Things you should know

To qualify for Collector plates, **you must own or lease at least one other motor vehicle for regular transportation** with current, valid registration in Wisconsin under the same name(s) as the Collector vehicle. Complete section C.

Collector plates are non-expiring for as long as you own the collector vehicle. **Vehicles with Collector plates cannot be operated during the month of January unless a special temporary plate is purchased** (form MV2750).

A person who registers a Collector motor vehicle that was manufactured before 1979 may display a historical plate from or representing the model year of the vehicle when driving to or from a car show, or during a parade, if the registration and plates issued by the Wisconsin Department of Transportation (WisDOT) are simultaneously carried in or, with the vehicle and are available for inspection by law enforcement, upon request.

WisDOT assigns a collector number to each vehicle collector. That number, plus an alpha character, is issued to other collector vehicles owned by the same person. **Collector plates cannot be personalized.** For second or subsequent plates, allow approximately 3–4 weeks for the manufacturing process after the Certificate of Registration has been issued.

Except for former military vehicles, truck-type vehicles with Collector plates cannot haul materials more than 500 pounds.

Emission test inspections are required on all collector qualifying vehicles 1996 and newer customarily kept in counties certified under s.110.20 (5)(a), Stats. These vehicles shall have the emission test inspection completed no more than 45 days from the date of Collector Plate registration issuance or plate transfer, or within 45 days of the date of an

ownership change registration issuance, unless the vehicle passed inspection within 180 days prior to change of ownership.
