Lehigh Cement Company	Mason City, IA	I, III	
St Marys, Inc.	Charlevoix, MI	I, II, III	
	Dixon, IL	I, II	Listed 10/18/2016

** A merger of Holcim and Lafarge has occurred in July 2015. The new name of the merged company will be LafargeHolcim. The former Lafarge plant at Davenport changed ownership to Continental Cement. The former Holcim plant at Mississauga, Ontario, Canada changed ownership to CRH Canadas Group. Do not reject cement as long as the name identified on the bill of lading or certification of compliance matches either the old names or the new names. This flexibility on names will be in effect through the end of calendar year 2016.

Note: Certified Mill Test Reports accompanying all cement shipments should be reviewed at the project level. If there is any notation on the mill cert that fly ash or slag has been added as a process addition during the manufacture of the cement, the maximum percent by weight of these materials added in the field should be reduced by the same amount. If questions, call Jim Parry at 608-246-7939.
