

STATE OF WISCONSIN

Prohibited Bridges – September 1, 2020 – November 30, 2020

Accompanying the permit for self-propelled Implements of Husbandry (IoH) and Agricultural Commercial Motor Vehicles (AgCMVs) with **maximum axle weight of 30,000 pounds.**

- This list accompanies the permit that requires self-propelled implements of husbandry and agricultural commercial motor vehicles be operated at or below a maximum single axle weight of 30,000 lbs. per axle and at or below a maximum gross vehicle weight of 60,000 lbs. They must have a minimum tire gage of 6 feet and minimum axle spacing of 10 feet. This list identifies the bridges on which travel is **prohibited** for these vehicles. Prohibited bridges are further highlighted in accompanying maps. Refer to the map key and permit for other operating conditions.
- This list was determined based on engineering standards applied specifically to these vehicle configurations (spreader fleet and combines).
- The permit allows operation only on Wisconsin and U.S. Highways for implements of husbandry (s. 340.01(24)(a), Wis. Stats.) and agricultural commercial motor vehicles (s.340.01(1o), Wis. Stats.).
- Operation on municipal, town or county roads must be authorized by the maintaining authority for those roads.
- This list is accurate from September 1, 2020 – November 30, 2020. Current lists are posted on the DMV agricultural vehicles permit page at <http://wisconsindot.gov/Pages/dmv/agri-eq-veh/ag-prmts.aspx>.
- Please call us at (608) 266-7320 or email us at AgVehicles@dot.wi.gov if you have questions about this list or the accompanying permits or maps.
