Certified technicians use a variety of resources when checking seats. Check with your organization or fitting station to determine if a LATCH/tether manual and a CD with car seat instructions are available for your use. If not, or if you are the first in your organization to be a certified technician, we recommend pre-ordering these resources for delivery on the first day of class. You may include payment with your registration fee or call for an invoice. Items MUST be pre-ordered. Extras are not available at the class.

Please checkmark which items you would like to pre-order.
