

What is the Employer Notification Program?

The Employer Notification program is part of the Public Abstract Request System (PARS). PARS is a secure Web-based system that allows participating account holders to have instant access to driver and vehicle record abstracts via Portable Document Format (PDF) images. The Employer Notification program will identify any enrolled employee with recent activity on their driving record and allow the account holder immediate access to the current driver record abstract.

Who can belong to the Employer Notification Program?

Employer Notification is available to employers of regular Class D drivers and commercial drivers (CDL). Employers may enroll any employee.

What does it cost?

Non-Government agencies are charged \$5 for each driver or vehicle abstract request.

There are no annual fees, minimum monthly fees or enrollment fees associated with PARS or the Employer Notification program.
