

**SECTION 8**  
**LIST OF PREPARERS**

---

**THIS PAGE INTENTIONALLY LEFT BLANK**

The List of Preparers has been updated to include the personnel involved in the preparation of this document. Yellow highlight signifies updates since the May 2018 LS SDEIS.

### 8.1 LIST OF PREPARERS

Table 8.1-1 lists individuals and organizations with responsibilities in preparing this LS SEIS.

**Table 8.1-1 List of Preparers**

Organization	Responsibility	Qualifications
<b>Federal Highway Administration</b>		
Ian Chidister	Review of this document for all aspects.	B. S. Biology; M.S. Environment & Resources; experience with FHWA environmental project development process since 2010.
Greg Newhouse	Review of this document for all aspects.	B.S. Advanced Physics, Civil Engineer 21 years. Experience with project development, environmental, design and construction.
Tracey Blankenship	Review of this document for all aspects.	B.S., Civil Engineering. 29 years of experience in highway project development and environmental review.
Daniel Holt	Review of this document for traffic forecasting and operations.	B.S., Civil Engineering and Professional Traffic Operations Engineer.
Jeremy Raw	Review of this document for traffic forecasting aspects.	B.S., Civil Engineering.
Bethaney Bacher-Gresock	Review of LS SDEIS document for all aspects.	B.S., Environmental Studies and Biology. Experience with the environmental project development process of federal-aid highway projects since 2001.
Anna Varney	Review of LS SDEIS document for all aspects.	B.S., Civil Engineering. 28 years of experience in highway project development, environmental design, and construction.
<b>Wisconsin Department of Transportation</b>		
Colleen Harris, P.E.	Document review	B.S., Civil Engineering. Experience since 1990 in highway planning, design, and construction.
Jay Waldschmidt, P.E.	Document review for NEPA and WEPA compliance	B.S., Civil Engineering. Experience since 1990 in NEPA coordination and review.
Jill Michaelson, P.E.	Document review	B.S., Architectural Engineering. Experience since 1987 in highway planning, design, and construction.
Bryan Lipke P.E.	Project Management and Document review	B.S., Civil Engineering. Experience since 2000 in highway planning, design, and construction.
Kathie VanPrice	Environmental analysis and document review	M.S., Environmental Science and Policy, B.S., Biology. Experience at WisDOT since 2007.
Mike Helmrick	Environmental analysis and document review	B.S., Watershed Management. Experience at WisDOT since 1999.
Jennifer Murray, AICP	Traffic forecasting	B.A., M.Arch. Experience since 2001 in transportation planning. Traffic Forecasting Program and Policy Chief since 2010.
Chris Chritton, AICP	Traffic forecasting	B.S., Cartography and Geographic Information Systems, M.S. and M.C.P., Transportation Planning. Experience since 1997 in transportation planning with a focus on travel forecasting since 2011.

Table 8.1-1 List of Preparers

Organization	Responsibility	Qualifications
Kory Dercks	Traffic forecasting	B.S., Geography. Experience in traffic forecasting at WisDOT since 2014.
Dawn Krahn	Traffic analysis	M.S., Civil Engineering. Experience at WisDOT since 1998 in highway programing, congestion modeling, and benefit-cost analyses.
Ethan Frost	Traffic forecasting	B.S., Applied Mathematics, Engineering, and Physics, Graduate Certificate in Transportation Management & Policy. Experience from 2015 to 2018 in traffic forecasting.
Benjamin Rouleau, E.I.T.	Traffic operations review	B.S., Civil Engineering. Experience at WisDOT since 2014 in traffic analysis, modeling, policy development, and data management.
Rebecca Szymkowski	Traffic operations review	B.S., Civil and Environmental Engineering, Masters in Business Administration. Experience includes traffic safety engineering, speed management, traffic modeling and simulation, traffic signal design, environmental documentation, traffic incident management, and emergency transportation operations.
Jason Kennedy	Cultural resource review	B.S., Archaeology, M.A., Anthropology. Experience since 2004 in cultural resource management.
<b>Consultants</b>		
Thomas Lynch, P.E., PTOE, PTP Strand Associates, Inc.®	Consultant project management and EIS preparation	B.S., Construction Engineering, B.S., Civil/Environmental Engineering. Professional Engineer in Wisconsin. Experience since 1984 in highway design, transportation planning, and NEPA analysis.
Joan Petersen, P.E. Strand Associates, Inc.®	Consultant project management and EIS preparation and review, impact analysis	B.S., Civil/Environmental Engineering. Professional Engineer in Wisconsin. Experience since 1983 in highway design, construction management, and environmental analysis.
Jeff Held, P.E., PTOE Strand Associates, Inc.®	EIS review and preparation	B.S. Civil Engineering. Professional Engineer in Wisconsin. Experience since 1999 in alternatives analysis and evaluation.
Luke Hellermann, P.G. Strand Associates, Inc.®	EIS review and preparation, data gathering, impact analysis, graphics	B.S., Geology. Experience since 1991 in environmental review and compliance, site assessments, and environmental documentation.
Jennifer Kobryn, P.E. Strand Associates, Inc.®	EIS preparation, data gathering, impact analysis, noise impact evaluation, graphics	B.S., Civil Engineering. Professional Engineer in Wisconsin. Experience since 2008 in environmental evaluation.
Ken Swanson, P.E. Strand Associates, Inc.®	EIS preparation, impact analysis, data gathering	B.S., Civil Engineering. Professional Engineer in Wisconsin. Experience since 2004 in highway design, construction management, and environmental analysis.

Table 8.1-1 List of Preparers

Organization	Responsibility	Qualifications
Joe Urban, P.E. Strand Associates, Inc.®	EIS preparation, traffic modeling and analysis	B.S., Civil Engineering. Professional Engineer in Wisconsin. Experience since 2008 in traffic modeling and analysis.
Jim McCarthy Strand Associates, Inc.®	Natural environment data gathering, updates to T&E, wetland, and field review for environmental consequences	B.S., Environmental Science, M.S., Plant Biology/Restoration. Experience since 1989 in environmental evaluation, wetlands, ecology, land restoration, and management.
Jared Engelke, P.E. Strand Associates, Inc.®	Alternative design, EIS preparation, impact analysis, data gathering	B.S., Civil/Environmental Engineering, Technical Communication Certificate. Professional Engineer in Wisconsin. Experience since 2007 in highway design, construction management, and environmental analysis.
Josh Pachniak, P.E. Strand Associates, Inc.®	Alternative design, EIS preparation, impact analysis, data gathering	B.S., Civil Engineering. Professional Engineer in Wisconsin. Experience since 2011 in highway design, construction, and utility coordination.
Dan Carpiaux Strand Associates, Inc.®	Data gathering and graphics	B.S., Urban and Regional Planning. Experience since 1997 in GIS and impact analysis.
Mike Slavney, FAICP Vandewalle & Associates	2012 Indirect and cumulative effects analysis	B.S., Economic Geography & Urban Sociology, Master of City & Regional Planning, Land Use & Transportation Planning.
Jerry Shadewald PE HNTB	Traffic forecasting process review	B.S., Civil Engineering, M.S., Civil Engineering. Professional Engineer in Wisconsin. 18 years of experience in travel demand modeling and traffic forecasting.
Mr. Greg Rainka, Commonwealth Heritage Group	Architecture/History Consultant; conducted architecture/history survey to identify above-ground historic resources	B.A., General Science, M.S. Historic Preservation. Exceeds Secretary of the Interior's Professional Qualification Standards for History and Architectural History. Nine years of experience as architecture/history consultant.
Dr. Robert Watson, Commonwealth Heritage Group	Completed review of project's potential to impact archaeological sites	B.A., Anthropology and History, M.S., Anthropology, Ph.D., Anthropology. Over 20 years of experience in archaeology and cultural resources management in the Midwest.
