Welcome, pilots.

As you know, you have an opportunity to experience the beauty of Wisconsin by flying over its scenic rural and urban areas, and to experience the local culture, make special friendships, by flying on a Wisconsin airport, and to make memories that will last a lifetime. Whether flying for business or pleasure, or for personal, cultural, or educational purposes, we encourage you to make use of the many excellent airports and other facilities that are available across Wisconsin from north to south and from east to west.

Message from WADOT Inventory Team

While the Wisconsin Department of Transportation (WADOT) and the Division of Forestry work to maintain the safety of the state's roadways, we also work to improve the safety of Wisconsin’s skies. We are committed to ensuring that all airspace users have a safe and enjoyable experience. This includes both manned and unmanned aircraft.

In order to achieve this goal, WADOT has implemented a number of measures, including:

- Establishing a system for managing drone operations
- Partnering with the FAA to provide resources and guidance
- Educating the public on the safe and ethical use of drones

These efforts are part of our ongoing commitment to ensuring that Wisconsin’s skies are safe and open for all users.

For more information, please visit the WADOT website at wadot.wi.gov/drone.

Thank you for your cooperation and understanding.
