

STH 171 - Project 5860-00-31/61

Rolling Ground – Boaz

Jered Lex
Project Manager - WisDOT

Public Information Meeting

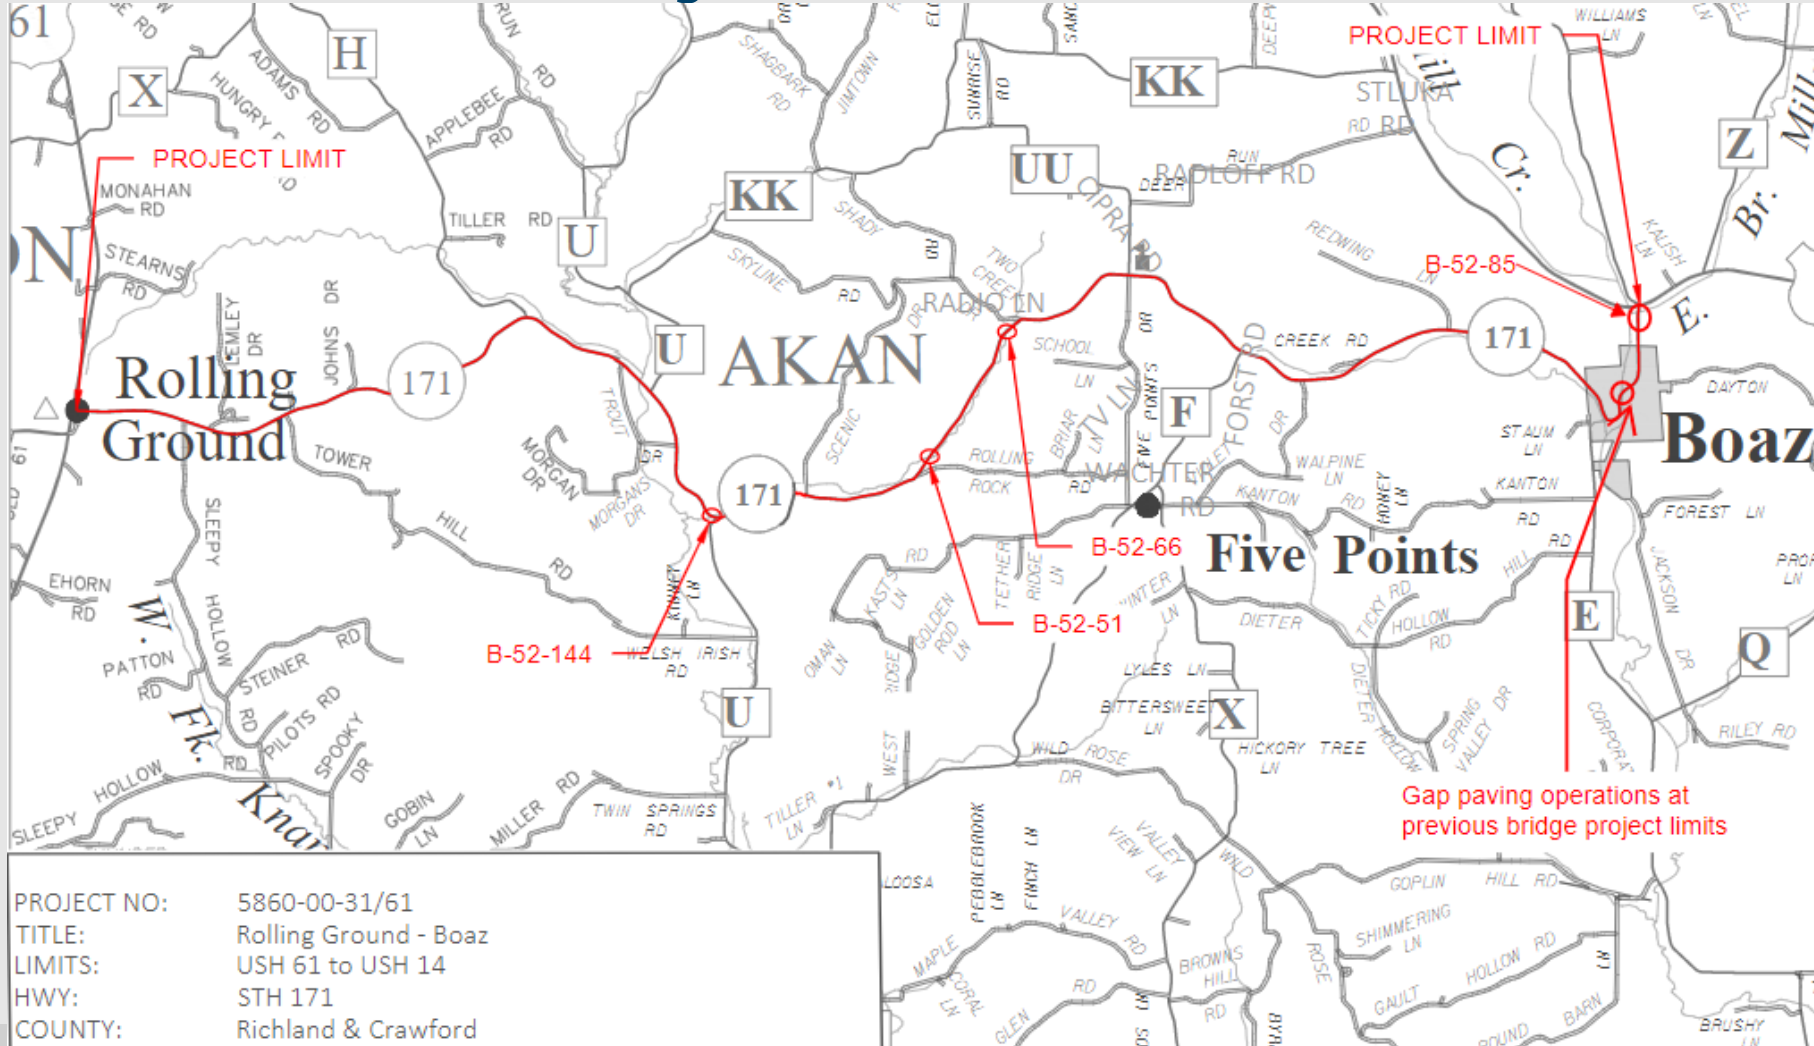

January / February 2022

Who can I talk to about this project?

- Jered Lex, WisDOT Project Manager
- Jonathan Davidson, WisDOT Project Leader

Project Location

Why do we need this Project?

- The pavement is weathered, rutted, and cracked.
- End terminals on guard rails do not meet current standards.

Proposed Improvements

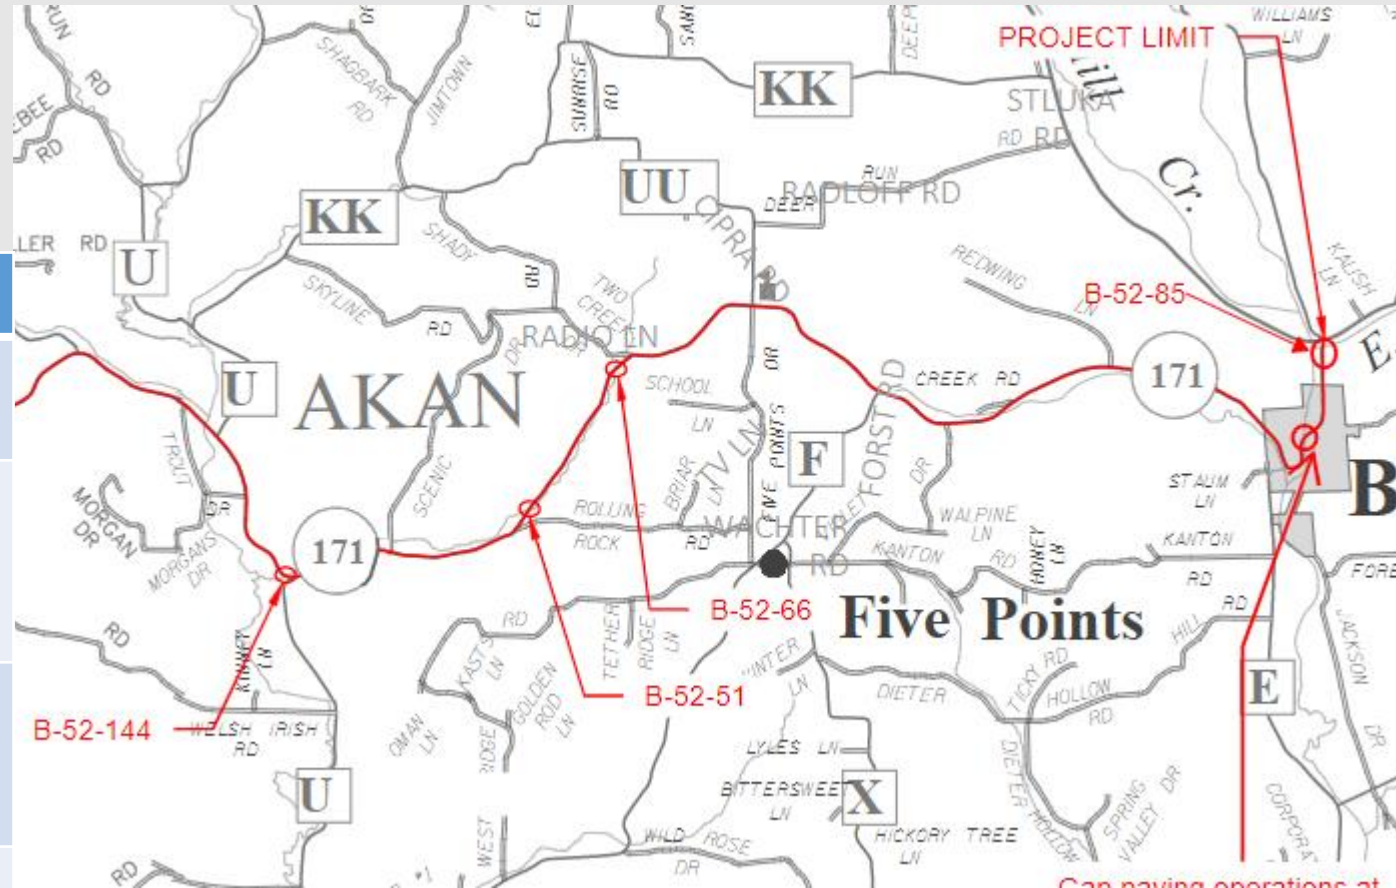

- Overlay existing pavement to extend service life.
- Maintain existing roadway width, shoulders, and alignment.
- Replace guard rail and guard rail end terminals, as needed, to meet current standards.

Proposed Improvements

- Perform rehabilitation work on 4 structures:

| Structure ID | Proposed Action |
|--------------|--|
| B-52-144 | Drip edge & surface repairs. |
| B-52-51 | Repair scour countermeasures, replace or pull back SW wing and remove sediment from box. |
| B-52-66 | Repair east drip edge. Repair SE, NE, and NW wings. Surface repairs. |
| B-52-85 | Drip edge repairs. |

What will happen to traffic?

- STH 171 will remain open to traffic during construction and will be controlled with flagging operations.
- Minor delays will be expected.
- Access to driveways and local roads will remain open.

What happens next?

1. February 2022: Gather public input
2. June 2022: Anticipated Preliminary Design & Environmental Process Complete
3. November 2023: Final Plans Complete
 1. Construction Scheduled for 2024

Thank you for your time!

If you have comments, questions, or concerns please send us on email, give us a call, send us a letter, or fill out the public comment form on the WisDOT webpage.
