Rapid Setting Concrete Patch Material

Date last edited: 02/29/2024

Products from this list should only be used for applications within the manufacturer's intended purpose. Products for vertical or overhead patching MUST be explicitly intended for those uses by the manufacturer. The primary purpose for the products on this list is maintenance patching of horizontal surfaces on PCC pavements and bridge decks. Use of these products under Std. Spec. 509.2 is at the discretion of the engineer. Products may also be used for full-depth repairs under std. spec. 416.2.4, as extended with a Department-approved coarse aggregate.
