

Wisconsin Department of Transportation _____

August 6, 1999

MARK VIDAS
BRUNETTE ELECTRIC COOPERATIVE
5308 MARSH ROAD
MCFARLAND, WI 53558

Dear Mr. Vidas,

**NOTICE OF POTENTIAL CONFLICT
Non-TRANS 220 Project**

RE: Project I.D. 3421-00-71
Delavan - Darien Road
(Delavan - Allens Grove)
STH 15 Walworth County

The Wisconsin Department of Transportation will be reconstructing the above project. Work will include widening of shoulders, changing the grade line from CTH X to CTH D, curb and gutter storm sewer work in Delavan and in Allens Grove, replacing the box culvert at Turtle Creek, and re-decking the bridge over Swan Creek.

Brunette Electric Cooperative (BEC) has facilities that are in conflict with this project which is scheduled for construction in 2001. Please review the enclosed materials to determine where your facilities are in conflict with the proposed highway project and to develop a relocation plan.

Enclosed for your use are the following:

1. A county map showing the general location of the project. This project is located in Sections 23, 24, 26, 27, 31 and 32 of Darien Township, Town 2 N, Range 15 East in Walworth County.
2. Right-of-Way Plat 3421-00-21. Please review this plat carefully. If BEC's facilities are not shown correctly, please let us know so that we can correct our records. **It is very important that your facilities are shown correctly on this plat.** This information is placed on our construction plan and detail sheets which are used by all construction field personnel. **Uncorrected location errors could have serious consequences.**
3. Plan and profile sheets and cross-sections for the mainline and crossroads for the portions of the project where you have facilities.
4. Storm sewer design detail sheets for the portions of the project in Delavan and Allens Grove.
5. A "Utility Worksheet" form to assist you in providing the information we need regarding your relocation plans.
6. A list of utility contact people for this project. This list may be used to coordinate your relocation activities with the other utilities.

7. List of real estate commitments made to property owners that may affect your design. There may be additional commitments made later, which will be forwarded to you.

There are two environmentally sensitive areas on the project:

The property near Station 125+00 on the right is a former gas station. Contaminated soils have been detected in that area. Additional information regarding this site can be obtained by calling Gayle Monroe at (xxx) xxx-xxxx.

The house at 516 Barnes Street (Station 137+00 left) is on the National Register of Historic Places. Any aboveground facilities in that area should be designed with that in mind. If you have any questions regarding this site or the suitability of your design, please contact Joan Bruggink at (xxx) xxx-xxxx.

We have identified potential conflicts with BEC facilities from Station 120+50 to Station 250+00, and on CTH X and CTH D near the STH 15 intersections. However, it is important that you independently evaluate all possible conflicts.

DEADLINES: The design complete date for this project is April 1, 2000, with a construction letting date of October 15, 2000. The work is scheduled to take place during the 2001 construction season. It would be best if you could do your relocation work in the summer and fall of 2000. **We will need a reply from you by January 30, 2000** so that we can include the information regarding your relocation work into our highway plans. **Your reply should consist of sketches of your proposed work along with the completed "Utility Worksheet" form.** If you prefer not to use the form, you must at least provide the information requested on the form.

If you have any questions regarding this letter, utility coordination, or utility permits, please contact me at (xxx) xxx-xxxx.

Additional contact people for this project:

Design questions: Dave Solberg, xxx-xxx-xxxx

Real Estate acquisition questions: Craig Rusch, xxx-xxx-xxxx

Survey questions: Jim Kropp, xxx-xxx-xxxx

We appreciate your cooperation and assistance in our project development efforts.

Sincerely,

Ron Smith
SE Region Utility Coordinator

PROJECT PLAN TRANSMITTAL

Wisconsin Department of Transportation

DT1078 11/2005 (Trans. 220 WI Admin. Code)

Pursuant to s.84.063 Wisconsin Statutes, the Wisconsin Department of Transportation is furnishing the number of sets specified below of the available plan showing all existing utility facilities known to the department where they will conflict with the improvement identified below.

To	From – Name, Address, City, State, ZIP Code
Improvement Project ID <i>6918-00-71</i>	County Columbia
Highway Route Number or Name <i>Bus USH 51</i>	
Improvement Limits <i>Main Street to Broadway Avenue, City of Portage</i>	
Number of Plan Set(s) <i>Two</i>	Anticipated Year of Improvement Construction
Project Classification <i>Reconstruction</i>	Work Plan Due Date <i>8/31/1994</i>

For the purposes of Trans. 220.05(4), this improvement is classified as indicated above. Your work plan is required at the above address on or before the due date indicated.

Transportation Region Name <i>Southwest</i>
Consultant Name

(Region or Consultant Representative Signature) (Date)
(If Computer-filled, Brush Script Font)

Region Utilities Coordinator

(Title)

PROJECT PLAN ACKNOWLEDGEMENT

Return this form within 7 days of receipt to address shown above.

Receipt of the above transmittal is acknowledged.

Utility Name
Utility Representative Name – Please Print

RE: Potosi - Cassville Road
(Potosi - CTH "N")
STH 133

Design Project I.D. 5205-03-00
Construction Project I.D. 5205-03-71
Grant County

This letter is being sent to satisfy the legal requirements of Wisconsin Statute 84.063 and Administrative Rule TRANS 220:

- 1) **Within 7 days of receipt of this letter, you'll need to sign and return the "Notice Acknowledgment" portion of the Project Plan Transmittal form. A business reply envelope is enclosed.**
- 2) **Within **** days you'll need to submit a Work Plan to describe what relocations will be required by this project. A Utility Worksheet is enclosed to help you develop a complete Work Plan.**

Within the limits of this project, your company has facilities, some of which are in conflict with this proposed project. A list of conflicts is attached. Even though we're providing this list, the final responsibility for conflict identification lies with you.

Remember that in fill sections and in transitions between cuts and fills, it is common for cuts of from 6" to 18" to occur when removing the existing pavement or topsoil, before the fill is added. Further, pay particular attention to ditch cuts; culvert, end wall, and cattle pass replacements and extensions; and driveway construction. All of these seemingly minor operations can affect your facilities in major ways.

(OPTIONAL PARAGRAPH, INCLUDE ONLY THOSE ITEMS THAT APPLY)

Enclosed are the following:

1. Project Plan Transmittal form (DT1078) and Project Plan that includes a Right-of-Way Plat, Plan and Profile Sheets, cross sections, and intersection details.
2. Utility Worksheet, as mentioned above.
3. County map showing the general location of this project.
This project is located in Sections 19, 29, 28, 27, 34, 35 and 36 of Waterloo Township in Town 3 North, Range 4 West, Grant County.

4. Project Synopsis, which includes a list of environmentally sensitive areas.
5. List of Possible Conflicts.
6. List of utility contact people for this project. This list may help you coordinate your relocation work with the other utilities.
7. List of real estate commitments made to property owners that may affect your design. There may be additional commitments made later, which will be forwarded to you.

DEADLINES: As stated on Form DT1078, we will need your **Work Plan or the enclosed Utility Worksheet and sketches by May 15, 1999.** This project's design complete date is July 1999, with a construction bid letting scheduled for March 2000.

We appreciate your cooperation and assistance in our project development efforts.

Sincerely,

Deb Brucaya
SW Region Utility Coordinator

CONTACTS LIST:

Deb Brucaya	608-246-3853	Technical Service Section - Utility Unit
Ben Heninger	608-246-3172	Project Development Section - Project Sup.
Sean Mulloy	608-246-5861	Project Development Section - Project Manager
Riley Heninger	608-246-7918	Technical Service Section - Survey Coordinator
Kevin Watts	608-246-7390	Technical Service Section - Real Estate Agent

Enclosures

This letter may be used on Trans. 220 Projects for utility companies that do not have a land interest. (There is no utility parcel for this company on the right of way plat.)

Design Project I.D. 5205-03-00
Construction Project I.D. 5205-03-71
Grant County

This letter is being sent to satisfy the legal requirements of Wisconsin Statute 84.063 and Administrative Rule TRANS 220:

1. Within 7 days of receipt of this letter, you will need to sign and return the "Notice Acknowledgment" portion of the Project Plan Transmittal form. A business reply envelope is enclosed.
2. Within **** days you will need to submit a Work Plan to describe what relocations will be required by this project. A Utility Worksheet is enclosed to help you develop a complete Work Plan.

Facilities and/or easements owned by your company have been identified in areas of proposed new right of way being acquired for this project. It will be necessary to acquire easement rights from your company. I expect no conflicts between our proposed construction operations and your facilities within the project limits, so I have not included a utility agreement form in this mailing. However, we will need a release of rights document from your company.

I am not sending a release of rights document at this time because the Transportation Project Plat for this project has not been recorded at the County Register of Deeds office. The appropriate release of rights document will be sent to you after the plat has been recorded.

If you agree with this "no conflict" determination after you have reviewed the enclosed plans, then you can fulfill your TRANS 220 Work Plan responsibilities by doing the following:

1. State under Item 1, on the enclosed Utility worksheet **"A relocation plan is not needed. We have reviewed the proposed plan and agree with the DOT that no conflicts are expected between the highway work and our facilities."** (or a variation of this).
2. State under Item 6 that your facilities are shown accurately.
3. List a contact person in Item 8.
4. Fill out the date, name and phone number of the person who prepared the worksheet.
5. Return the worksheet.

If you disagree with this "no conflict" determination, please call me to explain and I will send you the appropriate utility agreement documents.

Remember that in fill sections and in transitions between cuts and fills, it is common for cuts of from 6" to 18" to occur when removing the existing pavement or topsoil, before the fill is added.

Further, pay particular attention to ditch cuts; culvert, end wall, and cattle pass replacements and extensions; and driveway construction. All of these seemingly minor operations can affect your facilities in major ways. (OPTIONAL PARAGRAPH, INCLUDE ONLY THOSE ITEMS THAT APPLY)

Enclosed are the following:

1. Project Plan Transmittal form (DT1078) and Project Plan that includes a Right-of-Way Plat, Plan and Profile Sheets, cross sections, and intersection details. A self-addressed return envelope is included to assist you in meeting the 7-day "Notice of Acknowledgment" deadline.
2. Utility Worksheet, as mentioned above.
3. Conveyance of Rights form DT1660. **(Do not send at this time if a Transportation Project Plat (recordable plat) is involved.)**
4. County map showing the general location of this project. This project is located in Sections 19, 29, 28, 27, 34, 35 and 36 of Waterloo Township in Town 3 North, Range 4 West, Grant County.
5. Project Synopsis, which describes the work to be done and includes a list of environmentally sensitive areas.
6. List of utility contact people for this project. This list may help you coordinate your relocation work with the other utilities.
7. List of real estate commitments made to property owners that may affect your design. There may be additional commitments made later, which will be forwarded to you.

DEADLINES: As stated on Form DT1078, we will need your Work Plan or the enclosed Utility Worksheet by May 15, 1999. This project's design complete date is July 1999, with a construction bid letting scheduled for March 2000. I will send you the release of right document as soon as it is available.

We appreciate your cooperation and assistance in our project development efforts.

Sincerely,

Deb Brucaya
SW Region Utility Coordinator

This letter is being sent to satisfy the legal requirements of Wisconsin Statute 84.063 and Administrative Rule TRANS 220:

1. Within 7 days of receipt of this letter, you'll need to sign and return the "Notice Acknowledgment" portion of the Project Plan Transmittal form. A business reply envelope is enclosed.
2. **Within **** days you'll need to submit a Work Plan to describe what relocations will be required by this project. A Utility Worksheet is enclosed to help you develop a complete Work Plan.**

Facilities and/or easements owned by your company have been identified in areas of proposed new right of way being acquired for this project. It will be necessary to acquire easement rights from your company, as well as provide for reimbursement of the eligible relocation work. A list of reimbursable interests and conflicts is attached. NOTE: Even though I'm providing this list, equal responsibility for conflict identification lies with you.

I am not sending a release of rights document at this time because the Transportation Project Plat for this project has not been recorded at the County Register of Deeds office. The appropriate release of rights document will be sent to you for execution after the utility agreement has been approved

Remember that in fill sections and in transitions between cuts and fills, it is common for cuts of from 6" to 18" to occur when removing the existing pavement or topsoil, before the fill is added. Further, pay particular attention to ditch cuts; culvert, end wall, and cattle pass replacements and extensions; and driveway construction. All of these seemingly minor operations can affect your facilities in major ways. (OPTIONAL PARAGRAPH, INCLUDE ONLY THOSE ITEMS THAT APPLY)

Enclosed are the following:

1. Project Plan Transmittal form (DT1078) and Project Plan that includes a Right-of-Way Plat, Plan and Profile Sheets, cross sections, and intersection details. A self-addressed return envelope is included to assist you in meeting the 7-day "Notice of Acknowledgment" deadline.
2. Utility Worksheet, as mentioned above.
3. Conveyance of Rights form DT1660 OR Quit Claim Deed form DT1661. **(Do not send at this time if a Transportation Project Plat (recordable plat) is involved.)**
4. Audit Agreement form DT1541 and Lump Sum Agreement form DT1542. You may use whichever agreement is appropriate if the amount of the agreement is less than \$35,000. The Audit Agreement must be used if the amount of the agreement is larger than \$35,000. If you decide to use the Audit Agreement, pay particular attention to Provision #3 of the agreement that pertains to subcontracting.
5. County map showing the general location of this project. This project is located in Sections 19, 29, 28, 27, 34, 35 and 36 of Waterloo Township in Town 3 North, Range 4 West, Grant County.

6. Project Synopsis, which describes the work to be done and includes a list of environmentally sensitive areas.
7. List of possible utility conflicts, with compensable areas identified. If you disagree with what has been identified as compensable, please call me to discuss.
8. List of utility contact people for this project. This list may help you coordinate your relocation work with the other utilities.
9. List of real estate commitments made to property owners that may affect your design. There may be additional commitments made later, which will be forwarded to you.

In connection with the Agreement, I authorize you to prepare plans, estimates, and sketches documenting the anticipated relocation work. The plan should show both the present affected facility and the relocated or replaces facility with ties to highway stationing so that the location can be readily identified. Base your estimate on standard accounting practices and applicable portions of the Code of Federal Regulations 23, Part 645, Subpart A-Utility Relocations, Adjustments and Reimbursement. Include appropriate credits for used life, salvage, and betterment, or a statement declaring there are none.

Construction authorization for this work is NOT hereby extended. Any construction performed before a written or verbal start work notice is received from me may not be reimbursed.

DEADLINES: As stated on Form DT1078, we will need your **Work Plan or the enclosed Utility Worksheet**, the signed **Conveyance of Rights (or Quit Claim Deed) form**, the signed **Agreement** and **four (4) copies of your estimate and sketches** by **May 15, 1999**. This project's design complete date is July 1999, with a construction bid letting scheduled for March 2000.

SUBCONTRACTING: You may intend to hire a consultant to prepare your work plan and engineer your relocation design, or you may propose to hire a contractor to perform the necessary relocations. As long as the consultant and the contractor you use are regularly employed in your operations under a continuing contractual arrangement, there is no need to contact me. If not, however, please call me to discuss the additional information I'll need from you.

We appreciate your cooperation and assistance in our project development efforts.

Sincerely,
SW Region Utility Coordinator
