WisDOT Project ID: Project 1021-01-10/80  
 Baldwin - Osseo  
 I-94, Bridge polymer overlays  
 St. Croix and Trempealeau counties

This letter is intended to provide notification of an upcoming Wisconsin Department of Transportation (WisDOT) rehabilitation project on the I-94 corridor. Any comments received will be documented in the environmental review process. The WisDOT project team appreciates your participation and comments on this preferred alternative.

**Project Description**

WisDOT is preparing plans for the proposed bridge rehabilitation project along the I-94 corridor. The proposed project consists of applying polymer overlays to five structures – four just north of Osseo in Trempealeau County and one southeast of Roberts in St. Croix County -- to extend the life of the bridge decks. Work currently is scheduled for the summer of 2028.

Structures included:

- B-61-0215 (I-94 eastbound over County NN in Trempealeau County)
- B-61-0216 (I-94 westbound over County NN in Trempealeau County)
- B-61-0217 (I-94 EB over Buffalo River in Trempealeau County)
- B-61-0218 (I-94 WB over Buffalo River in Trempealeau County)
- B-55-0259 (County J over I-94 in St Croix County)

**Proposed Traffic Impacts**

The work will be completed under traffic using lane closures with flagging operation on County J and single-lane closures during off-peak travel periods on I-94. A temporary 55 mph speed declaration will be implemented for I-94 where work is occurring.

**Schedule**

Preliminary design began.....November 2023  
 Plans, Specifications and Estimate Submittal.....July 2027  
 Scheduled Construction.....Summer 2028

**More Information**

Additional project information can be found at the WisDOT website at:
