

# US 63 Resurfacing Project

## Town of Trego to Town of Springbrook

June 2026

### Project Overview:

The Wisconsin Department of Transportation (WisDOT) is in the process of a preliminary design investigation for a proposed resurfacing project on US 63 from the first bridge crossing the Namekagon River east of Trego to County M in the unincorporated community of Springbrook, all in Washburn County.

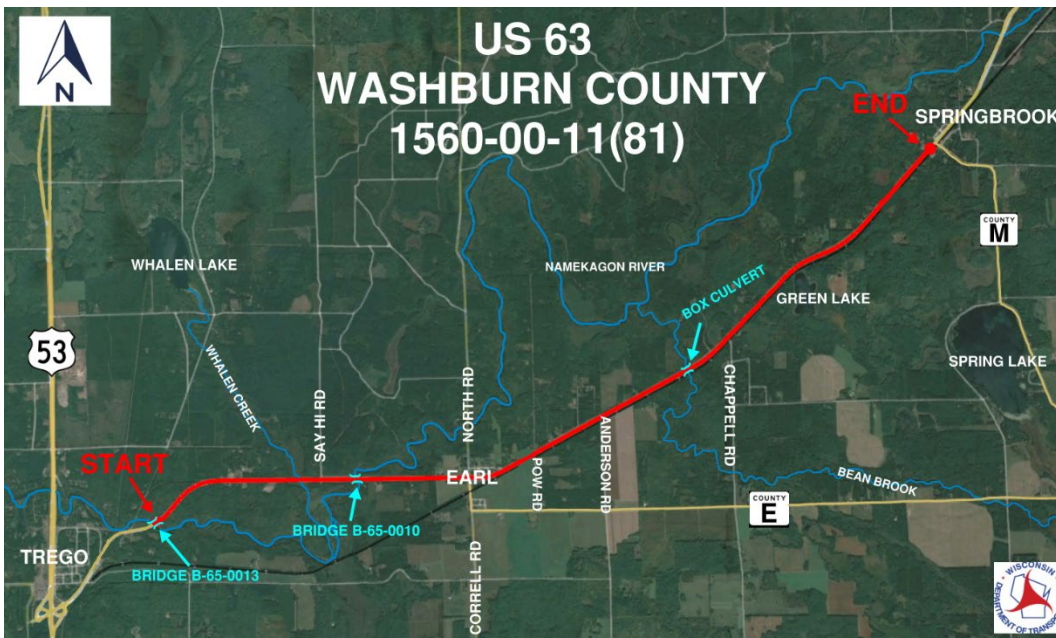

### Proposed Improvements:

This segment of US 63 is deteriorating. To address this, WisDOT is proposing:

- Milling and repaving the existing US 63 pavement
  - This includes paving up to railroad crossings near US 63.
- Installing centerline rumble strips
- Making curb and gutter repairs in the community of Earl
- Replacing and rehabilitating guardrail
- Completing culvert work
  - This includes cleaning, lining and repairing culverts.
- Cleaning ditches and clearing the roadside
- Placing new pavement markings

### Traffic Impacts:

During construction, US 63 would remain open to traffic, but motorists would encounter single-lane closures controlled by flagging operations.

### Schedule:

- Construction: Currently is scheduled for 2031.
  - Work could occur as early as 2028 if funding allows.
