Lehigh Cement Company	Mason City, IA	I, III	
St Marys, Inc.	Charlevoix, MI	I, II, III	
	Bowmanville, Ontario, Canada	I, II, III	

Note: Mill Test Reports must accompany all cement shipments, and should be reviewed at the project level. If there is any notation on the mill cert that fly ash or slag has been added as a process addition during the manufacture of the cement, the maximum percent by weight of these materials added in the field should be reduced by the same amount. Use contact below for further inquiries.
