Project I.D. ____ - ____ - ____
_____ To _____ Road
(USH) ((STH) ____
_____ County

We are in the process of preparing the final plans and specifications for the above-mentioned project. This project is for the rehabilitation of STH __, which crosses your railroad track in the _____ of _____ as shown in the attachments. In the vicinity of the railroad crossing we propose to _____.

As part of the project, we will construct a _____ line that will cross under your railroad track(s). The attached documents show our design for the _____ crossing. We ask that you review the design and provide us with your concurrence or comments by _____, _____. In the absence of comments we will construct the _____ crossing in accordance with our design as shown. Since the _____ line is a highway appurtenance, a railroad utility crossing permit is not required.

If you have any questions about this work please feel free to contact me at ____ - _____. E-Mail _____ . The highway project is scheduled for letting on _____, _____.
Thank you.

Project Manager.

cc: _____, Region Railroad Coordinator
