**General Notes:**

Immediately report any manufacturer's modification to approved product the to Department's contact person listed above.

Failure to report changes can cause hardware to be removed from Approved Product List.

The minimum amount of information the Department requires for review is: crash test videos, crash test reports, eligibility/approval letters, installation manuals, and maintenance manuals to determine if a product can be placed on the Approved Product List.

The Department reserves the right to request additional information at anytime.

Providing documentation to the Department does not automatically grant approval of product

If a county has blanks contact the Department's contact person listed above prior to LET.
