

FEATURES

- Wrap-around gel splice closure sleeves quickly insulate and seal buried electrical connections rated up to 1,000 volts.
- Engineered to handle direct burial and manhole applications, these splice enclosure sleeves are equally well suited for insulation and jacket repair.
- Simply wrap and snap the sleeve on any cable in the use range.
- The sealant gel in the sleeve seals on contact.
- The splice closure sleeve can be applied on all common compression connectors and low voltage cables, as well as in-line mechanical connectors.

RATINGS

APPLICATION:

Qualified to ANSI C119.1-1986 for underground splicing.

RATING:

Insulate and seal buried electrical connections rated up to 1,000 volts.

A minimum seal length is required on each side of the connector opening or jacket damage.

Use these guidelines for minimum seal distance:

WAGS-4/0 series: 1.50" each side WAGS-500 series: 2.00" each side WAGS-750 series: 3.00" each side

All dimensional data is listed in inches.
