

**Broadway Street – City of De Pere
Riverside Drive – Village of Allouez**

**Public Information Meeting
February 20, 2013**

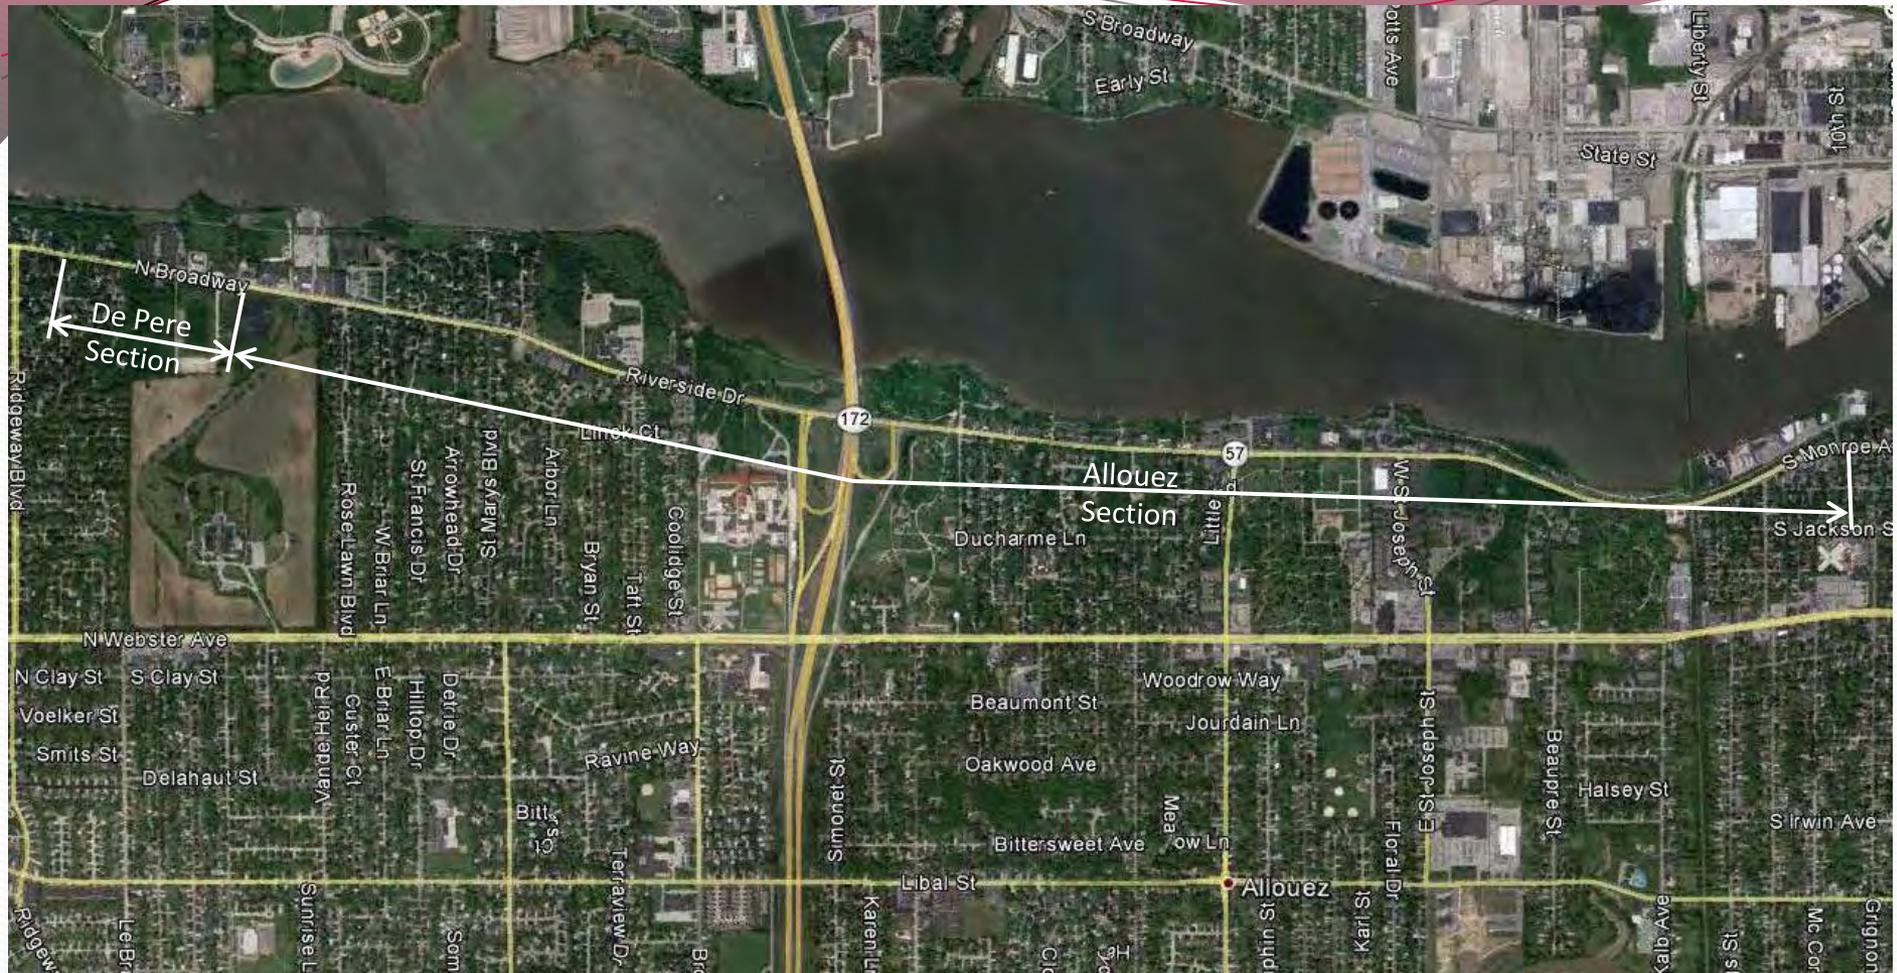

Presentation Agenda

- Project Overview/History
- Project Schedule
- Purpose and Need
- Open House/Questions

What are the project limits?

Project History

- 1989 & 1991 – WIS 57 widened from a two lane highway to current configuration.
- 2000 – Last pavement resurface project.
- 2012 (August) – Roadway design started.
- 2012 (October) – Field survey and intersection traffic counts.
- 2012 (October) – Meeting with local officials.

At what stage is the project?

- ✓ Fall 2012: Project Survey Begins
- ✓ February 2013: 1st Public Meeting
(Identify purpose and need)
- Spring 2013: Alternatives Development
- September 2013: 2nd Public Meeting
- Winter/Spring 2014: Preliminary Design
- Fall 2014: Complete Environmental Report
- Winter 2015: Begin Final Design
- 2016: Real Estate Needs Identified
- 2017: Utility Relocations
- 2018: Construction

Project purpose

- Provide a safe and efficient transportation corridor
- Minimize social, environmental and economic impacts
- Provide improvements that meet current WisDOT design standards
- Address operational, physical, and safety concerns along the highway.
- Improve facilities and crossings for pedestrians and bicyclists.

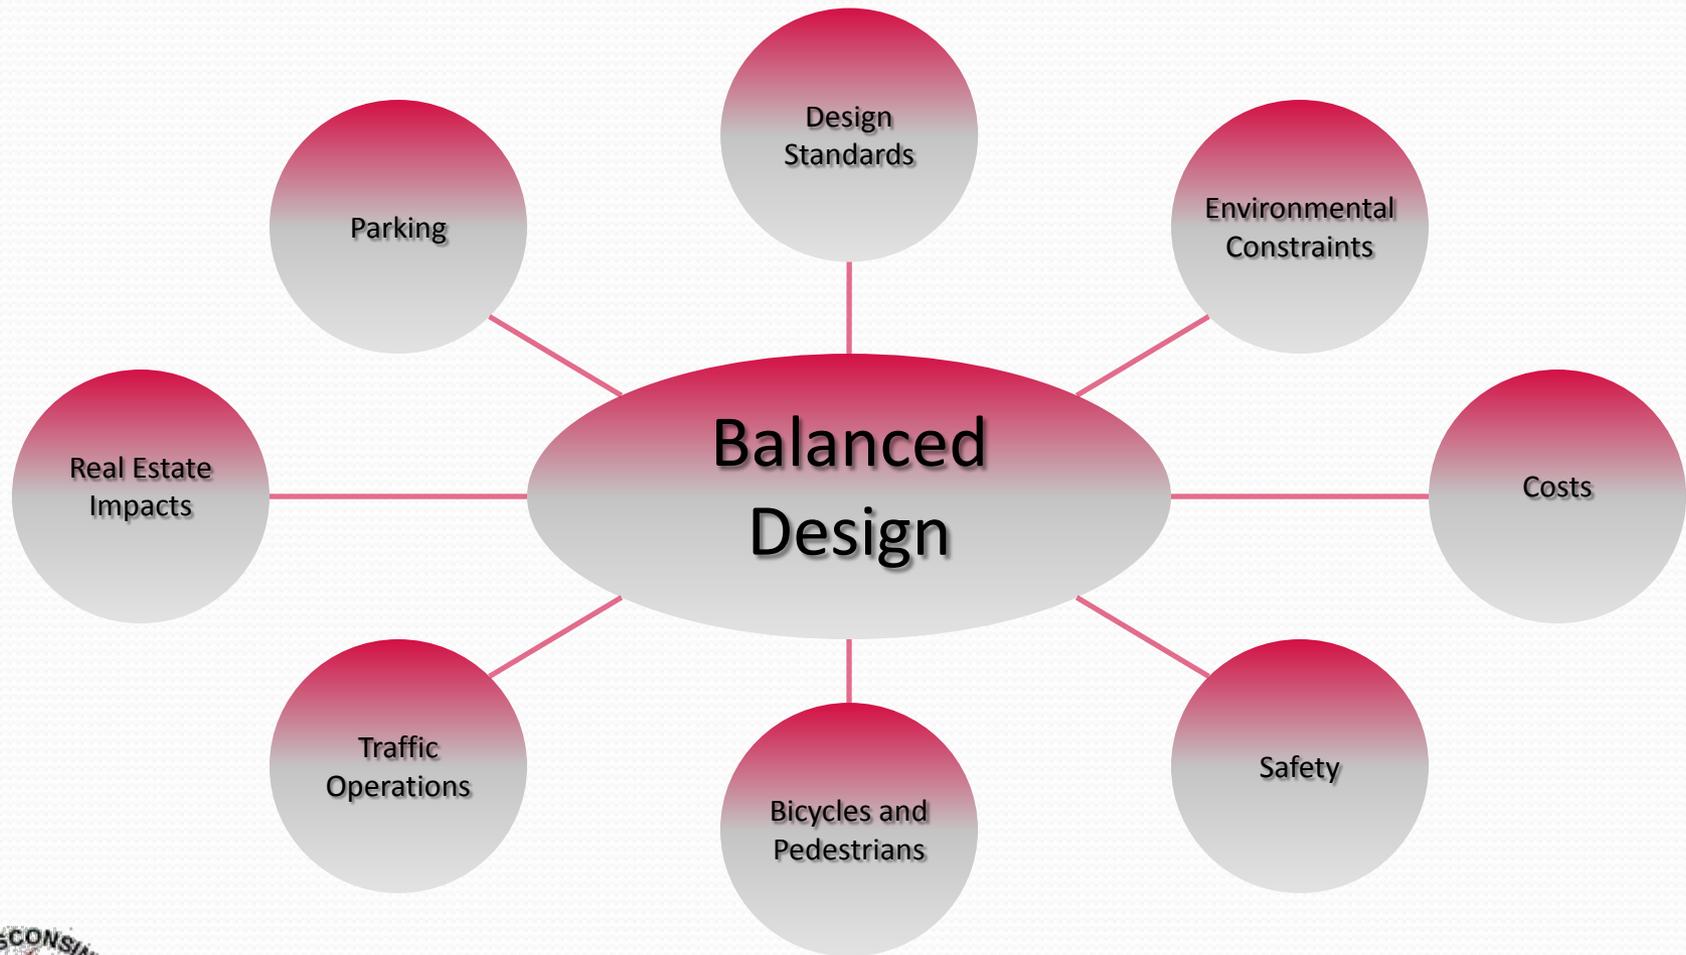

Reconstruction project need

Why do anything to WIS 57?

- Operational Concerns
 - *Increasing traffic volumes*
 - *High traffic speeds*
 - *Intersection safety*
 - *Lack of pedestrian crossings*
- Physical Concerns
 - *Deteriorating pavement*
 - *Aging public utilities*
- Safety Concerns
 - *Sight distances*
 - *Visibility at intersections*

Outcome of data gathering

Operational concerns

Physical concerns

Safety concerns

Best time to address all concerns:

Local needs

- *Pedestrian safety*
- *Utilities*
- *Aesthetics*

Regional needs

- *Mobility*
- *Safety*

Role of WIS 57

Connector Route

- *Connects population/recreation/employment centers in De Pere, Allouez, and Green Bay to WIS 172.*

What roles does WIS 57 play for YOU?

- *How do you use the corridor today? What concerns do you have along the corridor?*
- *How would you like to use the corridor in the future?*

Help us identify your concerns?

Safety Issues / Hazards

Infrastructure Issues / Areas of Concern

Natural, Historic, Local Environment

Multimodal
- Pedestrian / Bicyclists / Snow

Thank you for attending tonight's meeting!

- We need your input.
- Questions? Staff will be available to answer questions.
- Comment sheets available
- Please remember to sign in!
