

Use this special provision along with SDD 13C18 if the plans include concrete pavement or concrete base. For additional information regarding this special provision or for a copy of it in Microsoft Word, contact Deb Bischoff at deb.bischoff@dot.wi.gov or 608-246-7957.

Concrete Pavement Joint Layout, Item SPV.0105.XX.

A Description

- (1) This special provision describes providing a concrete pavement or concrete base joint layout design for intersections and marking the location of all joints in the field.

B Materials (Vacant)

C Construction

- (1) Plan and locate all points necessary to establish the horizontal position of the transverse and longitudinal joints in the concrete to prevent uncontrolled cracking. Submit a joint layout design to the engineer before paving each intersection. Mark the location of all concrete joints in the field. Follow the plan details for joints in concrete making adjustments as required to fit field conditions.

D Measurement

- (1) The department will measure Concrete Pavement Joint Layout as a single lump sum unit for all joint layout designs and marking acceptably completed under the contract.

E Payment

- (1) The department will pay for measured quantities at the contract unit price under the following bid item:

ITEM NUMBER	DESCRIPTION	UNIT
SPV.0105.XX	Concrete Pavement Joint Layout	LS

- (2) Payment is full compensation for providing the intersection joint layout designs and marking all joints in the field.
- (3) The department will adjust pay for crack repairs as specified in standard spec 415.5.3.
