

July 2020 Solicitation Questions and Responses

Solicitation	Project	Question	Response
SE-01	1000-00-72	Is the option for two one-year submittals applicable if this only lasts for a six-month time period, as stated in the Purpose and Need section?	The contract period will be one year with most of the hours worked November through March.
SE-01	1000-00-72	Please clarify the hours to be worked.	Up to 40 hours/week November through March; possible limited hours the rest of the year.
SE-01	1000-00-72	Will the consultant selected for this position be precluded from being selected for the construction management of the projects reviewed?	No
SE-02	1000-00-72	Is the option for two one-year submittals applicable if this only lasts for a six-month time period, as stated in the Purpose and Need section?	The contract period will be one year with most of the hours worked November through March.
SE-02	1000-00-72	Please clarify the hours to be worked.	Up to 40 hours/week November through March; possible limited hours the rest of the year.
SE-02	1000-00-72	Will the consultant selected for this position be precluded from being selected for the construction management of the projects reviewed?	No
SW-01	5080-09-03	Does WisDOT anticipate screening the project or is a Section 106 Review required?	Screening may occur following a preliminary impact review. Archaeological review will be determined depending on culvert replacements. Historical review will be determined depending on curb ramps in Loganville.
SW-01	5080-09-03	Will the consultant be performing structure work?	No
SW-02	5880-01-00	Has a preferred pavement design been determined?	No
SW-02	5880-01-00	Do any curb ramps need to be upgraded to meet current ADA standards?	Yes, one.
