

# US 12 / Wisconsin Dells Parkway Public Information Meeting

December 13, 2011

Welcome to the Public Informational Meeting for US 12 / Wisconsin Dells Parkway. At this meeting the project team will discuss both short-term and long-term solutions for the Wisconsin Dells Parkway from WIS 23 (Munroe Avenue) to WIS 13 (Broadway Street).

## Short-Term (Resurfacing)

The pavement structure of the US 12 / Wisconsin Dells Parkway corridor is at the end of its useful life. Resurfacing is planned for the Wisconsin Dells Parkway from Adams Street to WIS 13 (Broadway Street) and is anticipated to be complete in late 2012. This maintenance will provide a reasonable driving surface to meet the short term needs of the corridor.

In August 2011, a roadway safety audit was performed by the GRAEF team that identified locations where pedestrian beacons may be added as part of the resurfacing project.

## Long-Term (Corridor Study)

A long term solution for the US 12 corridor needs to be addressed with improvements that will balance access, mobility and safety for all modes of transportation.

A safety study was performed in February 2011 that identified locations of safety concerns along US 12 and evaluated conceptual costs for potential corridor improvements. This public information meeting serves as a kick-off meeting for a complete planning study for the corridor. This will be your first opportunity to communicate concerns and share ideas for long-term improvements to the corridor as a whole.

## How to get involved:

Community input is imperative to make the Wisconsin Dells Parkway Project Successful. Your input on the following topics is greatly appreciated.

- What are the concerns/problems with the current facility?
- What type of pedestrian improvements would you recommend?
- Where are the heavy pedestrian crossing locations?
- What type of improvements could be made to the number of driveways and the current configuration?
- What type of improvement do you feel will address the concerns along the corridor?

A successful Wisconsin Dells Parkway Project will address the roadway issues in a manner that meets the needs of its users and remains an asset to this unique vacation destination.

Project ID 6145-01-32, 6145-01-01

WIS 23 (Munroe Ave.) to  
WIS 13 (Broadway St.)

## Public Information Meeting

December 13, 2011

3:30 – 6:30 p.m.

4:00 p.m. Welcome/Intro

Crystal Grand Theater -  
430 W. Munroe Ave.,  
Wisconsin Dells
