Public Involvement Meeting

**Wednesday, December 12, 2018
5 to 6:30 p.m.**

Town of Vandebroek Town Hall

Welcome

The Wisconsin Department of Transportation (WisDOT) welcomes you to this public involvement meeting for the proposed reconstruction of WIS 55/County JJ intersection combined with a resurfacing of WIS 55 from IH 41 to WIS 54 in the towns of Vandebroek, Freedom, Osborn, and Oneida in Outagamie County. Members of the project team are available to address your questions and concerns regarding this project.

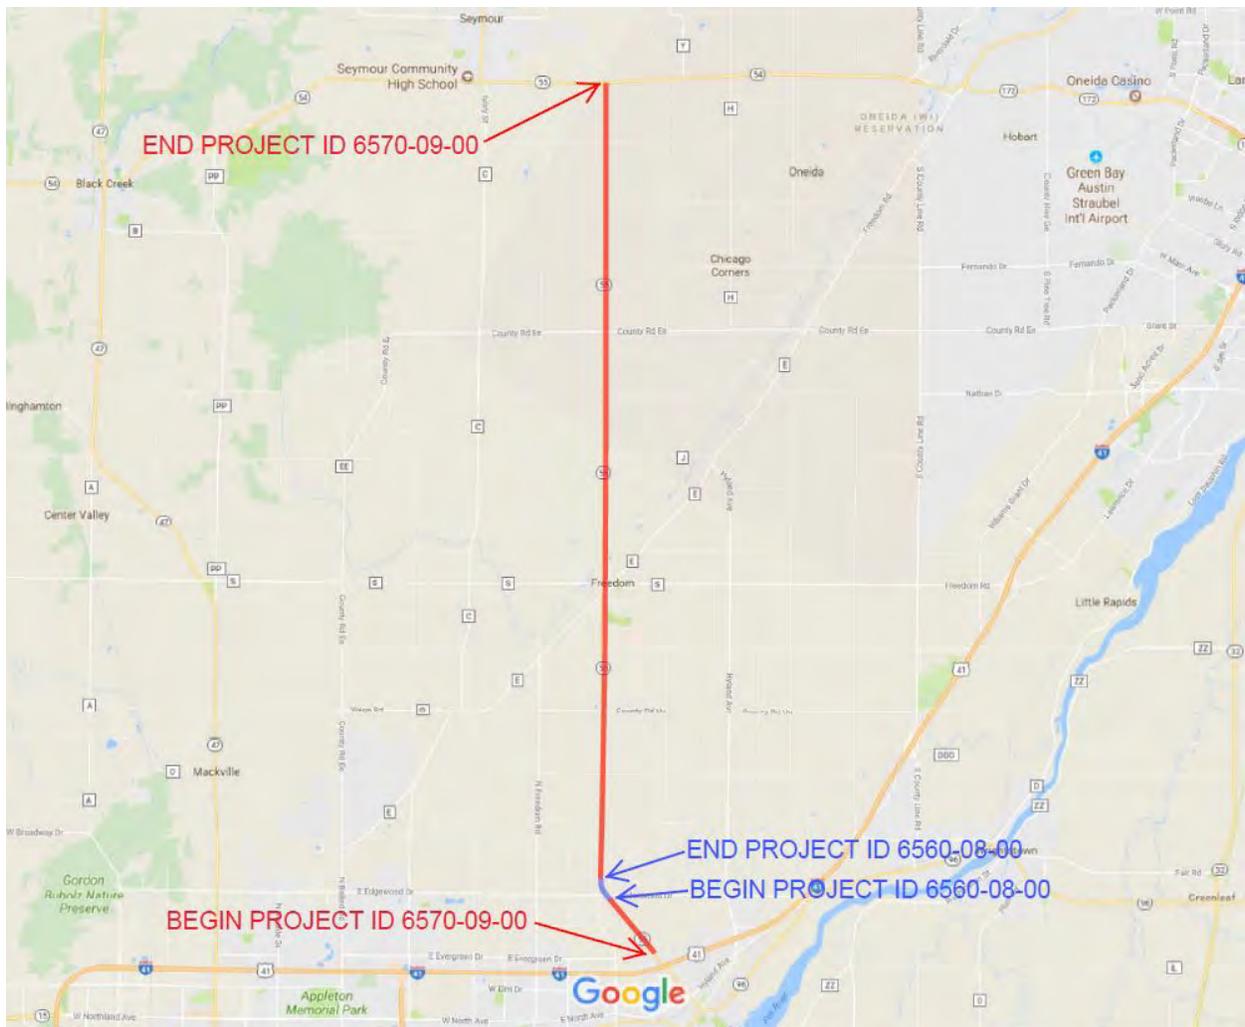

This meeting is an opportunity to exchange information helpful to our mutual understanding of the proposed project and its potential impacts. You are encouraged to meet with the project staff, view the exhibits, and discuss the proposed improvements.

We want your comments

A public input form is attached to this handout for written comments. We appreciate your input and encourage you take a moment to complete the form and give it to a WisDOT staff member before you leave. The comment form is also a pre-paid mailer and may be folded and sent in the local mail. Please return any comments by January 18, 2018, so that we can consider them in our design.

Project location and limits

The project is located on WIS 55 in the towns of Vandebroek, Freedom, Osborn, and Oneida. The project limits run for approximately 14 miles from Arbor Way to WIS 54. Construction is currently scheduled for 2023.

Project need

The existing pavement along this portion of WIS 55 is beginning to deteriorate and will require increased maintenance in the future. The proposed project will ensure that an acceptable roadway surface is created for the traveling public. The project at the intersection of WIS 55 and County JJ is proposed to improve the safety of the intersection.

Proposed improvements

The proposed improvements for Project ID 6560-08-00 include:

- Reconstruction of the intersection of WIS 55 and County JJ with roundabout
- Lighting
- Signing
- Culvert replacement/extension
- Guardrail replacement
- Pavement markings
- Curb and gutter

The proposed improvements for Project ID 6570-09-00 include:

- Mill/overlay of the existing pavement
- Curb ramp improvements
- Miscellaneous curb and gutter repair
- Guardrail replacements
- Culvert replacements
- Centerline and shoulder rumble strips
- Pavement markings

Right-of-way needs

Right-of-way acquisition in the form of Temporary Limited Easements (TLEs) and permanent acquisition (FEE) for various locations throughout the corridor including a stump removal, grading at the intersection of WIS 55 and County JJ, guardrail replacement areas, and at curb ramp locations. The right-of-way acquisition is projected to begin in the summer 2020.

Traffic control

Final details of traffic control will be determined later in design. It is anticipated the roadway will be closed to through traffic and a detour route will be used for the reconstruction of WIS 55/County JJ and for some culvert replacements. Local traffic access to property owners and businesses along WIS 55 will be maintained throughout the project. The remainder of the resurfacing project will likely be conducted under single lane closures via flagging operations.

Schedule

- A public involvement meeting (PIM) is scheduled for December 12, 2018.
- Design is on-going and will continue through fall of 2022.
- Real estate acquisition is anticipated to begin in the summer of 2020.
- Construction is tentatively scheduled for 2023.

Other planned projects

WIS 47

WisDOT tentatively plans to resurface WIS 47 from Appleton to Black Creek in 2025 with the possibility of advancement to 2022 if funding becomes available.

WIS 54

WisDOT tentatively plans to resurface WIS 54 from Seymour to Green Bay in 2025 with the possibility of advancement to 2024 if funding becomes available.

WIS 55 Project Contacts:

In This Together:

WisDOT recognizes businesses located in work zones have special needs. It's critical that customers have access to businesses and that they continue to visit them, regardless of any road work inconvenience. The "In This Together" program is offered to business and community leaders as an idea source as they plan for road construction in their area.

The "In This Together" program includes:

- Workbook
- Case studies that demonstrate techniques that have been successfully used in communities throughout Wisconsin.
- Promotional samples showing a variety of examples of how businesses have promoted their businesses during construction.

Find out more at: <http://wisconsindot.gov/Pages/projects/in-together/default.aspx>

During construction you can track the project on the WisDOT Northeast Region Construction Website at <https://projects.511wi.gov/region/northeast>.
