## Public comments sought for US 41 improvements in Marinette and Oconto counties

*New US 41 project website details highway improvements*

(Oconto/Marinette) The Wisconsin Department of Transportation (WisDOT) Northeast Region announces a new US 41 public design website showing proposed improvements along 20.6 miles of US 41 between Frog Pond Road in Oconto County and Wayside Lane in Marinette County.

The purpose of the website is to provide information regarding the proposed improvements, describe the potential impacts it would have on the community, and offer an opportunity for public comment. The website includes maps and displays of proposed improvements, description of construction improvements, possible schedule, traffic impacts, and temporary business signing information for a full closure on WIS 22.

### US 41 Public Design Website URL

- <https://wisconsindot.gov/Pages/projects/by-region/ne/41frog115080/default.aspx>

This is a rehabilitation-level project. Proposed improvements include:

- Concrete pavement repairs on US 41 mainline, ramps and crossroads
- Mill and overlay the asphalt shoulders on US 41 and ramps and at grade intersections
- Inlet and curb and gutter repairs
- Culvert repairs
- Upgrade curb ramps at the WIS 22/County Y overpass
- Minor repairs on various bridges

Construction is anticipated in 2031 but could be advanced to 2029 or 2030. US 41 will be open to traffic throughout construction. A two-to-three week closure of WIS 22 will be necessary for improvements at the WIS 22/County Y overpass.

WisDOT asks the public to review the proposed improvement project's scope, schedule, and traffic impacts and provide comments. There is a comment form on the website with a prepaid mailer to reply to the project team. You can also email the project team or call them directly with your comments.
