 STAND-ALONE PROGRAM LOCATIONS I

I. INTRODUCTION

It is the policy of the Wisconsin Department of Transportation (WisDOT) to ensure that its programs, services, activities, and facilities are accessible to and usable by individuals with disabilities in accordance with Section 504 of the Rehabilitation Act of 1973 (Section 504) and Title II of the Americans with Disabilities Act of 1990 (ADA). The ADA Transition Plan provides information about WisDOT's efforts to ensure accessibility on the "*Path to Zero*" barriers in its public right-of-way. WisDOT's ADA Transition Plan was accepted as substantially meeting the regulatory minimum requirements of the ADA by the Federal Highway Administration (FHWA) on February 25, 2020.

WisDOT's ADA Transition Plan is a "living document" and is updated annually.¹ The Secretary-designee of WisDOT, Craig Thompson, is the official responsible for the implementation of WisDOT's ADA Transition Plan. WisDOT's ADA Program is administered by the Office of Business Opportunity and Equity Compliance (OBOEC) in the Division of Transportation System Development. OBOEC coordinates a multi-disciplinary approach to implement and manage WisDOT's compliance efforts. These efforts include curb ramps, roadside facilities (i.e. rest areas) and buildings. The ADA Program Coordinator addresses complaints, investigates formal grievances, and tracks the overall progress of the implementation of the ADA Transition Plan. The ADA Program Coordinator also acts as the primary contact for all public outreach pertaining to discrimination against people with disabilities. Comments or inquiries and requests for this update in an alternate format should be directed to the ADA Program Coordinator.

The WisDOT ADA Program Coordinator contact information is:

Taqwanya Smith, Senior Title VI and ADA Coordinator
Office of Business Opportunity and Equity Compliance
Wisconsin Department of Transportation
4822 Madison Yards Way, 5th Floor South
Madison, Wisconsin 53705
Phone: (608) 266-8129
Fax: (608) 267-3641
Email: taqwanya.smith@dot.wi.gov

¹ 28 CFR §35.150(d)(3)(iii).

II. CURB RAMP AND SIDEWALK ADA INVENTORY

A. Inventory

A desktop inventory was conducted in 2014-15 to identify existing curb ramps and sidewalks along state highways including connecting highways or within the state highway right-of-way. The inventory was based on visual inspection using WisDOT Photolog, Google Street View, and satellite imagery. The inventory information was captured as Geographic Information System (GIS) data.

B. Inventory Summary

The data acquired through the inventory includes approximately 46,000 curb ramp locations. This data was validated and is noted in the Inventory Data Validation section. For data regarding sidewalks and shared-use paths along state highways including connecting highways or within state highway right-of-way, there is a total of 1,483 linear miles with 1,323 linear miles as sidewalk.

The inventory also provides a snapshot of information as progress is made through the implementation of the Transition Plan. As projects are completed and field survey data is provided, inventory data is updated.

C. Inventory Data Validation

A cluster sampling method was used to obtain a level of confidence for validating the desktop inventory data. Cluster sampling is a statistical methodology designed to address problems of a widespread geographical population. Rather than taking inventory of all the curb ramps located on the state highway system, an inventory of clusters provided insight and confidence on estimating the number of ramps that will likely need to be upgraded.

Three WisDOT urbanized regions – SW, SE and NE – where higher pedestrian traffic exists, were selected for the cluster sampling areas. These areas contain eight urban corridors which served as the sampling areas. To verify the sample size as being adequate, a sample size was calculated based on approximately 50,000 curb ramp locations, with a confidence level of 95%, and a confidence interval of +/-5%. This produced a sample size of 384 curb ramp locations to inventory. A consultant firm, DAAR Corporation, inventoried 524 curb ramps and identified 147 missing curb ramps for a total of 671 possible curb ramp locations in the sample. The statistical analysis indicated that the number of existing curb ramp locations is 8.3% greater than expected.

D. Database

The resulting data from the inventory was recorded in the Curb Ramp and Sidewalk ADA Inventory Database. The Curb Ramp and Sidewalk ADA Inventory Database is an interactive Geographic Information Systems (GIS) map available for viewing on the ADA website. See *Appendix E – Curb Ramp and Sidewalk ADA Inventory Database GIS map example.*

The desktop data collected includes:

1. Curb Ramps: Presence or absence of a curb ramp, detectable warning field presence or absence at street edge of ramp, presence of pattern in curb ramps (i.e. wire mesh imprint²).
2. Sidewalks/Shared-Use Paths: Presence of sidewalks or shared-use paths along the state highway including connecting highways or within state highway right-of-way.
3. Sidewalk or Curb Ramp Defects: Some sort of cracking, damage, or tripping hazard significant enough to be visible in photo imagery.

WisDOT will use field survey data collected as part of the project design and construction process to update the Curb Ramp and Sidewalk ADA Inventory Database on an ongoing basis.

E. Roadside Facilities

WisDOT's Roadside Facilities Unit continuously monitors ADA-related issues and updates the facilities as opportunities arise. This includes curb ramps and sidewalks. In addition, improvement projects also evaluate conversion to electric-operated ADA doors from air-assisted ADA doors. The conversion improves reliability of the system. In 2020, ADA doors at Rest Area 13 (Lake Mills) and Rest Area 14 (Johnson Creek) were converted to electric-operated.

The last ADA assessment of roadside facilities was over 20 years ago. The Roadside Facilities Unit is exploring retaining a consultant to pilot a comprehensive assessment of four locations - Janesville rest area, Beloit rest area, Beloit SWEF (Safety and Weight Enforcement Facility), and Madison SWEF. Janesville and Beloit rest areas are two of the most frequently used rest areas in the state. Beloit SWEF is a Mega SWEF, which includes a large indoor truck inspection area and 24/7 trucker rest stop facilities. In addition to curb ramps and sidewalks, buildings and parking lots will also be evaluated. The pilot is expected to be completed in 2021 or 2022.

² WisDOT standard had been wire mesh imprint which WisDOT believed was acceptable at the time. In 2004, WisDOT standards were modified following 2002 and 2004 FHWA memos describing ADAAG Detectable Warning requirements.

III. TRANSITION PLAN

A. Six-year Program

1. Scope

As a general practice, WisDOT installation or updates of curb ramps is part of its Six-year Program projects that meet the definition of an alteration per ADA³. WisDOT will continue to address curb ramps on improvement projects and has a policy to acquire the necessary right-of-way to allow curb ramps to be constructed or updated on roadway improvement projects that are defined as an alteration per ADA⁴. If sufficient right-of-way is not owned and additional real estate is needed to install an ADA compliant curb ramp or to upgrade an existing curb ramp to full ADA compliance or to the maximum extent if technically infeasible, the needed real estate will be acquired to allow the curb ramp work to be constructed. (See [FDM 11-46-1.1.5 ADA Curb Ramp Compliance and Right-of-Way Requirements](#))

2. Budget

For curb ramp improvements that are to be addressed as part of the Six-year Program, it is estimated that expenditures will be roughly \$15 million for construction costs not including acquiring right-of-way.

3. Schedule⁵

It was estimated as part of the 2018-2023 Six-year Program, that approximately 994/year curb ramp locations would be addressed in 2019 and 2020. In the 2019 construction season, WisDOT completed 48 improvement projects which installed/updated approximately 1,050 curb ramps on the state trunk network. *See Appendix F – Six-year Program projects completed in 2019 and Appendix G – Six-year Program projects scheduled for completion in 2020.*

It is estimated that 1,000 to 1,500/year curb ramp locations will be addressed beginning in 2021. These estimates are based on the number of projects in the 2021-2027 Six-year Program that meet the definition of an ADA alteration. *See Appendix H – Six-year Program projects scheduled for 2021-2027.*

B. Stand-alone Program

1. Scope

WisDOT will address curb ramp locations that are not within the Six-year Program in a Stand-alone Program. These locations will be prioritized based on safety, existing conditions, complaints, and pedestrian generators (e.g. employment centers, government services,

³Department of Justice/Department of Transportation Joint Technical Assistance on the Title II of the Americans with Disabilities Act Requirements to Provide Curb Ramps when Streets, Roads, or Highways are Altered through Resurfacing.

⁴ WisDOT evaluated its improvement concept codes to determine concepts that meet the definition of an alteration per USDOJ and USDOT joint technical assistance definitions which require curb ramps to be installed or updated as part of the highway improvement.

⁵ 28 CFR §35.150(d)(3)(iii) requires that if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period[.]

recreational/trail facilities, etc.). A pilot program was initiated in 2019, see item 4 below for details.

2. Budget

It is estimated that expenditures will be roughly \$1-5 million per year for design and construction costs not including acquiring right-of-way. Yearly allocations to the Stand-alone Program will be made through the State Highway Rehabilitation (SHR) subprogram.

3. Schedule⁶

The schedule for the Stand-alone Program is to address all non, Six-year Program curb ramps within 3 six-year program cycles (18 years). This is separate from the Six-year Program described in part A. above. It is estimated that approximately 1,000/year curb ramp locations will be addressed over a six-year period. *See Appendix G – Stand-alone Program.*

4. Pilot Program

The pilot for the Stand-alone Program began in 2019. The design phase of the pilot will run from 2019 to 2020. The construction phase of the pilot will run from 2020 to 2021. The statewide program is expected to begin in 2022.

C. Technically Infeasible Locations

Any WisDOT pedestrian facility or features being altered shall be made accessible to full compliance or the maximum extent feasible, if technically infeasible conditions apply within the scope of the alteration. WisDOT recognizes that there are locations where it is “technically infeasible” to bring the facilities or features into compliance due to existing physical site constraints. Alterations to features, spaces or facilities within public right-of-way are considered technically infeasible when existing physical site constraints such as underlying terrain, right-of-way availability, underground structures, adjacent developed facilities, drainage or the presence of a notable natural or historic feature, make it impracticable to bring the altered elements into compliance with the U. S. Access Board’s Public Rights-of-Way Accessibility Guidelines (PROWAG). For these locations where technical infeasibility applies, WisDOT will address deficiencies, to ensure that the maximum compliance is achieved and shall be documented and identified as a future project in the work program to be addressed as soon as possible.

D. Training

1. Designing Pedestrian Facilities for Accessibility

This two-day training was designed to ensure that pedestrian facilities and access routes are properly constructed and maintained for individuals of all abilities. This training also focuses on proper design and maintenance of pedestrian access routes in new construction or when existing facilities are altered. Participants are engaged through a power point presentation, discussion, video demonstrations, small group problem identification, and features a hands-on outdoor wheelchair, low-vision goggles, white cane exercise. This training was developed to

⁶ 28 CFR §35.150(d)(3)(iii) requires that if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period[.]

provide information for those involved in the design and maintenance of pedestrian facilities, and for those individuals that ensure the proper adherence to all applicable laws and guidelines.

- a. Dates: September 16-17, 2019
- b. Attendees: 33

2. 2019 Construction Standards

This training focused on the importance of achieving compliance for curb ramps and upcoming changes to curb ramps. This training also provided a preview of the new Curb Ramp Compliance Post Construction Report.

- a. Dates: Multiple dates in 2019
- b. Attendees: 740

IV. PUBLIC INVOLVEMENT

A. Website

WisDOT's website, wisconsindot.gov/ADA, is where the public can inspect and submit comments on the 2020 update. The website also includes a link to the Curb Ramp and Sidewalk ADA Inventory Database GIS map. See *Appendix B - ADA Website*.

B. Social Media

WisDOT will use social media sites: Facebook, Twitter, and YouTube to drive traffic to the 2020 update with a call to action to submit comments.

C. DMV Electronic Message Board

WisDOT will post brief messages on electronic message boards in DMV Customer Service Centers statewide saying that the 2020 update is online for public comment.

D. News Releases and Newsletters

WisDOT will provide brief news releases prior to the comment period specifying that the 2020 update is online and available for public comment, see *Appendix J - Public Comments and Results*. WisDOT will also provide an article in the department's weekly Bulletin (internal-facing) driving WisDOT staff to the 2020 update with a call to submit comments.

E. Public Libraries

WisDOT will provide a notice with a link to the 2020 update for posting on library bulletin boards to the state's 16 federated public library systems covering 382 public libraries.

F. Disability Advocacy Organizations

WisDOT will email 43 organizations representing individuals with disabilities and invite them to inspect and submit comments on the 2020 update.

G. Wisconsin Network of ADA Coordinators Listserv

WisDOT will email 100 municipal ADA Coordinators through the Wisconsin Network of ADA Coordinators listserv and invite them to inspect and submit comments on the 2020 update.

H. University ADA Coordinators

WisDOT will email 15 University of Wisconsin System ADA Coordinators and invite them to inspect and submit comments on the 2020 update.

I. Virtual Public Involvement

WisDOT recorded a brief overview presentation using PowerPoint for the web to provide a broader explanation of the 2020 update and public comment process.

V. APPENDIX

A. Notice under the ADA

<http://wisconsindot.gov/Pages/doing-bus/civil-rights/titlevi-ada/default.aspx>

Wisconsin Department of Transportation

Notice under the Americans with Disabilities Act

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 (ADA), the Wisconsin Department of Transportation (WisDOT), will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs or activities.

<p>Employment: WisDOT does not discriminate on the basis of disability in its hiring or employment practices and complies with all regulations promulgated by the U.S. Equal Employment Opportunity Commission under Title I of the ADA.</p> <p>Effective Communication: WisDOT will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they can participate equally in WisDOT programs, services, and activities, including qualified sign language interpreters, documents in Braille, and other ways of making information and communications accessible to people who have speech, hearing or vision impairments.</p> <p>Modifications to Policies and Procedures: WisDOT will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all WisDOT programs, services, and activities. For example, individuals with service animals are welcomed in WisDOT offices, even where pets are generally prohibited.</p> <p>Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a WisDOT program, service or activity, should contact the: Senior Title VI and ADA Coordinator, 4822 Madison Yards Way, 5th Floor-South, Madison, Wisconsin 53705, Phone: (608) 266-8129 as soon as possible but no later than 72 hours before the scheduled event.</p>	<p>The ADA does not require WisDOT to take any action that would fundamentally alter the nature of its programs or services or impose an undue financial or administrative burden.</p> <p>Complaints: Complaints that a WisDOT program, service, or activity is not accessible to persons with disabilities, should be directed to: Taqwanya Smith, Senior Title VI and ADA Coordinator, Office of Business Opportunity and Equity Compliance, Wisconsin Department of Transportation, 4822 Madison Yards Way, 5th Floor-South, Madison, Wisconsin 53705, Phone: (608) 266-8129, TTY: (800) 947-3529, Fax: (608) 267-3641, Email: taqwanya.smith@dot.wi.gov, Website: https://wisconsindot.gov/Pages/doing-bus/civil-rights/titlevi-ada/filingcomplaint.aspx</p> <p>You may also file a discrimination complaint with the U.S. DOT, Federal Highway Administration, Office of Civil Rights, 1200 New Jersey Avenue-SE, 8th Floor E81-105, Washington, DC 20590; Phone: (202) 366-0693; Email: FHWA.ADAcomplaints@dot.gov, Website: https://www.fhwa.dot.gov/civilrights/file/</p> <p>WisDOT will not place a surcharge on a particular individual with a disability or any group of individuals with disabilities to cover the cost of providing auxiliary aids/ services or reasonable modifications of policy, such as retrieving items from locations that are open to the public but are not accessible to persons who use wheelchairs.</p>
---	---

- ADA Projects and Compliance
- Filing a complaint
- Contacts

Millions of people use Wisconsin's transportation infrastructure every day, and WisDOT strives to ensure accessibility for motorists, cyclists and pedestrians. WisDOT regularly modernizes facilities and processes to better serve those with vision, hearing or mobility impairments. These updates are made as part of broader efforts to comply with the Americans with Disabilities Act (ADA).

WisDOT's ADA Program

WisDOT's ADA program develops policy and guidance to help ensure equal access to programs, activities, services, buildings and public rights-of-way. The program coordinates as needed with other government ADA programs, and it manages WisDOT's training for policy and design issues related to ADA.

WisDOT's ADA coordinator also acts as the primary contact when discrimination claims are made, and tracks the overall progress of the implementation of the ADA Transition Plan implementation.

Projects and Ongoing Work

The department works first to provide ADA accommodations in the highest priority locations. Overall system needs are balanced with safety concerns and availability of resources when developing ADA accommodations elsewhere. ADA accommodations include, but are not limited to, curb ramp updates, public communications and the accessibility of rest areas and DMV service centers.

- More than 45,000 curb ramps throughout the state highway system were recently inventoried to help guide future improvement priorities.
- All WisDOT roadside facilities are built to current ADA standards at the time of planning and construction. Older facilities received improvement resources in the FY18 and FY19 budgets.
- The train concourse at Milwaukee Intermodal Station was renovated in mid-2016, and includes state-of-the-art hearing technology to assist the hard of hearing.
- ADA deficiencies were corrected at 14 WisDOT owned and occupied facilities in response to a comprehensive survey examining parking, accessibility and restrooms. These corrections included renovations and ADA restroom additions.

State Highway Curb Ramps and Sidewalk ADA Inventory Database

This interactive map enables users to zoom in on areas throughout the state highway system that include sidewalks and curb ramps. The data included helps users differentiate among curb ramp features. Transportation planners are also able to use this information for insight and planning purposes.

2018 Transition Plan

WisDOT's 2018 ADA Transition Plan helps to provide information on plans for continued improvements throughout the state of Wisconsin. The plan was unveiled for a 30-day public comment period on Oct. 3, 2018.

Review the plan by clicking here for the full document.

ADA FACILITY COMPLAINT FORM

Wisconsin Department of Transportation
DT2515 3/2020

It is the policy of the Wisconsin Department of Transportation (WisDOT) to not discriminate on the basis of disability in admission to, access to, or in operation of its programs, services, activities or facilities. All attempts will be made to resolve such matters through informal means at any stage of the process.

WisDOT has established a complaint procedure to meet with the requirements of Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans With Disabilities Act of 1990. This Accessibility Complaint form should be used by anyone wishing to file a complaint to WisDOT on the basis of disability, regarding access to WisDOT facilities such as, but not limited to, sidewalks, curb ramps, and highway crossings.
