

# Public Involvement Handout

**WIS 35**  
**150th Avenue to County C**  
**St. Croix County**  
**Project ID: 8080-08-05**

**WIS 64**  
**WIS 35 to 142nd Street**  
**St. Croix County**  
**Project ID: 8110-00-09**

**Handout Date: July 1, 2024**

Thank you for your interest in this project. We look forward to your feedback.

## **Purpose of the handout**

The Wisconsin Department of Transportation (WisDOT) is in the process of developing plans for proposed improvements on WIS 35 and WIS 64 from the unincorporated community of Houlton to the city of New Richmond in St. Croix County. The purpose of this handout is to provide information regarding the proposed projects, describe the potential impacts they would have on the community and offer an opportunity for public comment. There will be no in-person public meeting. We appreciate your input and encourage you to review the project information and provide comments.

## **Project information**

The purpose of the project is to address the deterioration of approximately 13 miles of the existing WIS 35 and WIS 64 roadway surfaces and shoulders to maintain a safe and efficient transportation system between Houlton and New Richmond. The following work is proposed on WIS 35 and WIS 64:

- Performing spot repairs on the existing concrete driving lanes in both directions of travel where deterioration exists.
- Resurfacing the existing shoulders and installing rumble strips.
- Placing new pavement markings.
- Replacing large signs at spot locations.
- Improving guardrail and culverts at spot locations.

## **Proposed traffic impacts**

During construction, WIS 35 and WIS 64 will remain open to local and through traffic using single-lane closures and flagging operations. Temporary ramp closures and disruptions in access would occur during construction. Advanced notification of these temporary disruptions would be provided by construction staff.

Construction is currently scheduled for 2026.

## **Real estate**

Real estate acquisition would not be required.

## **Public input/comments**

We encourage you to provide input regarding the proposed project. A sheet is available for your written comments. Please email or mail any written comments about the project to the contact listed below before Aug. 1, 2024

Your comments assist us in developing a project that will serve the needs of the traveling public as well as the needs of the local community. Your input is welcome and appreciated throughout the design process.
