

# Web Map Instructions

## Zoom

There are two ways to zoom. The first is to use the scrolling wheel on your mouse to zoom in and out. The second is to use the +/- buttons in the upper left side of the map (see Figure 1).

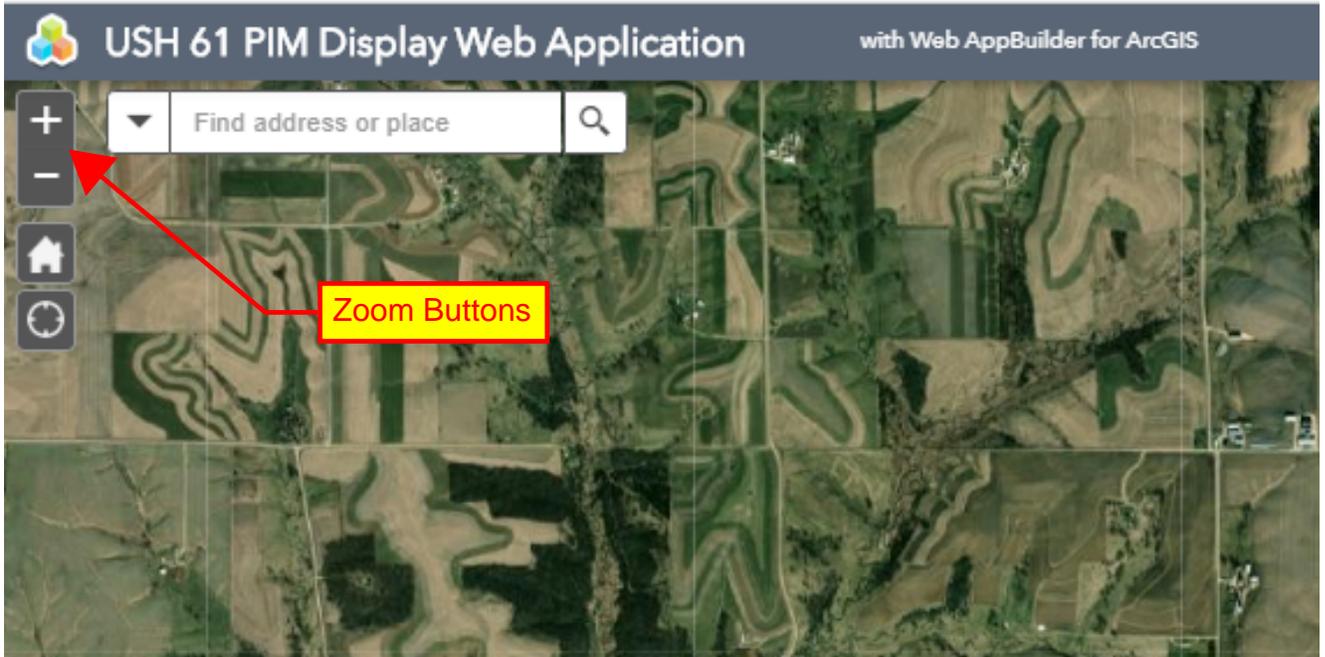

Figure 1: Zoom buttons.

## Legend

The web map legend is shown below in Figure 2. A description is also provided in the Layer List (see Figure 3).

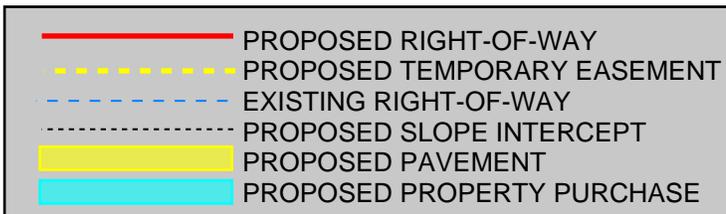

Figure 2: Map legend.

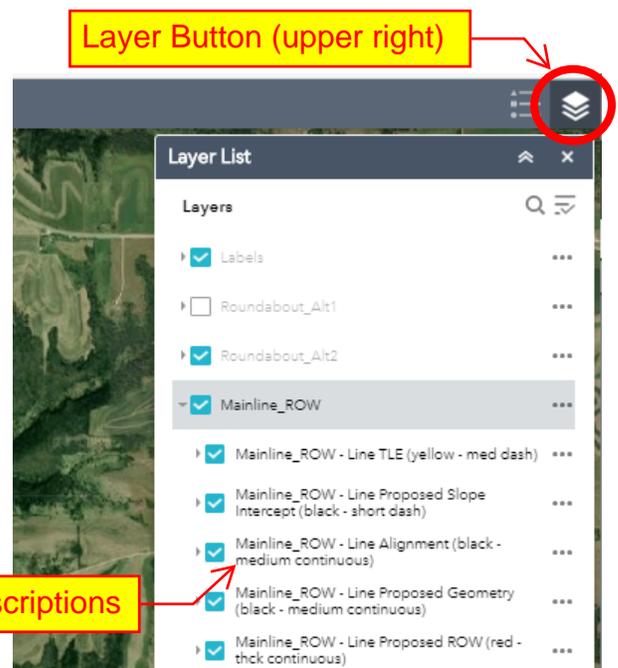

Figure 3: Descriptive legend.

## View Roundabout Alternate and Turn Layers On/Off

The map defaults to show proposed Alternate 2 of the US 61/WIS 81 roundabout. To view roundabout Alternate 1, those layers must be turned on by checking all layer boxes under Roundabout\_Alt1 (see Figure 4). Alternate 2 and other layers can then be turned off by unchecking each box.

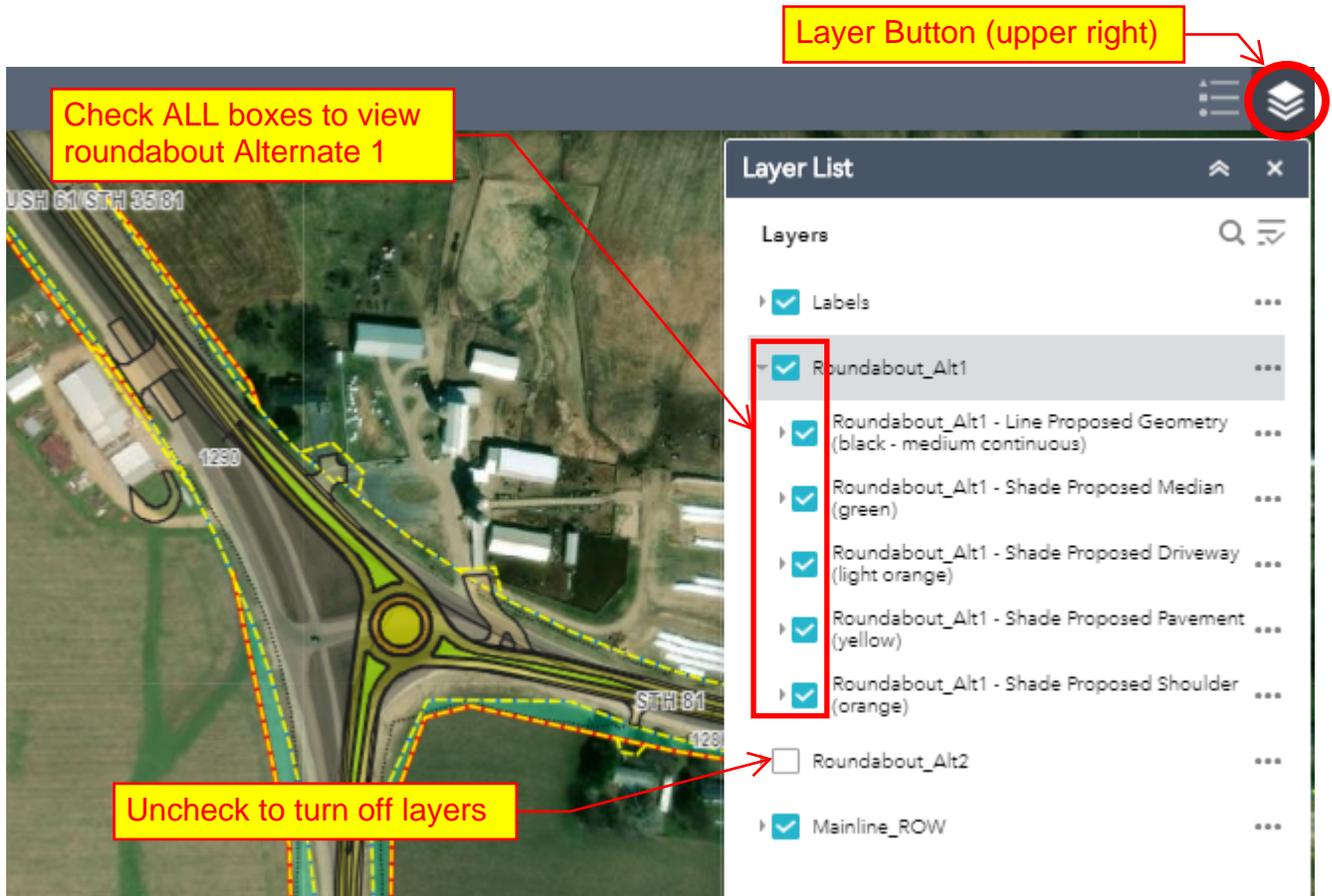

Figure 4: Layer manipulation.
