Executive Order #35 emergency oversize-overweight permit

Amended 9/26/2019 to add additional routes.

The permit is only valid for the transportation of raw forest products, lumber, or forestry biomass on the following routes:

* State HWY 64 between Pound WI. and Antigo WI.
* State HWY 32 between Mountain WI. and Laona WI.
* US HWY 141 from the junction of 141 and 64 in Pound North to Pembine.
* State HWY 55 from the junction of 55 and 64 near Langlade, north to the junction of 55 and 8 in Crandon.
* State HWY 52 from 10 miles east to 10 miles west of the junction of 55 and 52.

This permit does not authorize operation on municipal, town or county roads unless the city, village, town or county official with legal control of the road gives written approval for use of the road. Written approval must be carried with the permit and carried in the truck.

Vehicle configuration and length must comply with Michigan vehicle size law, and may exceed 75 feet for Michigan configured B trains.

In addition, a permit issued under this subsection does not authorize the operation of any vehicle or vehicle combination at a maximum gross weight in excess of 164,000 pounds. A 164,000-pound vehicle combination must have 11 or more axles.

This Executive Order #35 emergency oversize-overweight permit is valid until spring thaw (2020 Class II) declarations are issued impacting the designated routes or unless the department deems necessary.
