Project limits

PROJECT LOCATION
STRUCTURE B-14-067

Project limits

Purpose and need

- The purpose of the project is to address deteriorating concrete and moderate rusting

Purpose and need

- The concrete has large spalls with exposed rebar

Purpose and need

- The steel girders have moderate rust and the paint is failing at areas of corrosion

Purpose and need

- Corrective action is needed to address the large concrete spalls, rusted steel members, and areas of failing paint

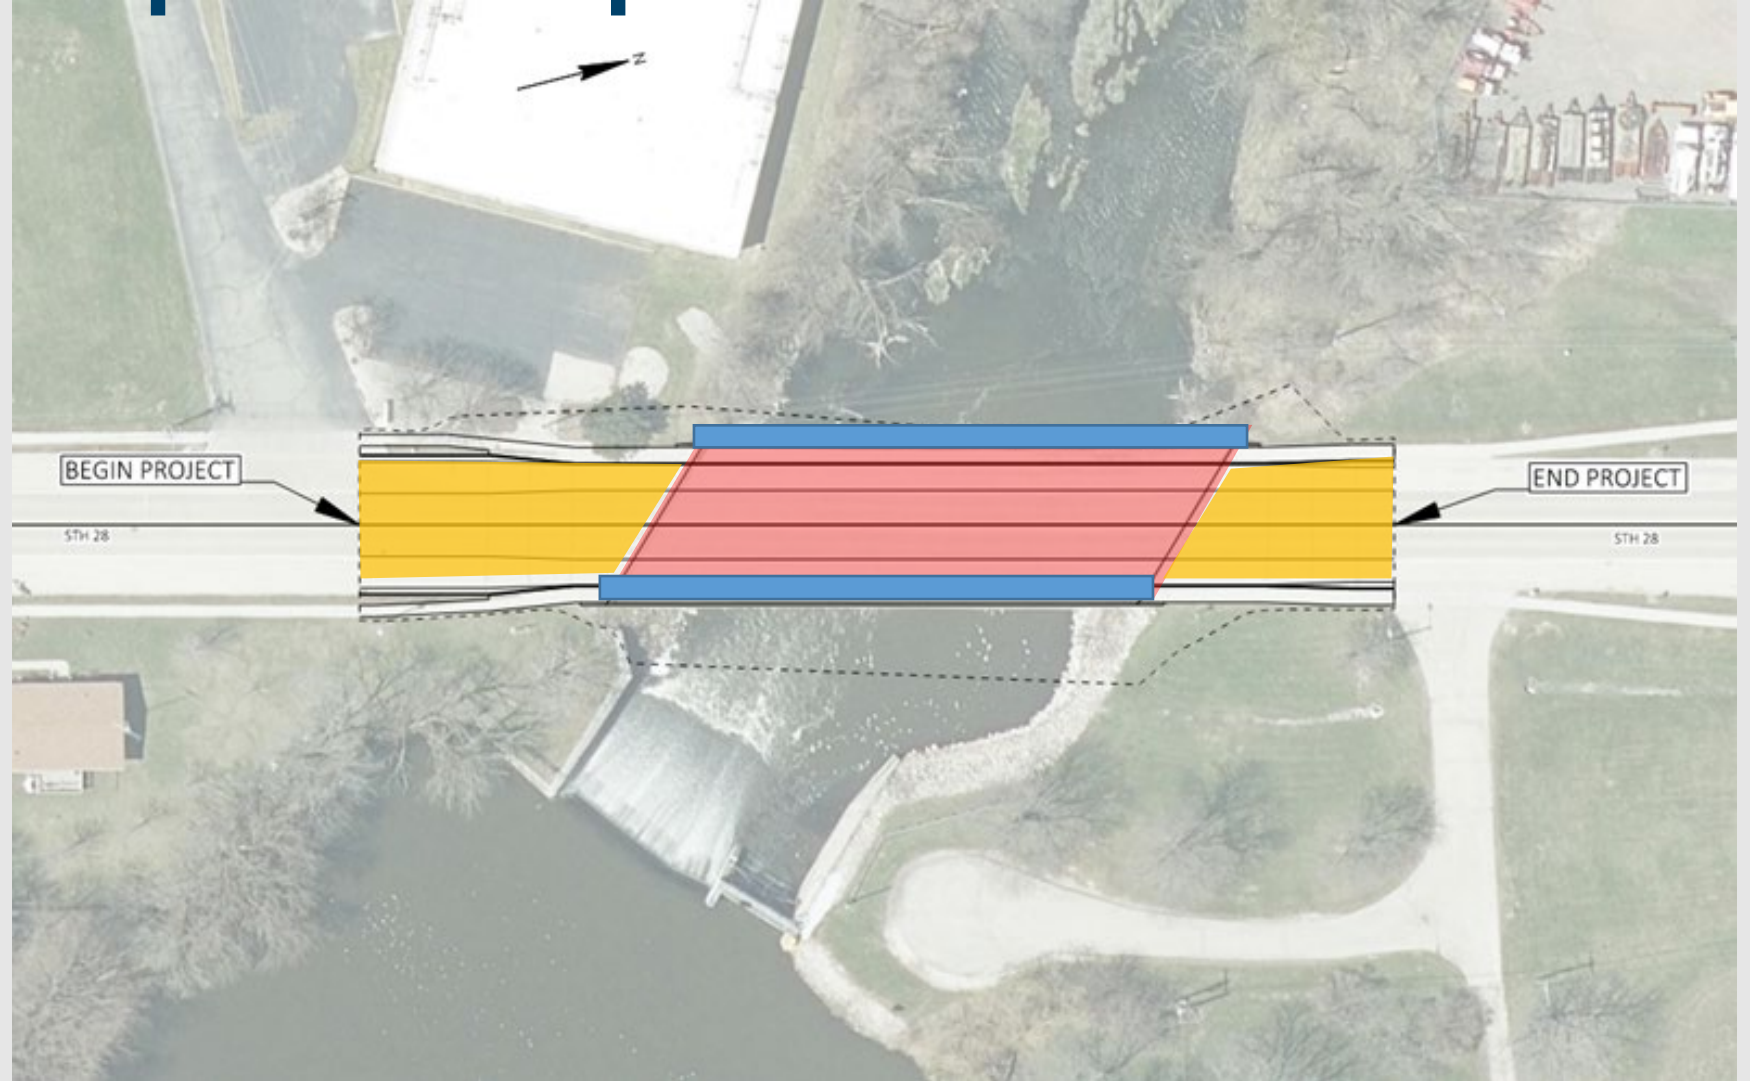

Proposed improvements

- Replace bridge deck
- Repaint girders in areas of rust
- Replace roadway approaches leading up to bridge
- Concrete surface repairs at the abutments
- Additional riprap at abutment slopes
- Widen sidewalk from 5' to 6' on the bridge

Proposed improvements

- Replace bridge deck
- Replace roadway approaches
- Widen sidewalk on bridge from 5' to 6'

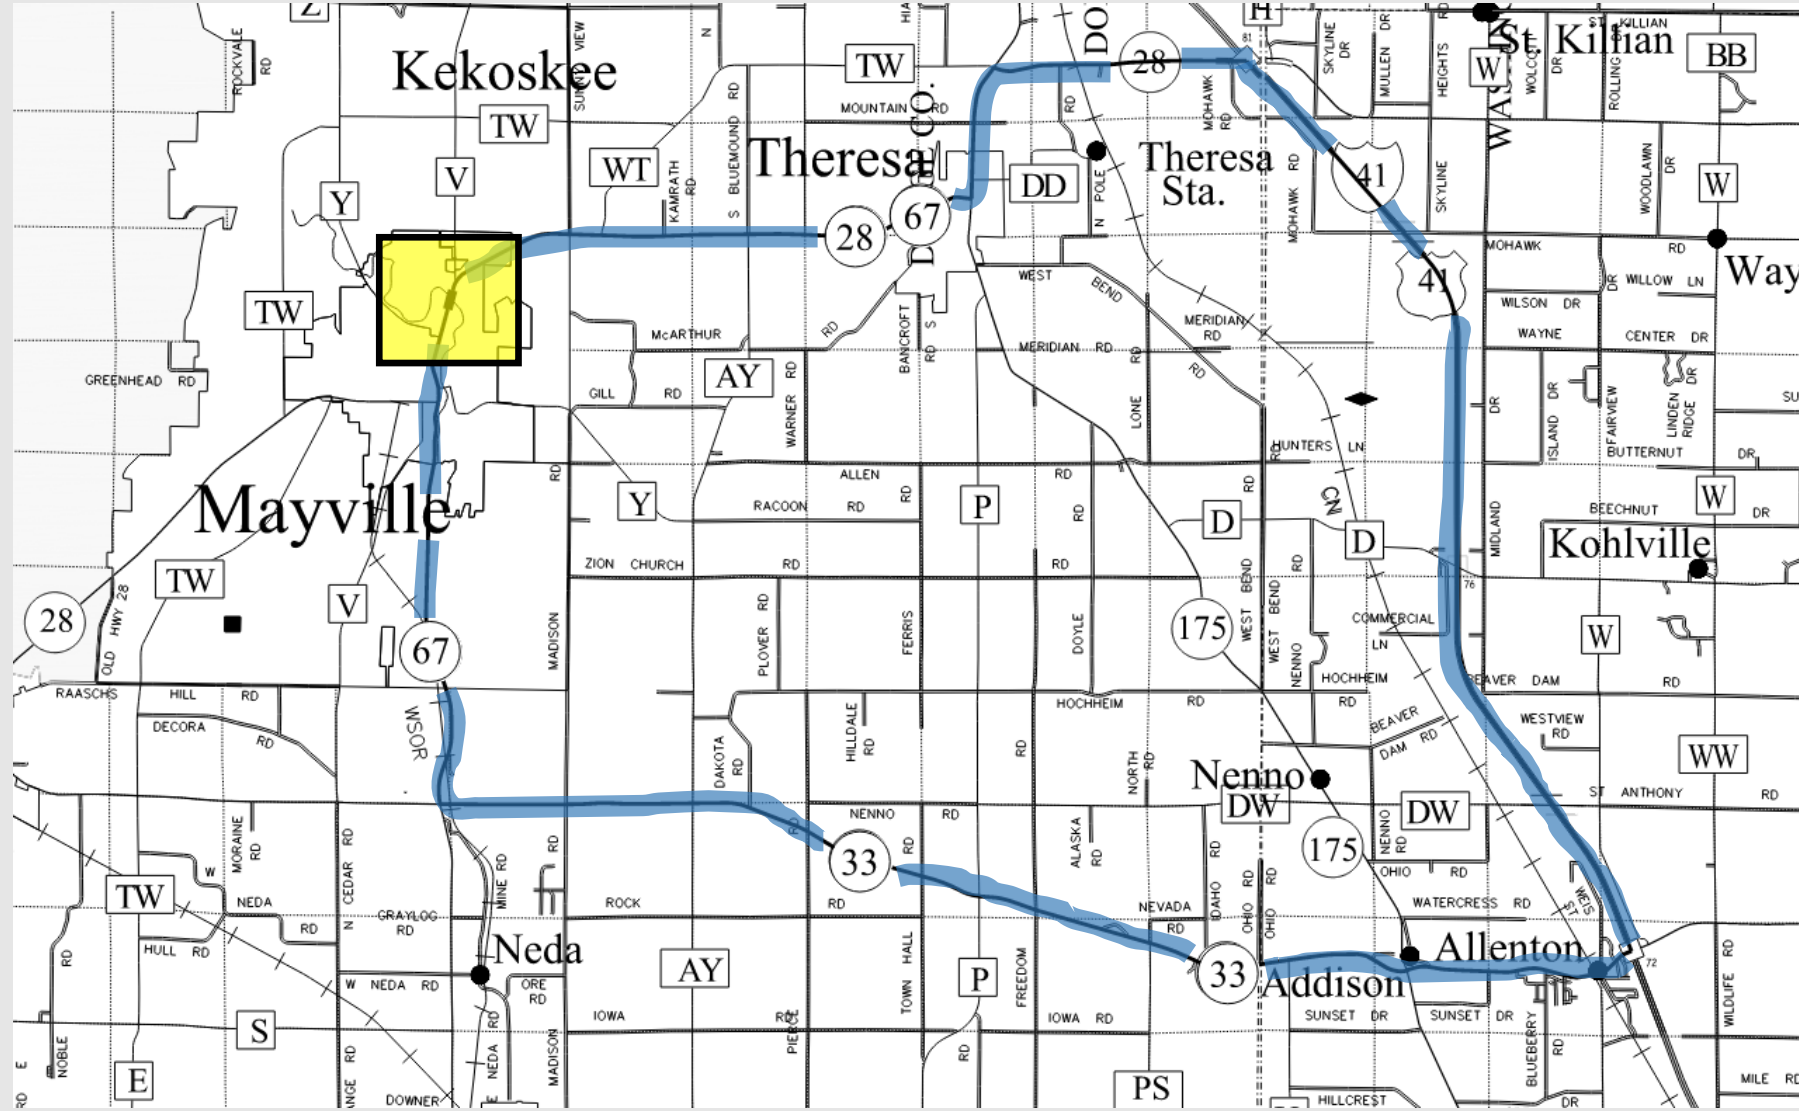

Proposed improvements

- Example of concrete surface in need of repair
- Example of a potential area for additional riprap
