

Public Involvement Meeting Handout

**WIS 64
US 141 - County E
Marinette County**

Project ID: 9160-17-00

Handout date: August 2021

This handout and other project material are available on the design website at:

<https://wisconsindot.gov/Pages/projects/by-region/ne/64marint/default.aspx>

Thank you for your interest in this project. We look forward to your feedback.

Purpose of the meeting

The Wisconsin Department of Transportation (WisDOT) is seeking public feedback and input on the identified needs and proposed improvements along WIS 64 from just east of US 141 to County E in Marinette County. We appreciate your input and encourage you take a moment to review the project information and provide comment.

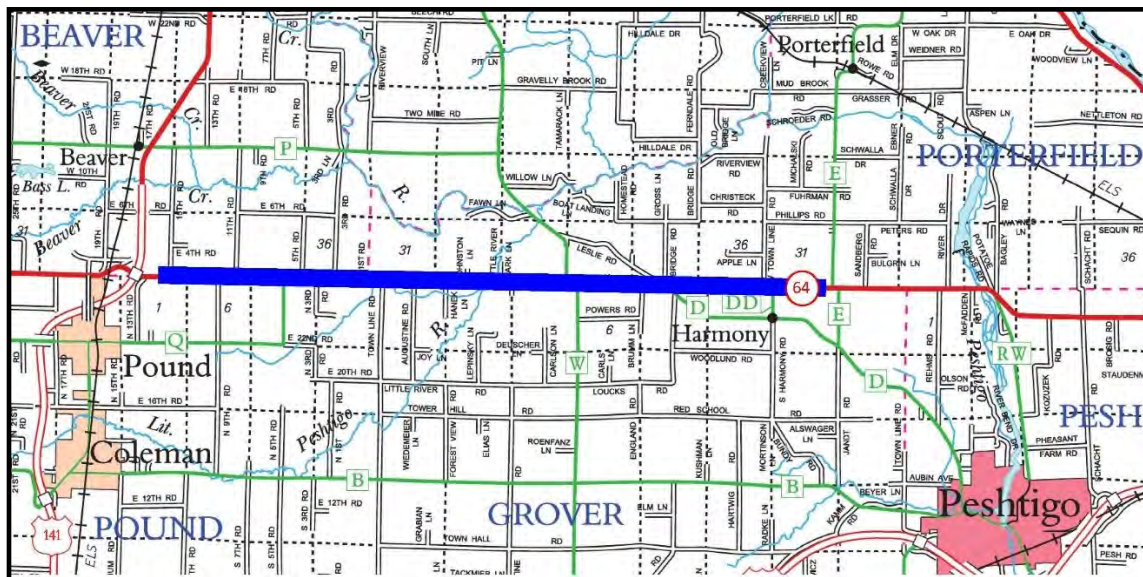

Project information

WisDOT is proposing to improve 10.3 miles of WIS 64 by placing a new surface on the existing roadway. This will address the deteriorating surface of the existing roadway, extend the pavement life of the roadway and provide an improved all-weather riding surface.

Proposed improvements include:

- Milling 1 inch of the existing pavement and overlaying with 2 inches of asphaltic pavement
- Widening paved shoulders from 3-foot to 5-foot width
- Installation of centerline and shoulder rumble strips
- Guardrail replacement at the Little Peshtigo River Bridge (B-38-130)
- Replacement of the existing box culvert (C-38-813) located approximately 1,100 feet west of County Q
- Culvert replacements at eight locations
- Curb and gutter replacement at the County W intersection
- Resurfacing the Park-and-Ride facility adjacent to the County W intersection

WIS 64 (US 141 – County E) Location Map

Project Limits

Proposed schedule and traffic impacts

Construction is scheduled for 2023.

A two- to three-week detour will be required during work at existing box culvert C-38-813. The detour route will be along US 141 and County P.

For the remainder of the project, the work will take place under traffic with the roadway reduced to a single lane within the work zone with flagging operations. Two lanes of traffic will be maintained when no construction work is taking place.

Right-of-way Impacts

Temporary limited easements (TLEs) will be necessary for the work at the box culvert C-38-813. If your property will be impacted by this project, a member of our real estate department will contact you.

In This Together program for businesses

WisDOT recognizes businesses located in work zones have special needs. It's critical that customers have access to businesses and that they continue to visit them, regardless of any road work inconvenience. WisDOT's In This Together program is offered to business and community leaders as an idea source as they plan for road construction in their area.

- Specially designed 'Guide for Businesses' to succeed during a highway construction project, includes information on:
 - Planning ahead
 - Staying informed
 - Keeping customers informed
 - Tips for businesses
- Case studies that demonstrate techniques that have been successfully used in communities throughout Wisconsin.
- Promotional samples showing a variety of examples of how businesses have promoted their businesses during construction.
- The In this Together website is available at <https://wisconsindot.gov/together>.

During construction, temporary signing for business will be available. While signing and other marketing/advertising during the construction is up to the business, WisDOT encourages businesses to use the resources above to assist them with planning for construction before the construction begins.

Public input/comments

1. Fill out the comment form attached to this document and mail to WisDOT
2. Email comments or questions to the contacts listed below.
3. Call any of the contacts below

Your comments assist us in developing a project that will serve the needs of the traveling public as well as the needs of the local community. Your input is welcome and appreciated throughout the design process.
