This map is accurate from September 1, 2022 through November 30, 2022. Current maps are posted at https://wisconsindot.gov/Pages/dmv/agri-eq-veh/ag-permits.aspx.

This map accompanies a permit to operate only on Wisconsin and U.S. Highways for self-propelled implements of husbandry (s. 340.01(24)(a), Wis. Stats.) and agricultural commercial motor vehicles (s.340.01 (1o), Wis. Stats.).

Operation on municipal, town or county roads must be authorized by the maintaining authority for those roads.

The permit that accompanies this map requires that these loH and/or Ag CMVs be operated at or below a maximum single axle weight of 25,000 lbs per axle.

This map highlights the bridges and pavement segments on which travel is restricted for these vehicles. Those bridges and pavement segments are further identified in accompanying lists. Refer to the map key and permit for other operating conditions.

Please call us at (608) 266-7320 or email us at AgVehicles@dot.wi.gov if you have questions about this map or the accompanying permits or lists, or if you need to travel across a specific bridge or road segment identified as restricted.

**STATE OF WISCONSIN**

**Restricted Bridges and Roads**

For Self-propelled Implements of Husbandry (IoH) and Agricultural Commercial Motor Vehicles (Ag CMVs)

with maximum axle weight of **25,000 pounds**

- Prohibited bridges – operation prohibited above posted weights or above IoH/Ag CMV vehicle weight table (s. 348.15(5)(g), Wis. Stats.) and 25,000 lbs. single axle weight at all times

- Seasonally prohibited (Class II) roads – operation prohibited above IoH/Ag CMV vehicle weight table and 23,000 lbs. single axle weight during Spring Thaw – and above 25,000 lbs. single axle weight during remainder of year

- Interstate Highway – operation prohibited above standard vehicle weight table (s. 348.15(1)(c), Wis. Stats.) – this table has lower weights than the IoH/Ag CMV vehicle weight table
