647-005	Pavement Marking Warranty Bars Epoxy 6-Inch

Other SDDs associated with this drawing:

NONE

Design Notes:

WisDOT has a moratorium on all Hot Mix Asphalt (HMA) warranty projects. Therefore, the information provided herein is for informational purposes only.

This SDD and bid item are only to be used with the Warranted HMA bid items. The pavement marking for warranty projects is to aid in identifying locations on the pavement during the 3 year and 5 year pavement monitoring periods. The pavement marking will not be maintained after the warranty has expired.

Always use STSP 647-005 with warranty projects (projects using STSPs 460-001 and/or 495-005) to place marks across the centerline to identify warranty projects.
