

## → Outcomes of Scoping Process

WisDOT and FHWA published a notice of intent (NOI) in the Federal Register on July 18, 2023 formally announcing an EIS will be prepared for the I-39/90/94 Corridor Study.

**The notice formally kicked off a 30-day comment period, also called scoping.**

- » During the scoping comment period, WisDOT and FHWA asked for comments or concerns to be considered in the EIS.
- » Comments received during the comment scoping period will be considered in the Draft EIS.
- » WisDOT and FHWA will continue coordination with public agencies and local governments to refine alternatives and address impacts. Measures taken to avoid, minimize and mitigate impacts will be documented in the Draft EIS.

→ **The comment period ended August 17, 2023 and comments generally focused themes around:**

Transportation infrastructure, new interchanges, and pedestrian and bicycle usage.
