

You've passed your knowledge test and gotten your Instructional Permit. Congratulations!

My Road Test Check List

Before scheduling your road test at www.wisconsindmv.gov, have you prepared enough for it?

Check the boxes when you're proficient.

I feel confident making lane changes at low and high speeds.

I know where all controls are and how to use them: headlights, emergency brake, mirrors, cruise control, etc.

I consistently select the correct lane without coaching.

I always check my blind spot when changing lanes, pulling out, merging into traffic, etc.

I consistently adjust my speed for weather or traffic conditions, emergency vehicles, road construction, etc.

I drive without requiring instruction from my accompanying driver.

I "read" each intersection upon approach, know its type (uncontrolled, all-way stop, right-turn no-stop, etc.) and what I should do.

I feel confident driving on all roads at low or high speeds in light, moderate or heavy traffic.

I consistently prepare to stop, drive through or turn when approaching a controlled intersection.

I can skillfully parallel-park, make a Y-turn, drive in reverse in a straight line for 6 to 8 car lengths and park my vehicle to within a foot of the curb.

I can drive safely on busy roads and keep up with traffic without speeding.

I have discussed this checklist and my progress with the people who've helped me practice and learn to drive. They also feel I am ready to take the skills test.

BE A REBEL

drive sober
