*According to state law (Wis. Stats. S. 44.40), each state agency is required to consider whether any its proposed actions will affect any historic property (e.g., buildings/structures, historic or archaeological sites or districts) listed on the National Register of Historic Places (NRHP), the State Register of Historic Places, the inventory of sites maintained by the Wisconsin Historical Society (WHS), or lists of locally designated historic places. If the agency determines that its action will affect such a property, it must notify the State Historic Preservation Officer (SHPO), and if the effect is determined to be adverse, the agency and SHPO negotiate to mitigate the effect. For projects involving federal agency participation, Section 106 applies.
