accessories removed or installed by the dealer
» Specific reference to any penalty the consumer will pay for not accepting the vehicle (The penalty may not exceed 5 percent of the vehicle cash price)
» The anticipated delivery date
» Whether the purchase is a cash or finance transaction through the dealer or creditor of purchaser’s choice
» Warning statement when any safety equipment fails to pass inspection
» Any other specific negotiated items included in the offer
» The date and time of each signature
» A dealer may assess a purchaser or lessee an additional service fee for completing any sales-related or lease-related vehicle inspection or forms which are required by law or rule if the dealer has made full disclosure of the service fee to the prospective retail customer. Dealers who are providing electronic title and registration service may also charge an additional fee
"As-is" vehicles

"As-is" sales are legal in Wisconsin. Any “as-is” sale must be clearly identified on the purchase contract since the dealership is not providing any warranty protection for the customer.

Price protection

Under certain conditions the law allows the dealer to adjust the contracted purchase price of an order-out new vehicle due to changes in the manufacturer’s price. Manufacturers do not have consistent practices on price protection. It is important that you are aware of each manufacturer’s pricing policies. The price protection section on the purchase contract must be completed in order to adjust the price.

Contract price increases

A dealer may also legally increase the purchase price of an order-out vehicle for the following reasons:

Any additional equipment required by state or federal law -
  » For foreign vehicles, a revaluation of the U.S. dollar by the U.S. government
  » Increase of state or federal taxes on vehicles
  » Raising the price of a vehicle after a purchase contract has been signed by a customer and accepted by a dealer, for reasons other than those allowed, is illegal and known as “bushing”

Trade-in reappraisal

The value of a trade-in may be reappraised only if the trade-in vehicle has been damaged, if parts have been removed or if the mileage exceeds the limits specified on the purchase contract.

Off-premise sales

When a vehicle purchase contract is offered and accepted away from the dealer’s licensed place of business, the customer is entitled to three days to rethink the purchase. The customer may cancel the contract during this “cooling off” period. Give the customer two copies of a notice of this right when the purchase contract is signed.

Sales to minors

Contracts signed by persons under 18 years of age are not binding and may be canceled by the minor without a penalty. Before you negotiate a contract with a minor, you must have the minor’s parent or guardian provide a notarized signature in the “Consent to Purchase” section of the Application for Title and Registration.
Canceling a contract
When delivery of the vehicle cannot be made within 15 days after the anticipated delivery date stated on the contract, the customer can cancel without penalty, and does not have to accept delivery of the vehicle.

Prelease agreements
A prelease agreement is an agreement to enter into a consumer lease of a motor vehicle that will be available and ready to be delivered to a customer at a later time.

To make a prelease agreement binding, you must:
» Provide the customer with the lease term disclosures required by law
» Complete the prelease agreement including signatures of both the dealer and the customer
» Provide the customer with an exact copy of the prelease agreement
» There can be no blank lines in the signed prelease agreement except for the identification number if the vehicle is not available at the time of signing

The dealer may cancel the prelease agreement if the customer’s credit is not approved by the sales finance company that is loaning the money for the lease. The reason for denial must be based on the lease terms disclosed in the agreement. The dealer can cancel the agreement only when it contains a provision requiring the dealer to give the customer written notice of the cancellation within 10 business days of signing and the notice is given to the customer.

Non-acceptance penalty
No prelease agreement can subject a customer to a penalty of more than 5 percent of the capitalized cost of the vehicle if the customer fails to take delivery of the vehicle.

Consignment sales
Licensed dealers may sell a vehicle for a private party on consignment. Although the dealer does not own the vehicle, the dealer is authorized to sell it for the titled owner. Only licensed dealers may offer vehicles for sale on consignment. (Consignment sales are prohibited between dealers, and between dealers and wholesalers.)

The laws regulating consignment sales are the same as those for dealer-owned vehicle sales including inspection and display of the Wisconsin Buyers Guide. The only difference is that a consignment sale agreement must be completed and signed by both the dealer and seller before offering the vehicle for sale. The agreement must contain the name of the vehicle’s owner, a description of the vehicle, the terms of the agreement and the lien status of the vehicle.
When showing a consignment vehicle, you are required to have an original odometer statement from the seller available for the customer’s inspection. While you are not required to make the title available to the customer, you are required to have a photocopy of the title available for the customer’s inspection.

**Warranty**

**Warranty disclosure**
You must clearly identify any warranty or service contract included with the vehicle on the purchase contract. Any warranty or service contract must be available for inspection by a customer. You must give a warranty document (specifying parts and systems covered) to the customer at the time of delivery.

**Warranty transfer**
When you tell a customer that a vehicle has a remaining manufacturer’s warranty, and the manufacturer fails to accept responsibility for the warranty, your dealership will be required to honor the warranty.

When a vehicle has mechanical problems during the warranty period, and the customer files a claim prior to the warranty expiration, the warranty continues until the vehicle is fixed at the warrantor’s expense.

**“As-is” vehicles**
“As-is” sales are legal in Wisconsin. Any “as-is” sale must be clearly identified on the purchase contract. “As-is” means your dealership is not providing any warranty protection for the customer even if the vehicle comes with a manufacturer warranty.

**Title and Registration**
DMV issues a Certificate of Title to show ownership and record a financial interest in a motor vehicle. Your dealership must have proof of ownership at the dealership to offer the vehicle for sale.

Vehicles must be registered to operate legally on Wisconsin highways. DMV issues license plates as evidence that an owner has paid the appropriate registration fee. Fees vary with the type and intended use of the vehicle.

Wisconsin laws require motor vehicle dealers to prepare and submit customer applications for title and registration to DMV. Your dealership must furnish customers with temporary or permanent registration plates before they can operate the vehicle legally. Motorcycles are exempt from this requirement.
Effective July 1, 2007 Wisconsin motor vehicle dealers are required to process their title applications electronically for Wisconsin customers.

**Transfer of ownership**

Manufacturers transfer ownership of new vehicles to dealers by signing over the Manufacturer Certificate of Origin (MCO). The MCO is the “birth certificate” of the vehicle. It lists the manufacturer, vehicle make, the vehicle identification number (VIN), the place of assembly, and vehicle delivery point. Individuals transfer vehicle ownership to the dealer by signing over the vehicle’s title to the dealer. Failure to show a change of ownership is considered “title jumping” and is illegal in Wisconsin. Trade-in vehicles must be titled in the name of the purchaser.

To transfer ownership to a retail customer, the dealer must process electronically or use a “Wisconsin Title and License Plate Application” (MV11) for manual (paper) submissions not able to be processed electronically.

A manual application for Title and Registration will include:

- Completed and signed MV11
- Title or Manufacturer Certificate of Origin
- Appropriate fees

An electronic application for Title and Registration will include:

- Signed copy of e-receipt
- Title or Manufacturers Certificate of Origin

Dealers must electronically send, deliver or mail completed applications for title and registration to DMV within seven business days after delivery of the vehicle. Customers are not allowed to take these materials to a DMV Customer Service Center unless accompanied by a dealer representative. Dealers who sell a vehicle to a nonresident are required to apply for a Wisconsin title only when it is necessary to secure a lien.

Note: If processing electronically, the required documents need to be mailed the following business day.

**And/or**

When more than one person owns a vehicle, the owners’ names on the title may be joined by the conjunction “and” or “or.” When “and” is used, all titled owners must sign the title to transfer ownership. When “or” is used, only one signature is required.

**Replacement Titles**

Ownership cannot be transferred without a title. When a customer attempts to sell or trade a vehicle and does not have a valid title, the customer must get a replacement title from DMV.

**Title Brands**

Dealers must disclose to a prospective purchaser any title brands that appear on the vehicle title or that will appear on the next title. Brands become a permanent part of the title. The following brands may appear on a Wisconsin title:

- **VEHICLE IS A SALVAGE VEHICLE:** vehicle less than 7 years old which is damaged by collision or other occurrence to the extent that the estimated or actual cost, whichever is greater, of repairing
the vehicle exceeds 70% of its fair market value. You can figure which vehicles are exempt from the salvage brand by using the following formula:

\[
\text{Current calendar year} - 6 \text{ (years)} = \text{this model year or older (no salvage title)}
\]

For example: 2015 – 6 = 2009

In the above example, any vehicle that is a 2009 or older model are exempt from the salvage brand.

» **VEHICLE TRANSFERRED TO INSURER UPON PAYMENT OF CLAIM**: vehicle is less than seven model years old, damaged more than 30% but not more than 70% of its fair market value, and, after payment of claim, transferred to the insurance company

» **VEHICLE IS A MANUFACTURER’S BUYBACK**: vehicle was repurchased by the manufacturer under Wisconsin’s or another state’s Lemon Law

» **MODIFIED TO MEET FEDERAL SAFETY AND EMISSION STANDARDS**: vehicle that was not manufactured with all federal emission and safety standards applicable (gray market vehicle)

» **VEHICLE WAS PREVIOUSLY USED AS A POLICE VEHICLE**: vehicle used or registered as a police vehicle by a law enforcement agency

» **REBUILT SALVAGE**: vehicle that was declared salvage and has now been rebuilt and has passed a Wisconsin salvage inspection

» **PREVIOUS TAXICAB OR PUBLIC TRANSPORT**: vehicle used or registered as a taxicab or for public transportation

» **VEHICLE HAS BEEN FLOOD DAMAGED**: vehicle was damaged by flood to the extent that the estimated or actual cost of repairs exceed 70% of its fair market value

» **VEHICLE HAS BEEN HAIL DAMAGED**: vehicle less than seven years old damaged solely by hail to the extent that the estimated or actual cost, whichever is greater, to repair the vehicle exceeds 70% of its fair market value, and repaired without replacing any exterior parts
Odometer Disclosures

Odometer disclosures signed by the seller must accompany all motor vehicle ownership transfers. You must:

» Have the seller complete the odometer disclosure statement on the title or MCO
» Show the prior owner’s odometer disclosure statement on the title to any prospective customer
» Give the retail purchaser a new odometer statement on the MV11 or, if processing electronically, on the original title

Mopeds, vehicles ten years old and older, and vehicles with a gross weight rating of more than 16,000 pounds are exempt from the odometer disclosure requirements. You can figure which vehicles are exempt from odometer disclosure by using the following formula:

Current calendar year - 10 (years) = This model year or older

For example: 2015 – 10 = 2005

In the above example, any vehicle that is a 2005 or older model are exempt from the odometer disclosures.

Liens

When a vehicle is used as collateral to obtain a loan, a lien is recorded by DMV on the vehicle’s title. A recorded lien notifies all interested parties that the vehicle is encumbered to another party. DMV assesses a processing fee to record a lien, but not to remove a lien. Dealers list lien holders on the MV11 form or electronic application. A dealer may offer a vehicle for sale with a lien on the title only if funds to pay the lien off have been mailed or electronically transferred by the dealer to the lienholder. You do not need to wait for the actual lien release. You may sell the vehicle to the new purchaser if funds have been mailed or transferred, and you complete the certification on the MV11 or electronic application that the lien on the title has been paid.

Customer with plates to transfer

Under Wisconsin law, when a resident sells or trades in an automobile, whether owned or leased, he or she retains the license plates. Therefore, your customer may have license plates to transfer to the vehicle purchased. Show the plate to transfer on the MV11.

Customer without plates to transfer

When your customer purchases a vehicle and does not have license plates to transfer, you must submit a completed MV11 with proper fees to DMV. Your dealership must furnish customers with temporary or permanent registration to legally operate the vehicle.

Dealer license plates

DMV issues dealer license plates to motor vehicle dealers. The plates identify each dealer by its dealer number. Dealers may use these plates for business or private purposes. They may use them only on vehicles the dealer owns and offers for sale or service loaner vehicles. Lending or displaying dealer plates on rental vehicles or vehicles not for sale (not displaying a buyer’s guide or Monroney label) is prohibited.
Records
The following records must be kept at the dealership for five years.

Original Documents:
» A logbook (record of vehicles bought and sold—may be computerized)
» Wisconsin Buyer’s Guide

Copies:
» Purchase contracts
» MV11 Application for Title/Registration (unless electronic)
» Odometer statements

Disciplinary action and illegal activities
The Department of Transportation is responsible for the enforcement of motor vehicle and salesperson laws and regulations. If you violate the law, you or the dealership may have your license suspended, revoked or denied.

Civil and criminal sanctions can result from illegal activities. For example, a purchaser may sue a dealer or salesperson for damages, including attorney fees, when department rules are violated. Civil proceedings may also result in special orders being imposed upon the dealer and/or salesperson. Criminal proceedings may result in fines, orders of restitution or imprisonment.
Illegal activities
Activities that may result in disciplinary action are outlined in state statutes and the administrative code. The following list provides examples of some prohibited activities:

» Theft or fraud against either the dealership or customer
» Failure to perform any written agreement with any retail buyer, lessee or proposed lessee
» Allowing privately owned vehicles (not on consignment) to be offered for sale on the dealership property
» Selling new vehicles for which your dealer is not franchised
» Submitting title/registration applications later than the maximum seven business days
» Not providing required information to prospective customers
» Providing inaccurate Wisconsin Buyer’s Guide information
» Not providing odometer statements
» Raising the price of a vehicle after a purchase contract has been signed and accepted by the dealer (“bushing”)
» Illegal advertising practices
» Verbal misrepresentations such as telling customers that a purchase contract can be canceled without a penalty when the contract clearly shows the opposite
» Promoting chain and referral sales by unlicensed salespeople (also known as “bird-dogging”)
» Making a false statement on your salesperson license application
» Failing to pay taxes
» Failing to pay court ordered child support

Trans 139.03 Advertising and sales representa-tions. (1) TRUTHFUL. The use of false, deceptive or misleading advertising or representations by any licensor to induce the pur-
chase of a motor vehicle constitutes an unfair practice and is pro-
hibited.

2. FACTUAL. (a) Any licensor, making any statement of fact to the public in any advertisement or written statement or represen-tation concerning the motor vehicles it offers for sale, the ser-
vices it provides or other aspects of its business operation, shall possess detailed evidence of the validity and accuracy thereof, which evidence shall be furnished to the department upon request.

(b) Terms such as “largest” when referring to dealership size shall be based solely on vehicle sales volume and shall clearly state the basis for the claim, including vehicle make, time period if other than prior 12 months and geographic area if other than statewide, in the advertisement. Each vehicle make shall be considered separately in determining new vehicle sales volume.

3. DISCLOSURES REQUIRED WHEN ADVERTISING PRICE. (a) When the price of a motor vehicle is advertised by a dealer licensor; or a group of dealer licensors are named in a joint adver-
tisement, the advertised price shall include all charges that shall be paid by the purchaser to acquire ownership of the vehicle with the exception of sales tax, title and registration fees.

The advertised price does not need to include the amount of the service fee if the advertisement clearly and conspicuously discloses that the advertised price does not include the optional service fee.

In the print media, the disclosure of the amount of the service fee or the disclosure that the advertised price does not include the optional service fee shall be printed in not less than 9-point boldface type or not smaller than the largest typeface within the advertisement. In other advertising media, the disclosure of the amount of service fee or the disclosure that the advertised price does not include the optional service fee shall be clearly communicated to the intended audience.

(b) Use of terms such as “invoice,” “cost,” or similar terms, when advertising the price of a motor vehicle, and accessories, is an unfair practice and prohibited unless the advertisement dis-
closes the dealer’s actual cost is less because there are, or may be, factory holdbacks, rebates, incentives, or other discounts to the dealer, if that is the case.

c) Whenever a dealer licensor has a promotion on a used motor vehicle and a sales price is stated in an advertisement, the sales price shall be disclosed on the vehicle during the sales promotion period.

4. TRADE-IN ALLOWANCE. No specific price shall be stated in an advertisement as an offer for a trade-in, if the price so stated is contingent upon the condition, model, or age of the prospective purchaser’s vehicle to be traded. Use of the phrases “up to,” “as much as,” or similar phrases regarding a trade-in allowance is an unfair practice and prohibited.

5. USED VEHICLE COMPARATIVE SAVINGS. The use of manufacturer suggested retail prices, wholesale or retail dealer pricing guides, or similar price guides to advertise comparative savings for used vehicles other than demonstrations or executives in an unfair practice and prohibited, except that a motor vehicle pricing guide may be used if the use of the guide as the source of the price is stated in any required disclosure and the dealer makes the full objective documentation used to set the price available in writing to the customer.

7. FREE MERCHANDISE. It is unfair practice to use the word “free” or any other word or words of similar import, in any advertisement, if exempt of the free merchandise, equipment, accessories or service is conditioned by purchase of a vehicle or related acces-
sories.

8. ESTABLISHING PRICE. Use of phrases such as “write your own deal,” “name your own price,” “appraise your own vehicle,” and similar phrases is an unfair practice and prohibited.

9. SALES. (a) Use of phrases such as “last of the remaining,” “close-out,” “final clearance,” “clearance,” and similar phrases when used in reference to used motor vehicles, other than demonstrator and executive vehicles, is an unfair practice and prohibited, unless the dealer licensor is actually discontinuing business.

(b) Use of phrases such as “last of the remaining,” “close-out,” “final clearance,” “clearance” and similar phrases when used in reference to demonstrator, executive and new motor vehicles is an unfair practice and prohibited, unless the dealer licensor is not replacing the vehicles with similar vehicles of the same model year, or is actually discontinuing business.

10. VEHICLE AVAILABILITY. It is an unfair practice for a licensor to advertise motor vehicles or types of motor vehicles for sale unless the licensor has available, for delivery within a reason-able time, a quantity of the advertised vehicles sufficient to meet reasonably anticipated demands, unless the advertisement clearly and specifically discloses any limitations as to the quantity available at time of delivery.

11. NAME AND ADDRESS. Dealer and salerperson licensor are prohibited from advertising motor vehicle sales at an address or from listing a phone number or electronic mail address other than that of either the licensed business premises, or temporary locations as authorized by a Trans 138.08, except that a licensor may list the phone number or electronic mail address of the licensor’s home in addition to the business phone number and address on a business card. Advertisements shall include the business name.

12. NEW VEHICLES. Franchised new vehicle dealers, distribu-
tors and manufacturers are the only licensor permitted to advertise new or sell new vehicles.

13. MODEL YEAR AND USED. When advertising any motor vehicle, a dealer or salerperson licensor shall state the vehicle’s model year and, if the vehicle is of the current or previous model year, shall designate the vehicle as used if that is the fact. Refer to the “true mileage.” “X-model,” “one-owner,” “demonstra-
tor,” “executive,” or other words of similar meaning shall serve to designate the vehicle as used. If all vehicles in an advertisement are used, one reference to designate that they are used is sufficient.

14. EXPRESSION OF TIMES SALES OR PROMOTIONS. Whenever a sale or promotion offering gifts, merchandise, equipment, accessories, services, discounts, price reductions, or cash is advertised,
the advertisement shall also specifically disclose the expiration terms or date of the sale or promotion.

(15) TWO OR MORE DAMAGED VEHICLES. Whenever a promotion or sale involving 2 or more vehicles damaged by the same cause as a result of the same incident is offered by a dealer licensee, all accompanying advertising shall disclose the cause of damage, regardless of the extent of damage.

(16) FIRED OR WATER DAMAGED VEHICLES. Whenever a dealer licensee offers, promotes the sale of, or sells a fired or water damaged vehicle, all advertising relating to that vehicle shall disclose that the vehicle has been fired or water damaged. Required disclosure of fire or water damage is limited to that which the dealer could find using reasonable care.

Note: Only licensed salvage dealers may sell junk vehicles or parts.

[6] WISCONSIN BUYERS GUIDE: (a) Except as provided in pars. (c) and (d), each used motor vehicle displayed or offered for sale by the dealer shall display a guide as prescribed by the department. The guide shall be provided by an authorized employee of the dealer, another dealer having the same majority ownership as the dealer, or a predecessor dealer at the same location as the dealer. The guide shall be completed in duplicate and contain the printed names of the vehicle inspector and the records inspector. The dealer or a salesperson, prior to separating the copy for display, shall sign the original guide. Except as provided in sub (d),
the copy shall be displayed within the vehicle, attached to a window if possible, shall be readable from the outside of the vehicle, and shall become the possession of the purchaser upon acceptance of delivery. The original shall be signed by the purchaser prior to delivery of the motor vehicle and shall be retained by the dealer for 5 years. The guide shall clearly state in simple and concise language:

1. That the vehicle is used. All material history, prior use and title brands shall be clearly and specifically disclosed, for example, rebuilt, salvage, flood or water damaged, transferred to insurer upon payment of claim, manufacturer buyback, personal use, business use, lease use, rental use, demonstrator, executive, taxis-cab or public transportation, police vehicle, driver—education or government vehicle, or history and use unknown. All title brands that appear on the existing certificate of title for the vehicle or that will appear on the new certificate of title for the vehicle as required by s. 342.10, Stats., shall be disclosed. The title brand disclosures shall also include any other jurisdiction in which the vehicle has been previously titled. If the vehicle has not been previously titled in another jurisdiction, this disclosure shall specify Wisconsin. Disclosure of history and prior use is not limited to those conditions which require title branding. Required disclosure of the history, prior use and title brands is limited to that which the dealer could find using reasonable care.

2. The odometer reading at the time the vehicle was obtained by the dealer licensee and a disclosure that either the reading is known to be actual miles, or the reading is not the actual miles, or the reading reflects the amount of mileage in excess of the designed mechanical odometer limit, as corroborated by the prior owner’s odometer disclosure statement available and subseqent qently shown to the purchaser, in accordance with sub. (7). The window sticker or disclosure label shall further disclose that the name and address of the vehicle’s prior owner are available upon request.

3. Note: When engine size is not determinable, insert “N/A” on the Guide.

The department shall respond to the dealer within 30 days of receiving the proposed language as to whether the dealer may use the proposed language. The dealer may not modify the proposed language prior to receiving approval from the department to use the proposed language.

5. The inspection disclosures required in subs. (4) and (5) Unless otherwise agreed to in the purchase contract, the inspection disclosures shall neither create any warranties, express or implied, nor affect warranty coverage provided for in the purchase contract. However, it is an unfair practice for a dealer to not rem-edy an item improperly reported on the guide that the dealer could have found using reasonable care if the buyer has notified the dealer within a reasonable time after the buyer discovered or should have discovered the improperly reported item and the vehicle is made available to the dealership. The dealer shall remedy promptly or make a good faith effort to reasonably remedy an item improperly reported within 30 days of the buyer’s notifi-

(6) MOTOR VEHICLE PRICE CHANGES. A motor vehicle manufacturer, importer or distributor which has adopted a formal policy of not accepting dealer orders placed on behalf of private retail purchasers shall notify franchised dealer licensees and the department of that fact in writing. If the policy is not clearly set forth to franchised dealer licensees, price increases imposed by the motor vehicle manufacturer, importer or distributor are presumed to be based on those vehicles for which dealers had orders written with private retail purchasers prior to the dealer’s receipt of the official price change notification referred to in sub. (4).

(a) In the event of motor vehicle manufacturer, importer or distributor price reduction the amount of any reduction received by a dealer licensee shall be passed on to the private retail purchaser by the dealer if the retail price was negotiated on the basis of the previously higher price to the dealer.

(b) Price increases in the following instances shall not be subject to the price protection and price change protection provisions of sub. (4) and this subsection: 1. The addition of new equipment as required by state or federal law.

1. Motor vehicle dealer licensees who accept offers to purchase from private retail purchasers for new vehicles not yet in the dealer’s inventory shall, in the following statement to be completed on the purchase contract, check Box A where the manufacturer, importer or distributor has a formal policy of not accepting retail orders as described in this subsection, or where the manufacturer’s suggested retail price of an ordered vehicle of the incoming model year is unknown, or check Box B where the manufacturer’s suggested retail price is unknown as in the case of a newly introduced model: Order-out vehicle not price protected. (Check A or B)

A. Current model year price known. If the manufacturer’s suggested retail price increases before vehicle delivery, the final cash price shall be the current contract cash price, plus the increase in the manufacturer’s suggested retail price adjusted by a % discount or % markup of said increase.

B. Price of newly introduced model currently unknown. The final cash price shall be the total of the manufacturer’s suggested retail price upon delivery plus the price of any dealer-installed options set forth in this contract with % discount subtracted from or % markup added to the total.

However, if the final cash price of either A or B exceeds the purchaser’s price the dealer may cancel the contract without penalty. Also the dealer is not obligated to deliver unless the purchaser agrees to pay the final cash price."

2. A trade-in vehicle may be reappraised if it suffers damage as defined by s. Trans. 139.02 (2), or parts or accessories have been removed after purchase contract execution. Reappraisal by the dealer licensee shall be limited to an amount equal to the retail repair costs of damages incurred, or to the value of parts or accessories removed. Reappraisal is not allowed unless the dealer has stated on the contract that “The appraisal is based on an odometer reading of up to ___ miles/kilometers, and the trade-in vehicle may be reappraised if it exceeds this limit.”

(7) DAMAGE DISCLOSURE. On any new vehicle or demonstrator or new vehicle, any corrected damage exceeding 6% of the manufacturer’s suggested retail price, as measured by retail repair costs, and all uncorrected damage shall be disclosed in writing to the purchaser prior to delivery. Damage to glass, tires, bumpers, moldings or audio equipment is excluded from this rule when replaced by identical manufacturer’s original equipment.

(8) ESTIMATED MILEAGE AT DELIVERY. If a motor vehicle dealer enters into a purchase contract to sell a new vehicle as defined in s. Trans. 139.02 (11) that is not available at the dealers’ location, the dealer shall provide the purchaser with an estimate of vehicle mileage at delivery. The purchase contract shall be cancelable at purchaser’s option if the mileage of the vehicle upon delivery exceeds the dealer’s estimate. This option ends upon acceptance of delivery. Once acceptance of the vehicle occurs, any purchaser’s right to cancel the purchase contract on the basis of excess mileage over dealer’s good faith estimate are waived. The purchase contract shall state in bold face type the following: IF THE MOTOR VEHICLE DEALER AND PURCHASER ENTER INTO A PURCHASE CONTRACT FOR A NEW MOTOR VEHICLE NOT AVAILABLE AT THE DEALER’S LOT, THE DEALER AND PURCHASER AGREE THAT THE VEHICLE MILEAGE UPON DELIVERY WILL NOT EXCEED ___ , WHERE ___ is the total estimated miles before vehicle delivery, PURCHASER HAS THE RIGHT TO CANCEL THE PURCHASE CONTRACT IF THE MILEAGE OF THE VEHICLE EXCEEDS THAT AMOUNT.

(9) ORDER LIMITATIONS. It is an unfair practice and prohibited for a dealer licensee to execute a purchase contract for a vehicle or type of motor vehicle unless the dealer licensee reasonably expects to have the ordered vehicle available for delivery by the anticipated delivery date.

(b) A dealer licensee who has contracted with the department in accordance with the provisions of s. 341.21, Stats., may charge a purchaser a fee in the amount contained in the contract for the dealer’s services relating to the processing or distribution of an original or renewal registration or a certificate of title.

(8) ESTIMATED REFRESH LEASE/RENTAL PAYMENT AMOUNTS. When the payoff for a trade-in vehicle is unknown, the dealer may estimate the payoff in the itemization of vehicle price required under sub. (2) (a). When such an estimate is used, the purchase contract shall provide that the purchaser may rescind the purchase contract if the actual amount needed to pay off all extensions of credit secured by the motor vehicle exceeds the estimated payoff amount used in the itemized calculation of vehicle price by more than $1 in payment on the note secured by the trade-in vehicle. The actual difference between the estimated payoff and actual payoff shall be disclosed by the dealer to the purchaser in writing. A purchaser’s refusal to accept delivery of a vehicle or agree in writing to waive the payoff difference within 7 days of notification by the dealer that contract contingencies have been met and disclosure of the payoff difference shall rescind the purchase contract. Adjusting the contract price to reflect an actual loan payoff amount is not
bushing if the dealer complies with the requirements of this subsection.

[12] VEHICLE Rebates. (a) The existence of a manufacturer’s or other rebate on a vehicle is a material item in determining the price of the vehicle. A purchase contract shall provide that if, for any reason, a purchaser does not qualify for a rebate that is refer-enced in the purchase contract as required by sub. (3) (g), the pur-

chaser may rescind the purchase contract unless the dealer dis-cunts the purchase price of the vehicle by the amount of the rebate. If a purchaser does not qualify for a rebate and the dealer will not provide a discount in the amount of the rebate, the dealer shall notify the purchaser in writing of the fact that the purchaser does not qualify for the rebate and notify the purchaser that the contract shall be rescinded unless, within 7 days, the dealer signs a new purchase contract for the vehicle for the new lower contract price. A purchaser’s refusal, within 7 days of receiving written notification, to execute a new purchase contract rescinds the original contract. A purchaser’s execution of a new contract after discard of the fact that purchaser did not qualify for a rebate waives purchaser’s objections related to the rebate.

(b) Delivering a motor vehicle to the purchaser without dis-closing in writing that the purchaser does not qualify for the rebate in the manner required under par. (a) is “bushing” under sub. (5) (c) unless the dealer provides a discount to the purchaser for the amount of the rebate and delivers the vehicle at the original coat-prin-

tice. (c) If a manufacturer rebate not referenced in a purchase con-tract becomes available based on the delivery date of a vehicle, and a retail purchaser qualifies for the rebate at the time of deliv-

ery, the rebate shall be awarded to the purchaser and the contract shall be amended accordingly as provided in sub. (1) (a). For pur-

poses of this section, “manufacturer rebate” means a rebate pro-

vided by the manufacturer directly to the purchaser, including when assigned to the motor vehicle dealer, and does not include manufacturer rebates or wholesale incentives to the dealer or manufacturer discounts from the wholesale price to the dealer.

[10] WAIVER. The use of a motor vehicle purchase contract which requires the purchaser to waive any claims the purchaser may have for breach of contract by the licensee is an unfair prac-

tice and prohibited.

[10] ADDITIONAL DISCLOSURES. The motor vehicle purchase contract shall clearly state “Contact the selling motor vehicle dealer to discuss any questions or problems about your vehicle or this contract. If you are unable to resolve any disputes with the dealer, you may contact: Division of Motor Vehicles, Dealer Serv.-

tion, Wisconsin Department of Transportation, P.O. Box 7099, Madison, Wisconsin 53707.” The Dealer Service license number motor vehicle dealers and obtains the administrative powers governing consumer protection in vehicle sale transactions, Ch. Trans. 139, Wis. Admin. Code.”

[11] CONTRACT REQUIREMENTS. A purchase contract for a used motor vehicle may not be executed with the retailer until the vehicle has been inspected and findings disclosed as required by s. Trans. 139.04 (4) and (5) unless no inspection is required under s. Trans. 139.04 (6) (c).

[12] (10) CONTINGENT PURCHASE CONTRACTS. A motor vehicle dealer who has a signed purchase contract to sell a particular vehicle to a purchaser that is subject to satisfaction of a purchase- er’s warranty before the purchase contract becomes final may accept purchase offers for that vehicle subordinate to that of the purchaser. Any such subordinate purchase offer shall include the disclosures required by sub. (12) (g).

[12] ORDER CHANGES. A dealer licensee shall notify a retail purchaser of any information changing the order or delivery of a vehicle, such as a change in options, equipment, price, or arti-

pate assembly and delivery date. Notification shall be within 3 business days from the date the dealer receives the information. History: CR Register March, 1975, No. 207, eff. 4–1–75, am. (1), (5) (b) and (h).

Trans 139.055 Financing. (1) DEALER ARRANGED FINANCING. (a) Notice to consumer regarding ineligibility for financing. If a motor vehicle purchase contract becomes binding upon the purchaser contingent upon the motor vehicle dealer pro-viding financing on terms disclosed to the purchaser in advance of the execution of the purchase contract, the contract shall pro-vide that if the dealer is unable to provide such financing, the con-tract shall be rescinded if the dealer provides notice to the pur-

chaser within 14 days of the contract date that financing is unavailable. If the dealer fails to timely provide such notice, the purchaser may elect to carry out the contract and the dealer shall, within 28 days of the contract date, finance the purchase of the vehicle on the terms specified in the contract and deliver the vehicle in the manner specified in the purchase contract.

(b) Establishing credit terms between the contract date and delivery date for a vehicle. With respect to a contract to purchase a motor vehicle that is contingent on the motor vehicle dealer arranging financing for the motor vehicle that is acceptable to the purchaser, a dealer may, subsequent to the contract date and prior to the purchaser accepting delivery of the motor vehicle, provide the consumer with notice that the dealer has arranged financing for the vehicle, in which the customer is qualified. If the transaction is a consumer transaction, the notice shall include all disclosures of the terms of the arranged financing that are required by the fed-real truth-in-lending including the amount to be financed, the annual interest rate, total principal and interest payments, and the monthly interest and principal payment due over the course of the loan. The notice shall state that the purchaser has 7 days to accept or reject the proposed financing. If the purchase contract is for a non-proposed financing, the financing contiguity of the contract shall be deemed satisfied, and the dealer shall be bound to provide financing on the terms set forth in the notice. If the purchaser rejects the proposed financing but waives the financing contiguity, the financing contiguity shall be deemed waived and the purchaser shall be bound to the contract without regard to whether the purchaser is able to secure financing. If the purchaser fails to respond to the notice within 7 days or rejects the proposed financing and does not waive the financing contingency, the purchase contract shall be rescinded.

[2] PURCHASER ARRANGED FINANCING. A motor vehicle purchase contract that is contingent on a purchaser arranging financing is rescinded if the purchaser does not provide evidence to the dealer that the purchaser has arranged acceptable financing for the purchase of the vehicle, such as a loan commitment letter, within a time established in the purchase contract.

[3] [NO USE ON VOID CONTRACTS. A dealer may not charge a fee or penalty to the purchaser in connection with a contract that is rescinded under this section.]

Trans 139.06 Warranties. For the purpose of this chapter, service contracts are not considered warranties, but for the pur-

poses of disclosure and performance as provided in subs. (1)
through (7) and in sub. (10), the term “warranty” shall include ser-vice contracts.

(1) CONTENTS. If a sale of a motor vehicle by a licensee is made subject to a warranty, the warranty shall be in writing and shall be provided to the purchaser at the time of delivery of the vehicle and shall include the following items:

(a) Clear identification of the names and addresses of the war- rantors.
(b) Clear identification of the purchaser to whom the warranty is extended.
(c) Parts covered. Use of the terms “power train” or “drive train” to describe parts or systems covered is prohibited.
(d) Exceptions and exclusions from the terms of the warranty. (e) A statement of what the warrantor shall do in the event of a defect or malfunction, at whose expense and for what period of time.
(f) A statement of what the purchaser shall do and expenses the purchaser shall bear.
(g) The procedure the purchaser should take in order to obtain performance of any obligation under the warranty, including the identification of any class of persons authorized to perform the obligations set forth in the warranty.
(h) DISCLOSURE. The elements of the warranty shall be stated in words or phrases which clearly disclose the nature or scope of the warranty.
(i) IMPLIED WARRANTY. No implied warranty of merchantabil-ity or fitness shall be excluded in the sale of a motor vehicle unless the sale is expressly nego- tiated between the purchaser and dealer licensee on an "AS IS—NO WARRANTY" basis and is in confor-mity with s. Trans 139.04 (6) (a) 5. No implied warranty of merchantability or fitness shall be modified or limited, except that implied warranties may be limited to the duration of a written lim-ited warranty of reasonable duration.
(j) ADVERTISING. Warranties shall not be advertised unless the basic terms and conditions of the warranty are disclosed in the advertisement.

(k) WITHOUT CHARGE. The use of the words "without charge" and other similar words or phrases in connection with the warrantor’s services or responsibilities under a warranty constitutes an unfair practice and is prohibited unless the warrantor does not assess any costs or charges in connection with the required repair or replacement of a warranted part or service.

(7) REPLACEMENT PARTS. Parts repaired or replaced by a dealer licensee on a new vehicle which was received from the manufacturer or distributor in a damaged condition shall carry the same warranty as the original parts, provided the parts are approved for use by the vehicle manufacturer or distributor for repair or replacement.

(8) EXTENDED WARRANTY. If a valid warranty claim made duri-ng the warranty period, as evidenced by a dealer repair order indi-cating date and mileage, cannot be remedied until after expiration of the warranty period, the warrantor shall continue to be obli-gated for the parts until properly repaired.

(9) REPLACEMENT PARTS. Parts repaired or replaced by a dealer licensee on a new vehicle which was received from the manufacturer or distributor in a damaged condition shall carry the same warranty as the original parts, provided the parts are approved for use by the vehicle manufacturer or distributor for repair or replacement.

(10) WARRANTY REIMBURSEMENT. (a) Manufacturers shall reimburse dealers for warranty repairs at the dealer’s effective labor rate charged all customers as required by s. 218.0116 (11), Stats., and any reasonable allowance for parts replaced. Manufacturers shall notify dealers of the acceptance or denial of a warranty claim within 30 days of receipt of the claim, and shall make payment to the dealer within 30 days of acceptance of the claim, except for instances beyond the manufacturer’s control.

(b) The "effective labor rate charged all customers" by the dealer is determined by dividing the total non-warranty charges by the total non-warranty repair hours billed by the dealership for each class of repairs for same make vehicles during the same period.

(c) Manufacturers may audit a dealer’s non-warranty repair records for various classes of repairs for same make vehicles to determine the effective labor rate charged all customers. In the event an audit by the manufacturer reveals an actual labor rate at variance with the labor rate established by the dealer, any liability of the dealer to the manufacturer is limited to the period of time covered by the audit.

(d) Manufacturers may not:

1. Audit dealer repair records written more than 2 years prior to the audit, unless there is evidence of criminal fraud.

2. Require the dealer to perform geographic or other surveys of hourly labor rates charged or received by other dealers.

(e) The same labor time computations shall be used, for example, Chilton’s, the manufacturer’s guidelines, straight time averages, for both warranty and non-warranty repairs for same make vehicles. Same make vehicles which are being compared for labor time computations may be up to 5 years old or have been driven up to 50,000 miles.

(f) Manufacturers shall increase a dealer’s warranty labor reimbursement rate not later than 30 days following a dealer’s notifying the manufacturer of a repair labor rate increase, unless an audit disclosure the dealer’s claimed labor rate is not the “effective labor rate charged all customers.”

(10) WARRANTY REIMBURSEMENT COMPLAINTS. Any department determination or licensing action based on a warranty labor complaint shall be based upon the information submitted to the department by the parties involved. The department shall not be required to conduct any on-site investigations or informational hearings.

(11) WARRANTY BASIC OBSESSION. (a) It is an unfair practice and prohibited for a warranty to fail to serve or repair a motor vehicle in accordance with the terms and conditions of the warranty or service contract.

(b) A dealer shall service or repair a motor vehicle under the same terms and conditions as a manufacturer warranty if dealer provides information to the purchaser that there is a remaining manufacturer warranty on the vehicle that will be honored by the manufacturer, and the vehicle is not warranted or the manufacturer subsequently rejects a request to transfer the warranty to the purchaser.

(c) A dealer shall service or repair a motor vehicle part under the same terms and conditions as a warranty if the dealer provides information to the motor vehicle purchaser that there is a remaining part warranty on a vehicle part for which there is no warranty or that the warranty expires before the purchase.

(d) A dealer shall service or repair a motor vehicle under the same terms and conditions as a third-party warranty if, before the purchaser accepts delivery of the motor vehicle, dealer provides information to the purchaser that there is a remaining third-party warranty on the vehicle that will be honored by the third party warranty and the vehicle is not warranted or the third party subsequently rejects a request to transfer the warranty to the purchaser.

(e) Under this subsection, a dealer’s obligation to honor a warranty that the dealer improperly discloses or claims to the purchaser is limited to providing motor vehicle service and repairs under the same terms and conditions. The original warranty would have been obligated to honor. A dealer’s obligation to honor a warranty is also limited by the expiration date or mileage set forth under the motor vehicle manufacturer, third party or part manufacturer warranty, or until the motor vehicle attains the age or mileage the dealer discloses to the purchaser in the Motor Vehicle Purchase Contract, in accordance with s. Trans 139.05 (2) (f), whichever is later.

Note: A dealer is not required to ascertain whether remaining warranty is available if the dealer does not provide information to the purchaser that there is an exten-sive warranty available for transfer to the vehicle purchaser, except that new car dual-
