WIS 100 Roadway Rehabilitation PROJECT UPDATE

N. Mayfair Road | N. Lovers Lane, W. Burleigh St. to W. Silver Spring Dr.
Milwaukee County | Project ID 2030-10-01

Public Involvement Meeting No. 1 | September 2, 2021

You're Invited!

The Wisconsin Department of Transportation (WisDOT) Southeast Region (SE Region) is planning the rehabilitation of a three-mile segment of WIS 100 from W. Burleigh Street to W. Silver Spring Drive. The public involvement meeting will be held in an open house format on September 2 from 4:30-6:30 p.m. in the lower level of the Wauwatosa Civic Center located at 7725 W. North Avenue. Design staff will be on hand to answer your questions and discuss your individual concerns.

Purpose: The purpose of the proposed project is to address the deteriorating condition and decreased ride quality of the WIS 100 structures over the Menomonee River, the segment of WIS 100 from W. Burleigh Street to W. Silver Spring Drive, and the WIS 100 bridge structures over the Little Menomonee River.

Need: The original WIS 100 structures over the Menomonee River were built in 1968. The existing bridges are experiencing large areas of spalls and delaminations and the bridges are reaching the end of their service life. WIS 100 is experiencing a decrease in ride quality and an increase in pavement distresses.

Milwaukee County Parks & Trails: The Milwaukee County Park's Oak Leaf Trail crosses WIS 100 at the Menomonee River Parkway. At the request of both the City of Wauwatosa and Milwaukee County Parks, the team is studying a trail addition that would provide an alternate to crossing the existing six lanes of WIS 100 by providing an underpass at the north side of the bridge along the Menomonee River. We are also investigating adding sidewalk to the west side of WIS 100 and the south side of WIS 190 along Currie Park. Detour routes for the Oak Leaf Trail are under consideration, but closure of the trail is possible during construction.

Exhibits showing impacts to the parks are available on the website:
