Improvement Concept Definitions
Cold In-place Recycling -
Bridge: New, Replace, Remove represents several improvement types:
1) New bridge creating a new grade separation or structure
2) A bridge replacing an existing crossing but not necessarily in the same place
3) A bridge replacing an existing crossing to increase system capacity
4) Bridge elimination
Bridge Rehabilitation represents several improvement types:
1) Bridge rehabilitation. Usually bridge deck overlay or deck replacement
2) Minor overlay on bridge decks, bridge painting, or other maintenance
Miscellaneous - Not a roadway or bridge project. Usually a pedestrian or safety focus
Reconstruction - Replace most of the roadway and upgrade to current design standards
Recondition - Change intersection or roadway to improve safety and/or operation
Resurfacing - Add pavement material to existing pavement, includes safety improvements
Pavement Replacement - Replace pavement, and usually no geometric changes
Preservation and Restoration - Maintenance to address problem areas or routine preservation Including State Highway Rehabilitation Maintenance (SHRM)

Project Information drawn from the Financial Integrated Improvement Programming System (FIIPS).
