

ASTM C309 CURING COMPOUNDS WisDOT Tested and Approved Batches

Page 1 - Wax-based white-pigmented

Page 2 - Linseed oil-based

(NOT TO BE USED ON CONTRACTS LET AFTER 12-31-2015)

Page 3 - Poly-alpha-methylstyrene (PAMS)-based

Notes: AASHTO M148 has been superseded by ASTM C309. All Curing materials carried over the winter must be re-tested prior to use. This list will remain current at all times. Batch numbers listed herein have been source-sampled and satisfactorily tested at WisDOT C.O. Laboratory for current season use.

Approved carryover batches will be listed as contractor-specific, unless re-sampled directly from the vendor. If a contractor is listed with a batch number, that material is only acceptable from that contractor.
