A driver school may not instruct any student until a contract/agreement in a form approved by WisDOT has been completed and signed by all parties.

A contract/agreement may not guarantee the issuance of a Wisconsin driver license.

No licensee may agree to give unlimited lessons, nor represent or agree, orally or in writing, or as part of an inducement (lure) to sign any agreement to give instructions until the student obtains an operator’s license.

No Agreement may contain a “no refund” clause. It may include the following: “The school will not refund any tuition or part of tuition if the school is ready, willing and able to fulfill its part of the agreement.”

Additional driving time may be used to replace observation time at the rate of 1 hour of driving replacing 2 hours of observation, but the contract/agreement must clearly show the comparison cost.

**Fee Schedule**

Each school must develop its own fee schedule. A standard form is not available from WisDOT.

Application for a driver school license shall be accompanied by a schedule of maximum fees and charges per hour for instruction of students.

**Student Record**

Each school must develop a form (paper and/or computer) to record student information. A standard form is available on the WisDOT website at Driver Training School – Student Record Card. A copy of the form developed by the school must be submitted for approval with the school driver license application.

The records shall be in the form of an individual student record for each person listed in the records required by WI Stat 343.71(1M).
Each record shall indicate:

- Name – Last, first and middle initial
- Home address
- Date of birth

The owner/manager must have passed the Driver School and Instructor’s test with a score of at least 80%

WI Admin Code Trans 105.01(6)

**Instructor**

At least one licensed instructor must be listed for all license types. Each Instructor must submit a separate Driver Instructor Application MV3112.

No person, including a person holding a driver school license, may act as an instructor in a driver school unless the person holds a valid instructor’s license issued by the department. No driver school may employ any person as an instructor unless the person holds a valid instructor’s license issued by the department.

WI Stat 343.62(1)

The school is responsible for checking a potential applicant’s driving record. To check a driving record:

In order to be eligible for approval, instruction shall consist of 30 clock hours in the classroom, extending over a minimum of 3 weeks for each student at no more than 2 clock hours per day.
A break is permissible between the first and second hour. Time specified for breaks does not count towards the 30-clock hour requirement. During a two-hour class, if a fifteen-minute break is given between the session, the student should be at the location for 135 minutes. A course is not approved when students begin the class on alternate days. All students must be present for every session except if a student is absent for any legitimate reason, the absence and the make-up session must be marked on the student’s record.

**Behind the Wheel**
A licensee may not begin behind-the-wheel training with a new student unless certified proof of completion of an approved classroom phase is on file with the agreement in the licensee’s office. However, this does not apply if the student is either enrolled in an approved behind-the-wheel phase at a different school or has completed the approved course.

**Number of people in a driver training car**
Up to four students may be present along with the certified instructor. The instructor and driver are the only individuals allowed in the front seats. Three observing students may be present in the rear seats of the vehicle as long as seat belts for each are available.

Behind-the-wheel instruction must contain 6 clock hours of actual driving and 6 clock hours of observation are allowed per day. The course must extend over a minimum of 3 weeks.

- Driving time may also be replaced by time using a driving simulator at the rate of 4 hours simulator training equaling 1 hour of behind-the-wheel training. Provided all training is with the same school and instructor. Only three hours of driving time can be substituted by time in the driving simulator.
- Separate lesson summaries must be approved for each time of BTW instruction based on the chart below:

Observation hours may be accrued concurrently with classroom instruction as long as the total number of observation hours per day does not exceed the 2-hour maximum.

**Background Check**
A background check will be completed by WisDOT upon receipt of application materials prior to determination of eligibility. Background checks will be conducted for each individual listed on the application including: owners, partners, managers, associates, directors and instructors.

Background checks will be performed at initial application and during instructor and school renewals.

Vehicle Requirements On-Going-Inspections
All vehicle requirements that are part of the original application for a driver school license continue to apply. All driver training vehicles must be registered with the department with a brief description of each, including the make, model, and registration number, and shall be kept in safe working condition, as established by the department. The department shall promulgate rules authorizing them to place any driver training vehicle out of service for a vehicle equipment violation or for failure to file, with the department, proof of insurance for the vehicle.

Each vehicle used for behind-the-wheel instruction must be inspected and certified that it meets established safety standards, documented by the completion of a Driver Training Vehicle Record MV3264 within 30 days of being put into service. An authorized representative of the department may make random inspections to assure compliance with department requirements.

Vehicles – More than 3 years old or 100,000 miles
The vehicle must:
- Be certified to meet all manufacture specifications for the vehicle type, model, and year, within 30 days of being put into service.
• Have the inspection completed by a motor vehicle repair shop. A “motor vehicle repair shop” means a natural person, corporation, partnership or other business association or entity engaged in the motor vehicle repair business but does not include a shop that repairs motor vehicles for a single business entity or for 2 or more entities subject to common control. (this is interpreted as if the shop only does repair work on the vehicles owned only by their business or businesses, not for the general public, the inspection would not be acceptable).

• Have an annual inspection certified by an authorized service facility. The inspection shall be done before the annual anniversary date of the certification that the vehicle was put into service. The safety certification shall be on the Driver Training Vehicle Record MV3264.

Unsafe Vehicles
If the department deems a vehicle of any age unsafe, the vehicle shall be ordered out of service until it is repaired. If the only vehicle in the school fleet is ordered out of service, the school may not perform behind the wheel instruction until the vehicle is certified as safe. Use of a vehicle after being ordered out of service shall result in demerit points being assessed.

Required Equipment
• Be in good working condition.
• Approved dual controls include but are not limited to separate brake for the instructor located on the right side of the car so the instructor can safely operate the controls.
• A right outside mirror positioned so that the instructor can view traffic from the rear.
• Sign(s) must be visible from the rear of the vehicle stating that it is a driving school vehicle or listing the name of the school. The sign “student driver” alone is not sufficient. The sign must be displayed whenever the vehicle is being used for driver education.

Replacing a Vehicle by Purchase or Lease
A driver school must supply information to the department immediately upon the purchase or lease of each driver school training car.

The information required is a brief description of the vehicle including the: make, model, and vehicle identification number (VIN). The vehicle must be inspected within 30 days of being put into service.

No Longer in Service
A school must notify the department when a vehicle is replaced or no longer in service. The school may note this information on the Driver School Vehicle Record MV3264 for the replacement vehicle or submit a notice in writing on the school’s letterhead.

Random Inspections
An authorized departmental representative may visit classroom sessions and ride in driver training cars during instruction for the purpose of evaluating the teacher’s preparation, knowledge of the subject matter, teaching ability, and determining if the approved course is being followed. An authorized representative of the department may make random inspections to assure compliance with vehicle requirements.
Insurance – Current Business and Vehicle Liability
A driver school shall maintain standard business liability and vehicle insurance policies in the name of the school, with the minimum insurance coverage specified by rule by the department. Currently at $500,000/$500,000/$50,000 for vehicle and $500,000 for business liability, the insurance policy shall require the insurer to notify the department no less than 30 days before the policy expires or is materially changed or canceled.

The insurance policy must be in the name of the school or state, “Doing Business as (DBA)” and the name of the school. WisDOT, 4822 Madison Yards Way, P.O Box 7920, Madison WI 53707-7920 must be listed as the certificate holder or interested party. The insurance company may submit an insurance certificate listing the Vehicle Identification Number (VIN) of each covered vehicle. Beginning of January 2007, the amount of the vehicle insurance will be adjusted every 5 years by multiplying the requirements amounts by the percentage increase of the consumer price index.

The insurance carrier is to notify the department not less than 30 days before the policy expires or is materially changed or canceled.

Bond – Amount Renewal of License
The amount of bond is based on the number of demerit points accrued during the previous licensing period and the number of students who completed last renewal period.

The driver training school is required to keep a file of every contract/agreement required by WI Stat 343 for a minimum of 4 years.

- Student’s last name, first name, and middle initial
- Student’s date of birth
- Student’s home address
- The contract or agreement number

Within 3 business days after the last instruction or other service has been received by the student, the total number of hours of lessons, lectures, tutoring, and other instruction of services of any kind relating to motor vehicle operation instructions must be recorded.

Schools that are participating in the Cooperative Driver Testing Program
The knowledge and highway sign scores for all tests attempted shall be entered in the student record within 1 business day.

Behind the Wheel
It may be helpful for a driver school to record each customer’s instruction permit number and expiration date as part of the customer’s school record.

Records – Availability

- Circumstances

If the circumstances of the loss warranted a report to a local law enforcement agency or fire department, indicate to whom and when the loss was reported.

**Instructor is No Longer Employed with the Driver Training School**

If an instructor is no longer employed with a driver school, the instructor shall surrender his or her license to the driver school. The driver school shall destroy the instructor’s license and notify the department in writing to cancel the license.

**Lesson Plans**

Complete lesson plans are to be kept on file at the driver school office but not submitted to the department in lieu of the Course Summary.

When preparing lesson plans, along with any other references, refer to the WI Drivers Handbook for detailed information.

All licensees must ascertain from state license examiners the route over which road tests are given and no licensee may instruct in those areas, except that driver schools may operate on a division of motor vehicle skills test route if comparable training location opportunities are not otherwise available in the locale.

**Classroom and Behind-The-Wheel at Different Schools**

Classroom instruction can be completed at a high school and behind-the-wheel at a driver school as long as the high school has certified the classroom completion following the procedure described.

- Submit a Classroom Only DEC Completion that the classroom instruction has been completed.
- Provide a copy of the Classroom Only DEC completion to the student to take to their behind-the-wheel school.

In addition, the classroom instruction can be completed at a driver training school and behind-the-wheel at a high school, permitting that the driver school has certified the classroom completion following the procedure described.

- The driver school should issue a DEC Completion for completion of the classroom portion only.
If the classroom portion of driver education was competed in another state, it may be possible for the customer to finish behind-the-wheel training in Wisconsin without repeating the classroom portion. The customer must have proof of completion of classroom instruction. Please see Out-of-State Students on page 29.

Classroom Refresher Course
A school that is currently licensed to provide driver education to students under age 18 may apply to provide the refresher course by submitting the following:

- Cover letter on school letterhead requesting approval to provide Refresher Course.
- A course summary showing ten hours of driver education instruction listing what will be taught. Each lesson shall be a maximum of 2 hours in length excluding breaks. A break of no more than 10 minutes is permissible between the first and second hour. Time specified for breaks does not count towards the 10-hour requirement.

No licensee may agree to give refresher lessons, unless the student states that he or she has had previous experience operating a motor vehicle.  

The school may choose relevant lessons from their regular curriculum and submit the same plans (i.e. the first 5 lessons that are provided in the regular curriculum are also used for the refresher course) or the school may design separate lesson plans for the refresher course. Each lesson should be a maximum of 2 hours in length (excluding breaks). A break is permissible between the first and second hour. Time specified for breaks does not count towards the 10-hour requirement.

A school will be notified by the department when the Refresher Course has been approved.

Completion Certificates
No driver school may represent that completion of a course of instruction will guarantee that the student will pass the driving skills test administered by the department. A driver school may only represent by means of a certificate of completion that the student has satisfactorily completed the required course.

It is the responsibility of the driver training school to:

- Enter in completions for students under 18 years of age upon completion of both the classroom and behind-the-wheel instruction and when all required fees have been paid.

All Driver Education completions should be submitted via the Driver Education Completion Application. For more information on the DEC application, please contact Driver Training Schools at (608) 264-7495.

Non-Completion of Driver Education Course
When a student fails to satisfactorily complete the course or does not meet the requirements outlined in the signed contract/agreement with the school, the school must send the student/sponsor a letter via mail and allow the student 10 business days to correct the issue or surrender their permit. If the student does not correct the issue or surrender their license the school should cancel via DEC.
If the school must submit a cancel via the Driver Education Completion Application, the schools must file the 10-day warning letter with the student’s record card.

**Out-of-State Students**

Any student under the age of 18, from out-of-state, who has completed some form of driver’s education in their previous state, must first visit a Wisconsin DMV Service Station prior to being enrolled in any driver’s education lessons in Wisconsin. Out-of-State students must bring proof of completing drivers education (classroom and/or behind-the-wheel) from their previous state to a Wisconsin DMV.

**Preferred proof of completion**

- Official certificate of completion
- Letter on school’s letterhead
- Report card and/or Transcripts
- Official School Certificate

**NOTE:** *Parent-taught drivers education will not be approved in Wisconsin. All driver's education training must be completed with a licensed driver training teacher/instructor and/or school in their previous state.*

Once the student receives approval from a Wisconsin DMV Service Station, they will be given either a classroom only completion via DEC from the department or a full completion thus waiving any requirements to complete drivers’ education in Wisconsin. Students who do not receive approval will have to complete driver’s education in full in Wisconsin in order to receive a product.

**Driver School Point System**

The department may assess points against a driver school that has violated any provision or rule that constitute grounds for the suspension, revocation, or denial of their license. The department will evaluate the offense and shall send a warning letter prior to an advisory letter. The school may respond within 10 days.

Points assessed against an instructor shall also be assessed against the driver training school.

*See: Driver School and Instructor Point System Chart (ADDENDUM C)*

**Progressive Enforcement Actions**

A process of enforcing regulations in WI Stat 343.60 – 343.72 and rules interpreting these statutes. The process is based on the total number of demerit points assessed within the past 24 months and consists of four levels.

- **Level 1.** An advisory letter may be sent to the driver school or instructor asking for corrective action.
- **Level 2.** The department may conduct an on-site inspection or audit. An advisory letter shall be sent. If a situation is unresolved after time specified in the advisory letter, the department may issue a conditional license under WI Stat 343.61 or 343.62 restricted to classroom instruction only. Vehicles used by the driver school may also be ordered out of service, if the violation is related to the vehicle inspection. The restricted license may remain in effect until the situation is resolved.
- **Level 3.** A warning letter will be sent. The licenses may be revoked, suspended or denied for 90 days.
- **Level 4.** The licenses shall be revoked, suspended, or denied for 4 months to one year, based on point accumulation.

### Addendum D - Progressive Enforcement Actions

Before recording points, the department shall notify the school or instructor of the reason for proposed action. The school or instructor may respond within 10 days. Upon due consideration the department shall act and may do the following:

- Record points assessed to driver school under Trans 105.11.
- Record points assessed to instructors, including points assessed by a driver school the instructor has worked for or owned previously. Points assessed to instructor may also be assessed to a school.
- Issue a conditional license when appropriate.
- Record less than the assessed points.

Then, based on the points assessed to the driver school(s) and or instructor(s) under Trans 105.11 in the past 24 months, the following enforcement actions shall apply:

- **Level one** enforcement action – one point assessed
  - An advisory letter may be sent to the driving school or instructor, asking for corrective action.
- **Level two** enforcement action – 1-3 points assessed
  - The department may conduct an on-site inspection/audit.
  - An advisory letter shall be sent.
  - If situation is not resolved in 10 days, the department may issue a conditional license under ss. 343.61 or 343.62, restricting to classroom instruction only.
  - Vehicle may be ordered out of service if violation is related to the vehicle inspection
  - The restricted license will remain in effect until situation is resolved
- **Level three** enforcement action – 4-5 points assessed
  - A warning letter will be sent.
  - Licenses issued under ss. 343.61or 343.62 shall be revoked, suspended or denied for 90 days.
- **Level four** enforcement action – 6 or more points
The license issued under ss. 343.61 or 343.62 shall be revoked, suspended or denied for 4 months to 1 year based on point accumulation.
Addendum E - Interpreting Driving Records for the Purpose of Determining Eligibility

Driving Schools should screen applicants for Instructor Licenses to ensure that they have a satisfactory driving record as required by WI Stats 343.62(4)(a)8, and defined by WI Admin Code Trans 105.03.

An Instructor is not eligible for an instructor license if the instructor has:

1. Accumulated more than 6 demerit points in a one-year period, measured from the dates of the violations which resulted in the accumulation of demerit points, in the year preceding application, the department shall deny the instructor’s license until one-year elapses from the date of the most recent violation that resulted in the person’s accumulation of more than 6 demerit points.

2. Been involved in 2 or more accidents in a one-year period where the crash report indicates that such person may have been causally negligent (if there is no traffic citation resulting in a conviction associated with the crash, the person is not considered negligent.) The department shall deny the instructor’s license until one-year elapses from the date of the most recent accident where the crash report indicates that such person may have been causally negligent.

3. Had his or her operator’s license revoked, suspended or cancelled for a traffic violation other than a parking violation, at any time during the past 4 years, based on the conviction date or upon the effective date of the withdrawal of operating privileges, whichever is earlier. In this case the department will deny the instructor’s license until 4 years has passed since the reinstatement from the last affected withdrawal.

- *346.18 General rules of right-of–way*
- *346.23 - 346.29 Respective rights and duties of drivers, pedestrians, bicyclists, and riders of electric personal assistive mobility devices.*

**Discussion of Determining the Right of Way**
A. What is Right-of-Way?
B. When Should You Yield the Right-of-Way?
C. Discuss the Right-of-Way Rules for:
   ◦ Pedestrians and Bicycles
   ◦ Motorcycles, (Scooters are “Step-Through” Motorcycles) and Mopeds
   ◦ Funeral Processions
   ◦ Intersections Not Controlled by Signs or Signals
   ◦ Four-Way Stops
Discussion of Motorists’ Handbook Share the Road

All drivers, including those on motorcycles, bicycles and mopeds have... equal rights and responsibilities:

- At intersections
- To parking spaces
- When turning in traffic
- For following distances

Size does not dictate who has the right to go first

When stopped at intersections, double-check traffic before proceeding. Motorcycles, bicycles, and mopeds present a much smaller profile than do cars and trucks. Take a second look before pulling out of a driveway or into an intersection.

Approximately half of all motorcycle, bicycle, and moped crashes occur when another driver turns left in front of them

Look for motorcycles, bicycles and mopeds before turning. Then look again. Use turn signals to warn cyclists before turning. Use extra caution when entering a major thoroughfare from a side street, driveway or parking lot.

Motorcycles have shorter stopping distances than cars when road surfaces and weather conditions are good, however an inexperienced rider may panic and lose control of the motorcycle if you turn in front of him or her.

When changing lanes, make a visual check for motorcycles in addition to looking in your rear-view mirror. The motorcycle's size makes it more agile, however it also allows it to easily disappear into your blind spots and become invisible.

Motorcycles, bicycles, and mopeds are entitled by law to a full traffic lane

Crowding or cutting off a motorcycle, bicycle, or a moped when passing is not only breaking the law, it is also endangering human lives. Return to your lane only when you are certain that you have a space cushion between you and the passed vehicle.

Do not “tailgate” a motorcycle, bicycle, or moped.

A “four second” following distance rule is recommended. Note when the motorcycle passes a stationary object or mark on the highway. If your vehicle passes the same mark before you have counted “one-thousand-one, one-thousand-two, one-thousand-three, one-thousand-four,” you are following too close for safety. This space cushion should be increased when weather and road surface conditions deteriorate.

Do not use high beams when following any vehicle, including motorcycles, bicycles, and mopeds.

Motorcycles and mopeds are licensed motor vehicles, and are entitled to a full parking space

Up to three motorcycles may be parked in a single space. Mopeds may be parked on sidewalks where permitted if they do not interfere with pedestrian traffic.
Motorcycle, bicycle, and moped riders face hazards that may not affect four-wheeled vehicles

Motorcycles, bicycles, and mopeds are more susceptible to changes in roadway surface conditions such as railroad crossings, potholes, debris and other irregularities in their path. Drivers should note that these vehicles may change position within their lane, and or adjust speed to permit safe travel through these conditions. Drivers should be prepared to slow down as these vehicles adjust speed and position for maximum safety.

All kinds of people ride motorcycles, bicycles, and mopeds

Many riders wonder why some people drive their vehicles as if cyclists are annoyances. Really, cyclists and motorists are not that different. Check out your friends, relatives, and neighbors. More of them have taken to riding motorcycles, mopeds, and bicycles than ever before. There are many good reasons to ride a motorcycle or moped. For many riders, the main reason is pure pleasure. But motorcycles and mopeds also get great gas mileage and take up less space in urban areas, helping to relieve congestion just a bit. Many motorcycle crashes could be avoided if other vehicle drivers watched more carefully for motorcycles and gave them equal rights on the road. When a crash occurs, motorcycle and moped riders rarely escape injury. Too often, they are killed. Remember to watch for motorcycles and mopeds—we all need to share the road.

Make a difference in keeping the roads safe for everyone...

coexist with bicycles and pedestrians

Vehicles: Interacting with bicyclists
Bicyclists are legal users of the road. As such, they are entitled to the full use of a travel lane, although a bicyclist may choose to use the shoulder. When passing a bicycle, allow a minimum of three feet of space between your vehicle and the bicycle. Avoid turning across the path of a bicyclist. Most crashes involving a motor vehicle and an adult bicyclist happen when a motorist is turning left.

Bicyclists: Interacting with vehicles
Obey all traffic controls, the same as any other mode of transportation. Stop signs and traffic lights are for bicyclists, too. Travel in the same direction as motor vehicles. Riding the wrong way is associated with 25–30% of all crashes between a bicycle and a motor vehicle. Wear a helmet... and wear it correctly. It should be level on your head and strapped snugly. Make yourself more visible. Wear conspicuous clothing with retro-reflective material. Put reflectors on your bicycle. Use lights on your bicycle everywhere you ride at twilight or when it is dark, or in inclement weather.

Vehicles: Interacting with pedestrians
Look for and yield to pedestrians wherever they may be, especially children. Stop at least ten feet away from pedestrians using a white cane or Seeing Eye dog. Wait until pedestrians are safely off the roadway or out of the crosswalk on your side of the road before you proceed. Be especially watchful for children. Because they are small, you are less apt to easily spot them. And, because they are not yet able to judge distance, speed and/or be mindful of danger, exercise extreme caution in areas where children are apt to be present. Always be prepared to stop quickly, should a child dart out in front of your vehicle.

Pedestrians: Interacting with vehicles
Make yourself more visible. Wear outer garments and shoes or boots with retro-reflective materials. Obey traffic signs and signals. Use designated crosswalks whenever possible. Before stepping into a roadway, look left—look right—look left again.
Emergency Vehicles

You must yield the right-of-way to law enforcement vehicles, fire trucks, ambulances or other emergency vehicles using a siren, air horn or a red or blue flashing light. Pull over to the right edge of the road or as near to the right as possible and stop when you see or hear an emergency vehicle approaching from any direction. Follow any instructions given over the emergency vehicle's loudspeaker. If you are in an intersection, including a roundabout, drive through the intersection before you pull over. If the emergency vehicle using lights or siren is on the other side of a divided highway, you do not need to pull over and stop. You must not pass an emergency vehicle that is about to back into, or is backing into, the driveway entrance of a fire station. It is illegal to pass or follow within 500 feet of a moving emergency vehicle with its red or blue lights on and siren operating. This includes while driving on freeways or other limited access highways.

Move Over Law

When approaching law enforcement and other emergency vehicles, tow trucks, road machinery or highway construction or maintenance vehicles (that are stopped on or near a highway and are using flashing emergency lights), you must move into a lane not nearest the stopped vehicle and travel in that lane until you have safely passed the stopped vehicle(s). If it is unsafe to move into another lane, slow down until you have safely passed the stopped vehicle(s).
