Note: Blank boxes denote attainment.

* The original 2015 ozone NAAQs areas were revised by the EPA to comply with a court decision; areas as revised are shown.

** The areas outside of any 2008 or 2015 NA/maintenance areas in these counties are orphan areas for the 1997 ozone NAAQS, hence the partial orphan notation.

*** In keeping with EPA’s protocol for naming the areas, Milwaukee County, WI is the name of the area, but the area includes the whole of Milwaukee County, the whole of Ozaukee County, and parts of Racine, Washington, and Waukesha Counties.

**** Note that the reclassification to Serious was stayed by the U.S. Court of Appeals for the Seventh Circuit on Sept. 5, 2025. Therefore, the Moderate nonattainment area requirements continue to apply unless the areas are reclassified to Serious nonattainment at the conclusion of judicial review or the stay is lifted by the court.
