

Project Handout

WIS 64 and County T Intersection
Traffic Safety Improvement
St. Croix County
I.D. 8110-00-06

May - June 2026

Meeting Purpose

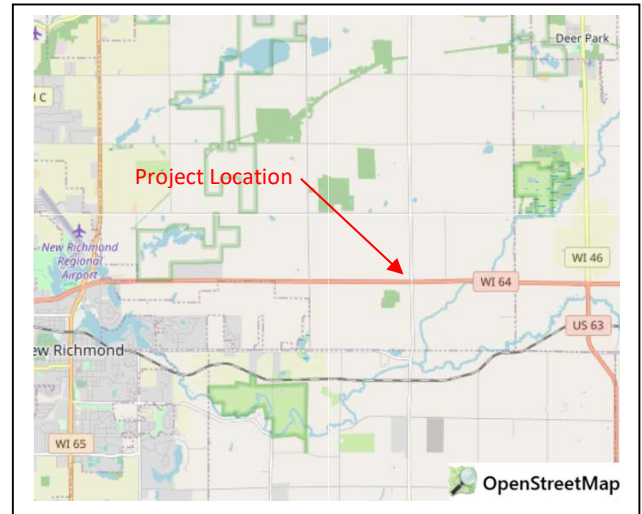

The purpose of this handout is to offer information and receive public comment regarding a proposed traffic safety improvement project at the intersection of WIS 64 and County T in St. Croix County.

Project Need

The intersection of WIS 64 and County T has experienced a trend of severe injury angle crashes in the past few years.

From 2020 to 2025, there have been 15 angle crashes with seven of these involving injuries.

To address this, Wisconsin Department of Transportation (WisDOT) is proposing a single-lane roundabout.

Project Schedule

- ✿ May 28, 2026: Public involvement meeting
- ✿ June 25, 2026: Public comment period end
- ✿ Fall/winter 2026: Detailed design start
- ✿ 2030: Construction

Past Intersection Safety Improvements

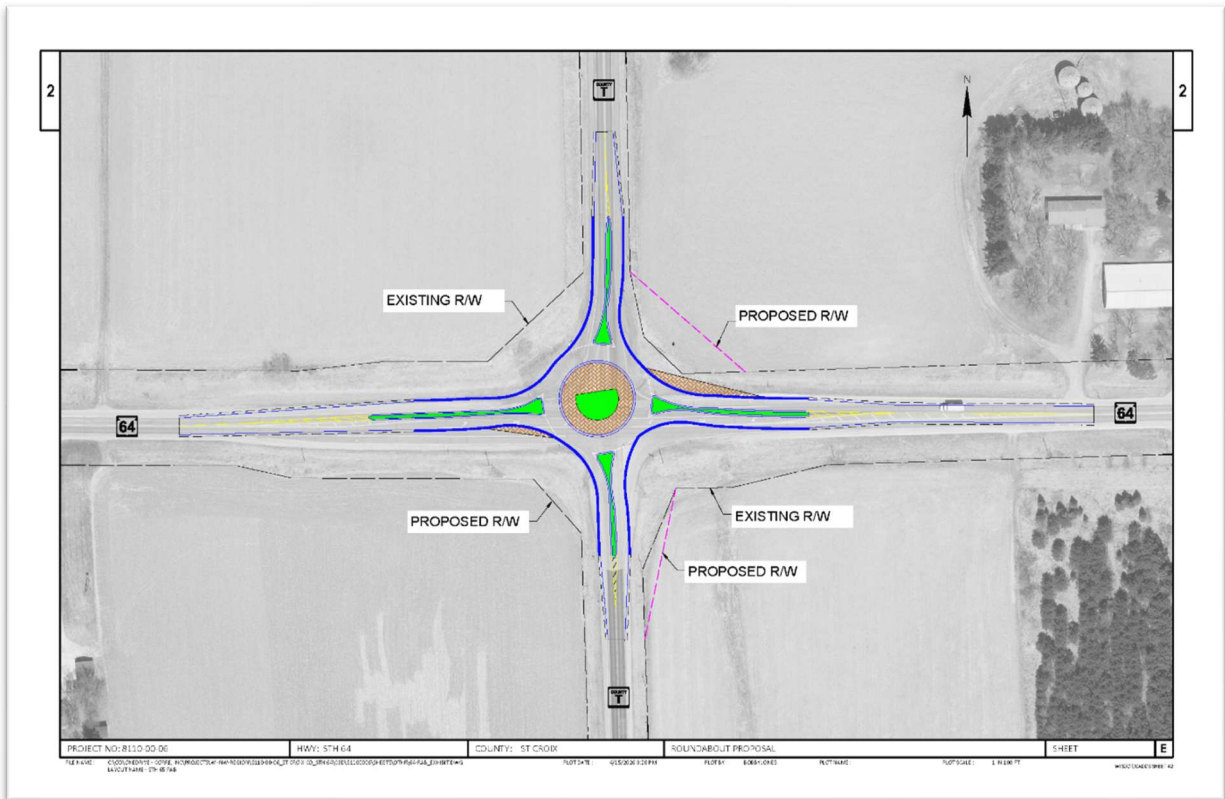

- ✿ 2009: Added left- and right-turn lanes on WIS 64 and right-turn lanes on County T
- ✿ 2024: Installed *Through Route Activation Warning System (TRAWS)*

TRAWS: Sign on WIS 64 is only activated when there is a vehicle on County T waiting to turn onto WIS 64.

WIS 64 & County T Single-lane Roundabout Proposal

- ⊗ Will be designed for oversize overweight trucks.
- ⊗ Each approach will have a single-lane entry and a single-lane exit.
- ⊗ Street lighting will be added within the roundabout area and on the approaches.

Funding

- ⊗ The roundabout will be funded through the Highway Safety Improvement Program, which uses 90% federal funds and 10% state highway funds.
- ⊗ The estimated construction cost for the roundabout is \$2 million to \$3 million.

Public Input/Comments

Please provide comments by June 25, 2026, by phone or email to the contact below. Use the comment form on the project website to submit written comments. Please drop it in the mail before June 22, 2026. Your input is welcome and appreciated.
