

# WIS 59

## E. Mallwood Drive to County N Public Involvement Meeting #2

Project ID: 3140-00-04

February 4, 2026

# Agenda

- Project Overview
- Purpose & Need
- Project Funding
- Project Updates
- Design Overview
- Construction Staging
- Real Estate
- Schedule

# Project Overview

- Project Limits: WIS 59 from E. Mallwood Drive to County N
- Length: 2.6 miles

# Purpose & Need

- The purpose of the WIS 59 project is to enhance safety and improve the deteriorating pavement.
  - Several intersections within the project limits have high crash rates
  - The concrete pavement exhibits significant chipping and cracking
  - The asphalt pavement shows rutting and cracking

WIS 59 at E. Mallwood Drive

WIS 59 at E. Harbor Road

# Project Funding

- Highway Safety Improvement Program (HSIP)
  - 90% Federal
  - 10% State
- State Highway Rehabilitation (SHR)
  - 80% Federal
  - 20% State
- No local funding

# Project Updates

## ■ Design

- Roundabout layouts
- Inclusion of Ellendale Road/Newville Road Intersection
- Harbor Road (east) updated to a full-access “T” intersection
- Clear Lake Road updated to a full-access “T” intersection
- Access control

## ■ Schedule

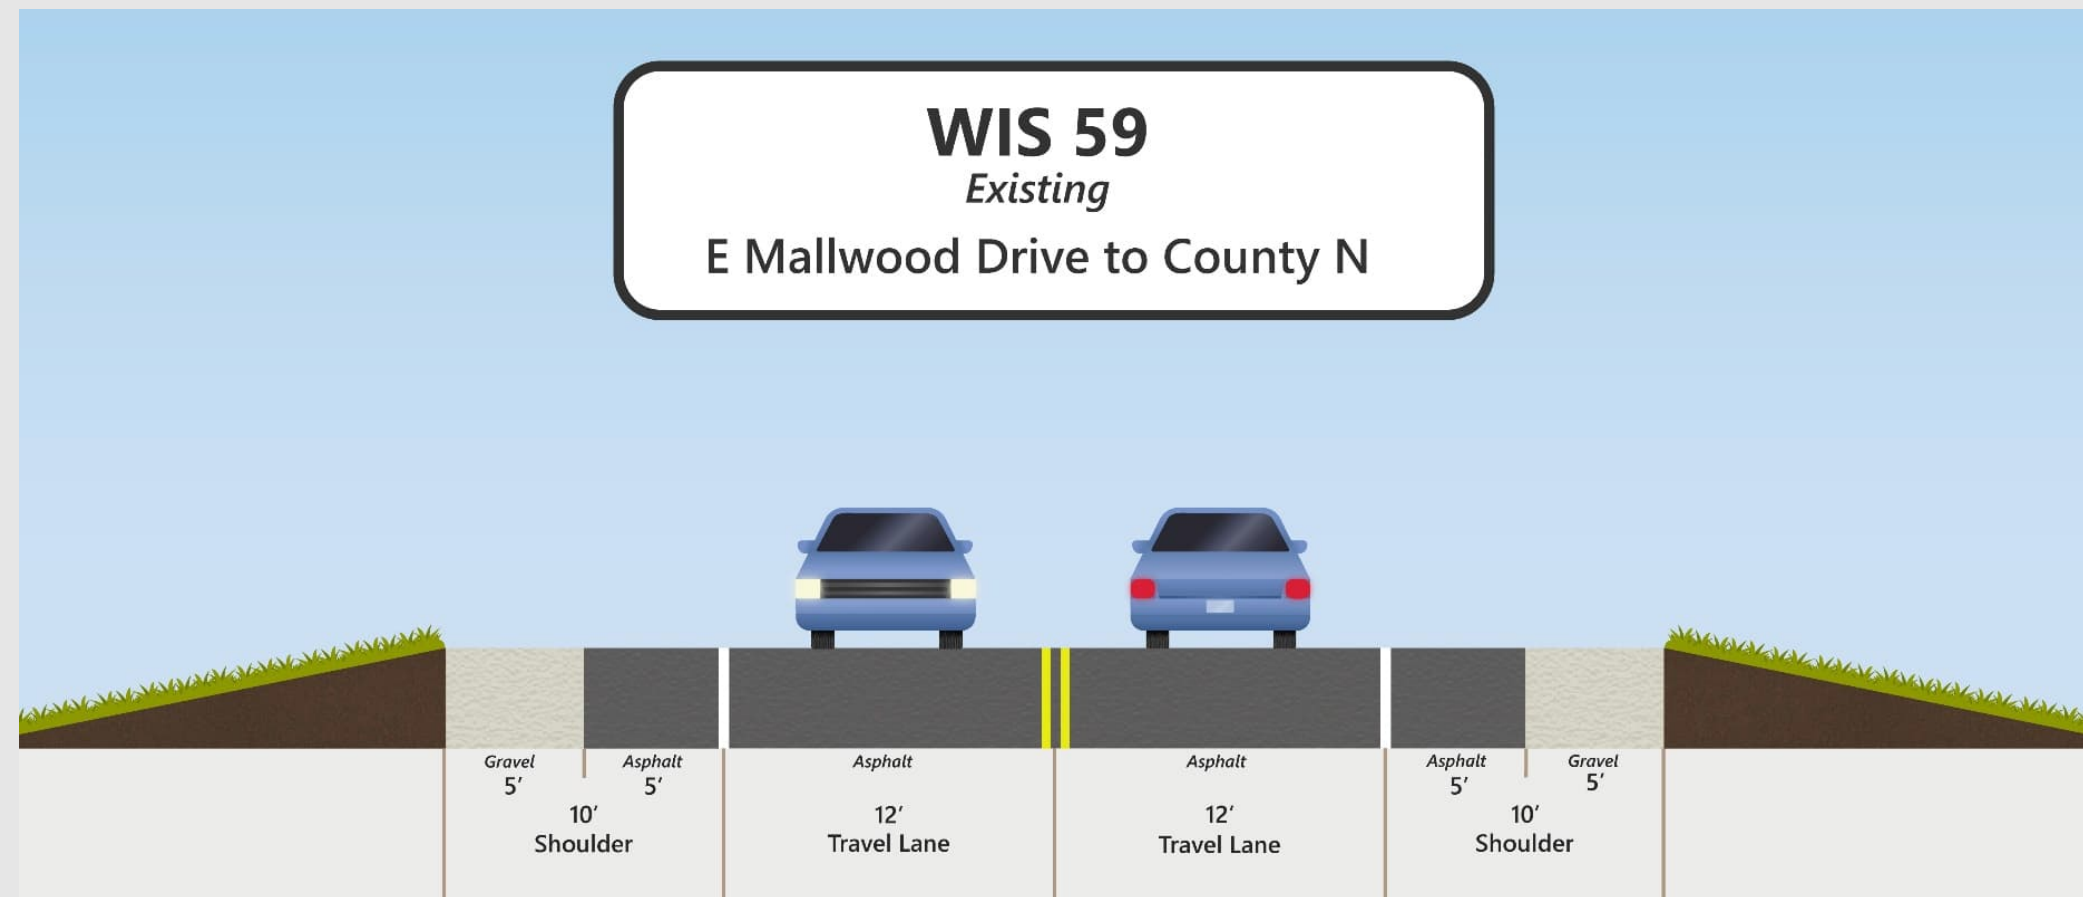

- Construction Late Summer 2028 to Fall 2029

# Design Overview

## Existing Typical Section

- Two 12-foot lanes
- 10-foot shoulders (5-foot paved)

# Design Overview

## Proposed Typical Section – Urban

- Two 12-foot lanes
- 6-foot paved outside shoulders with curb and gutter
- 12-foot minimum median – curb and gutter or paved

# Design Overview

## Proposed Typical Section – Two-Way Left Turn Lane (TWLTL)

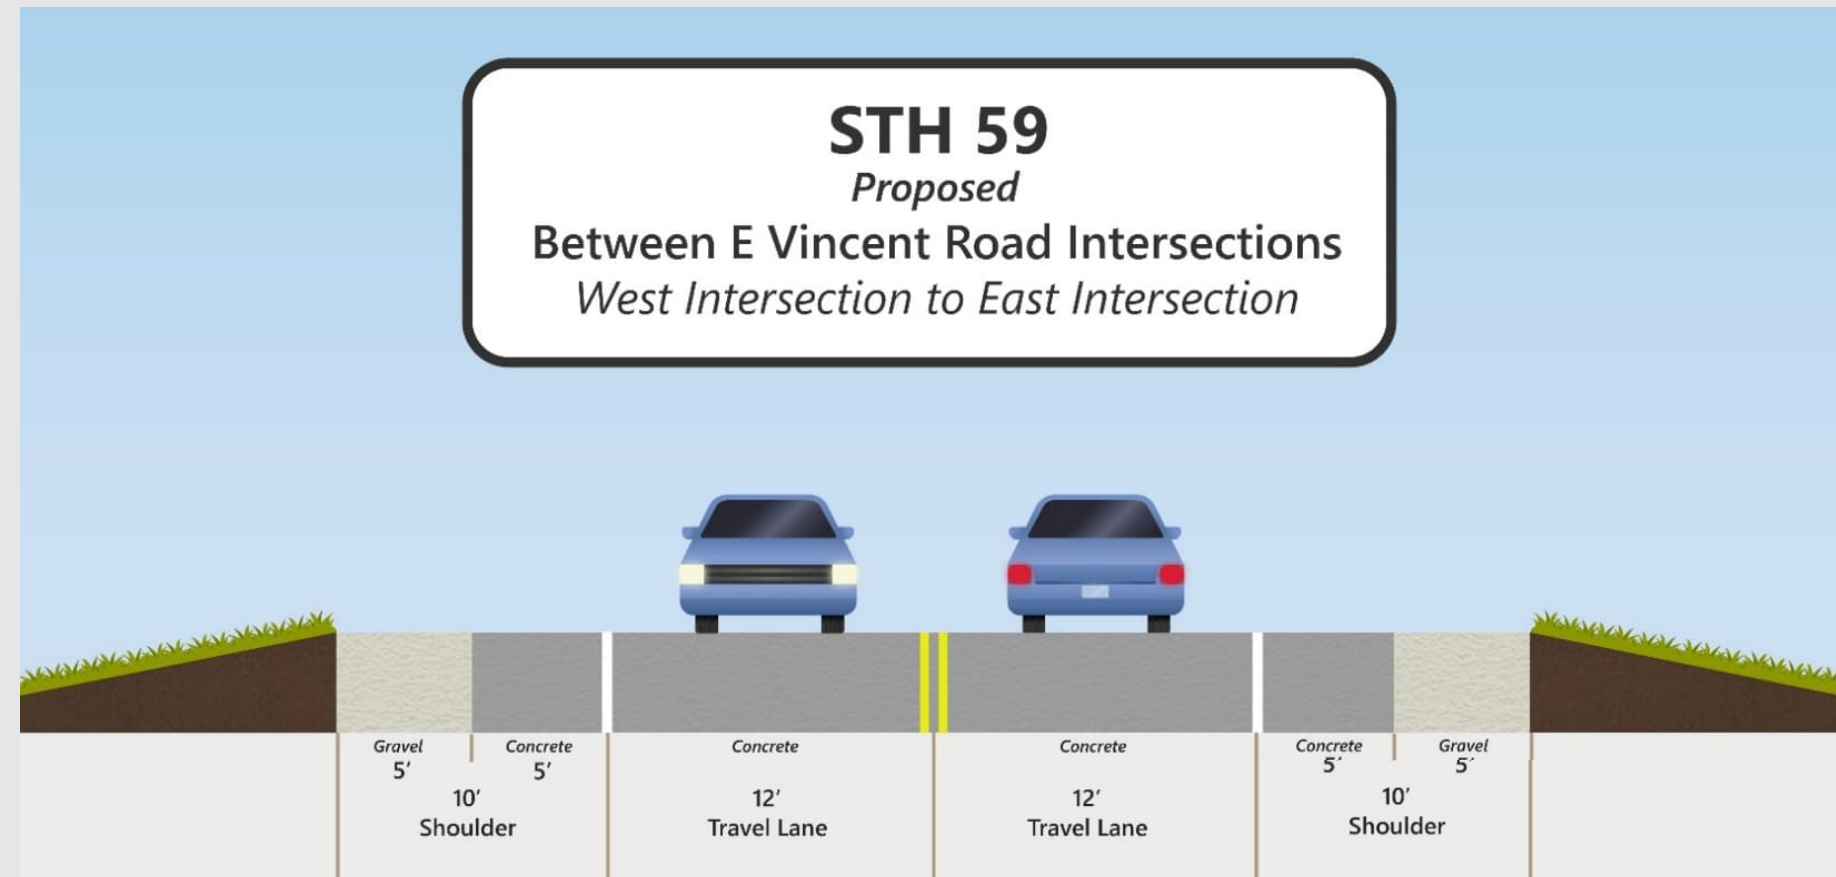

- Two 12-foot lanes
- 14-foot paved median (TWLTL)
- 10-foot rural outside shoulder (5-foot paved)

# Design Overview

## Proposed Typical Section – Rural

- Two 12-foot lanes
- 10-foot rural outside shoulder (5-foot paved)

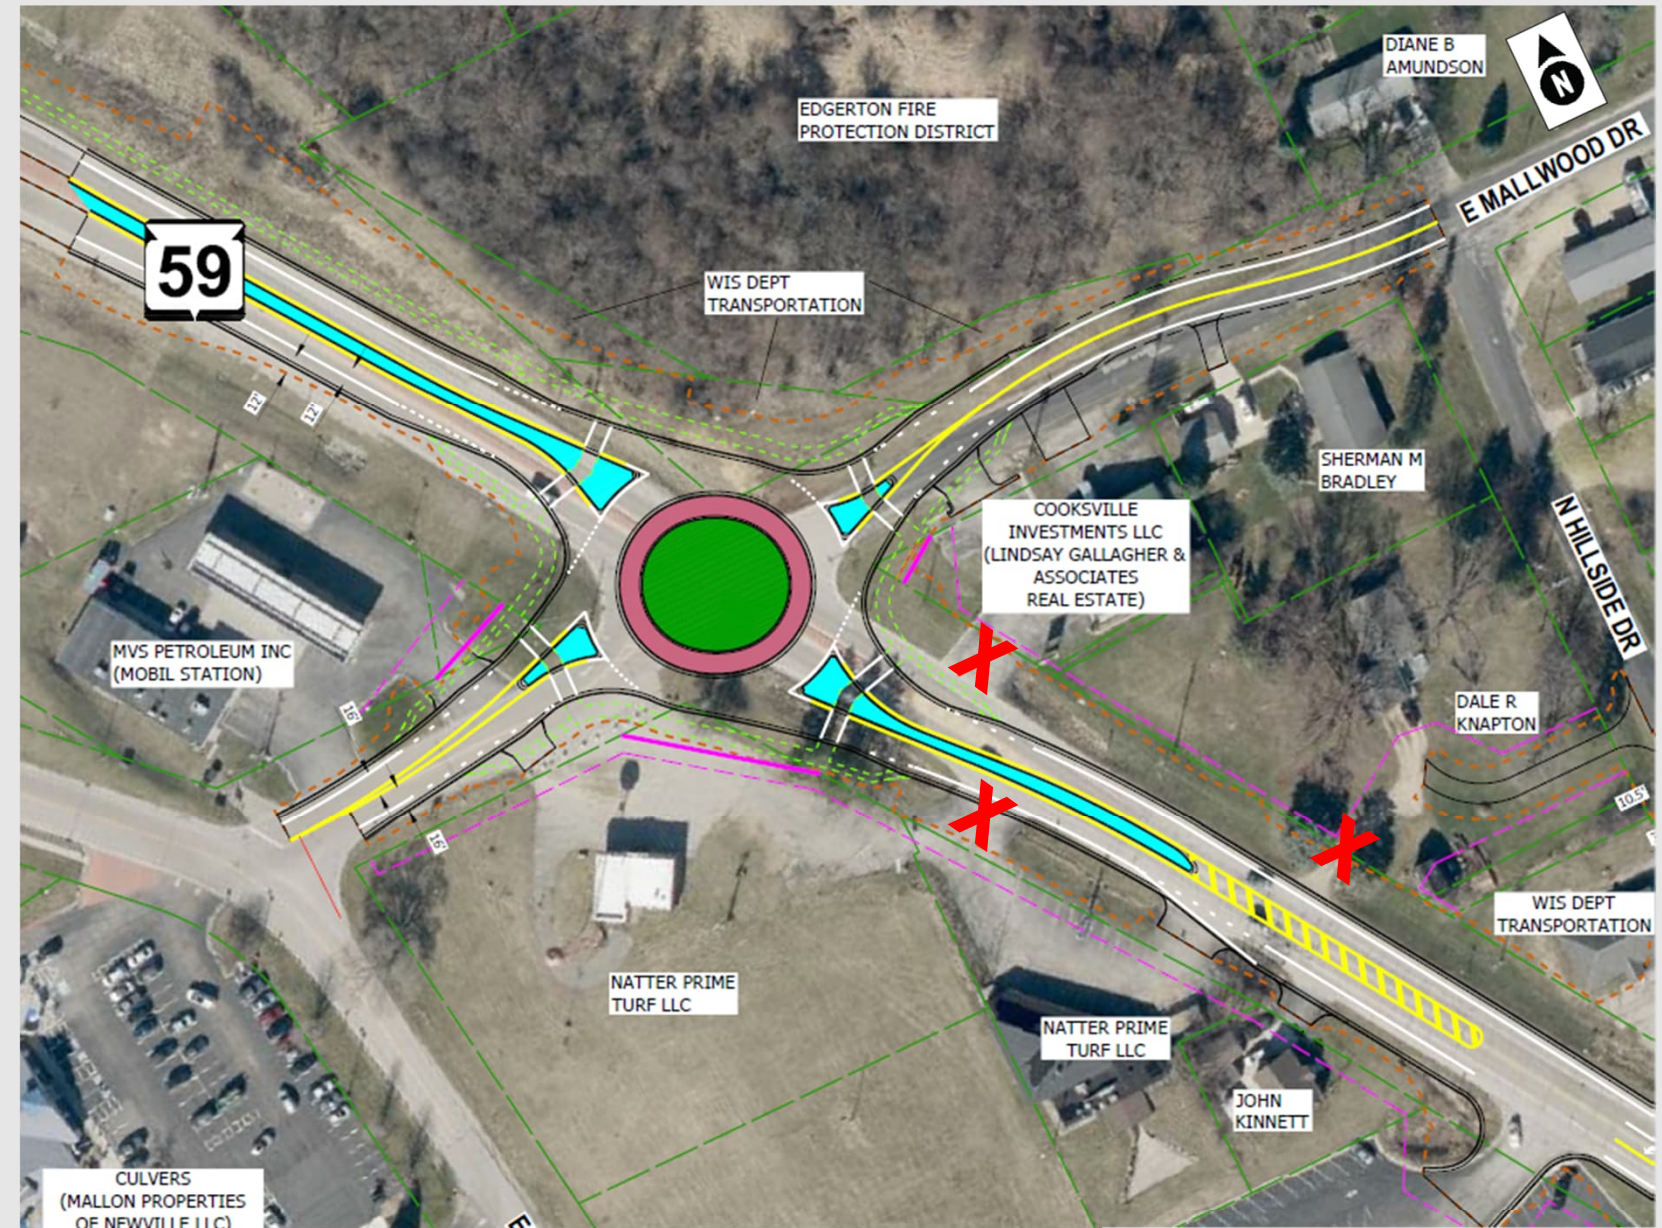

# Design Overview

## Intersection Improvements – E. Mallwood Drive

- Single lane roundabout
- Restores left turns at the intersection

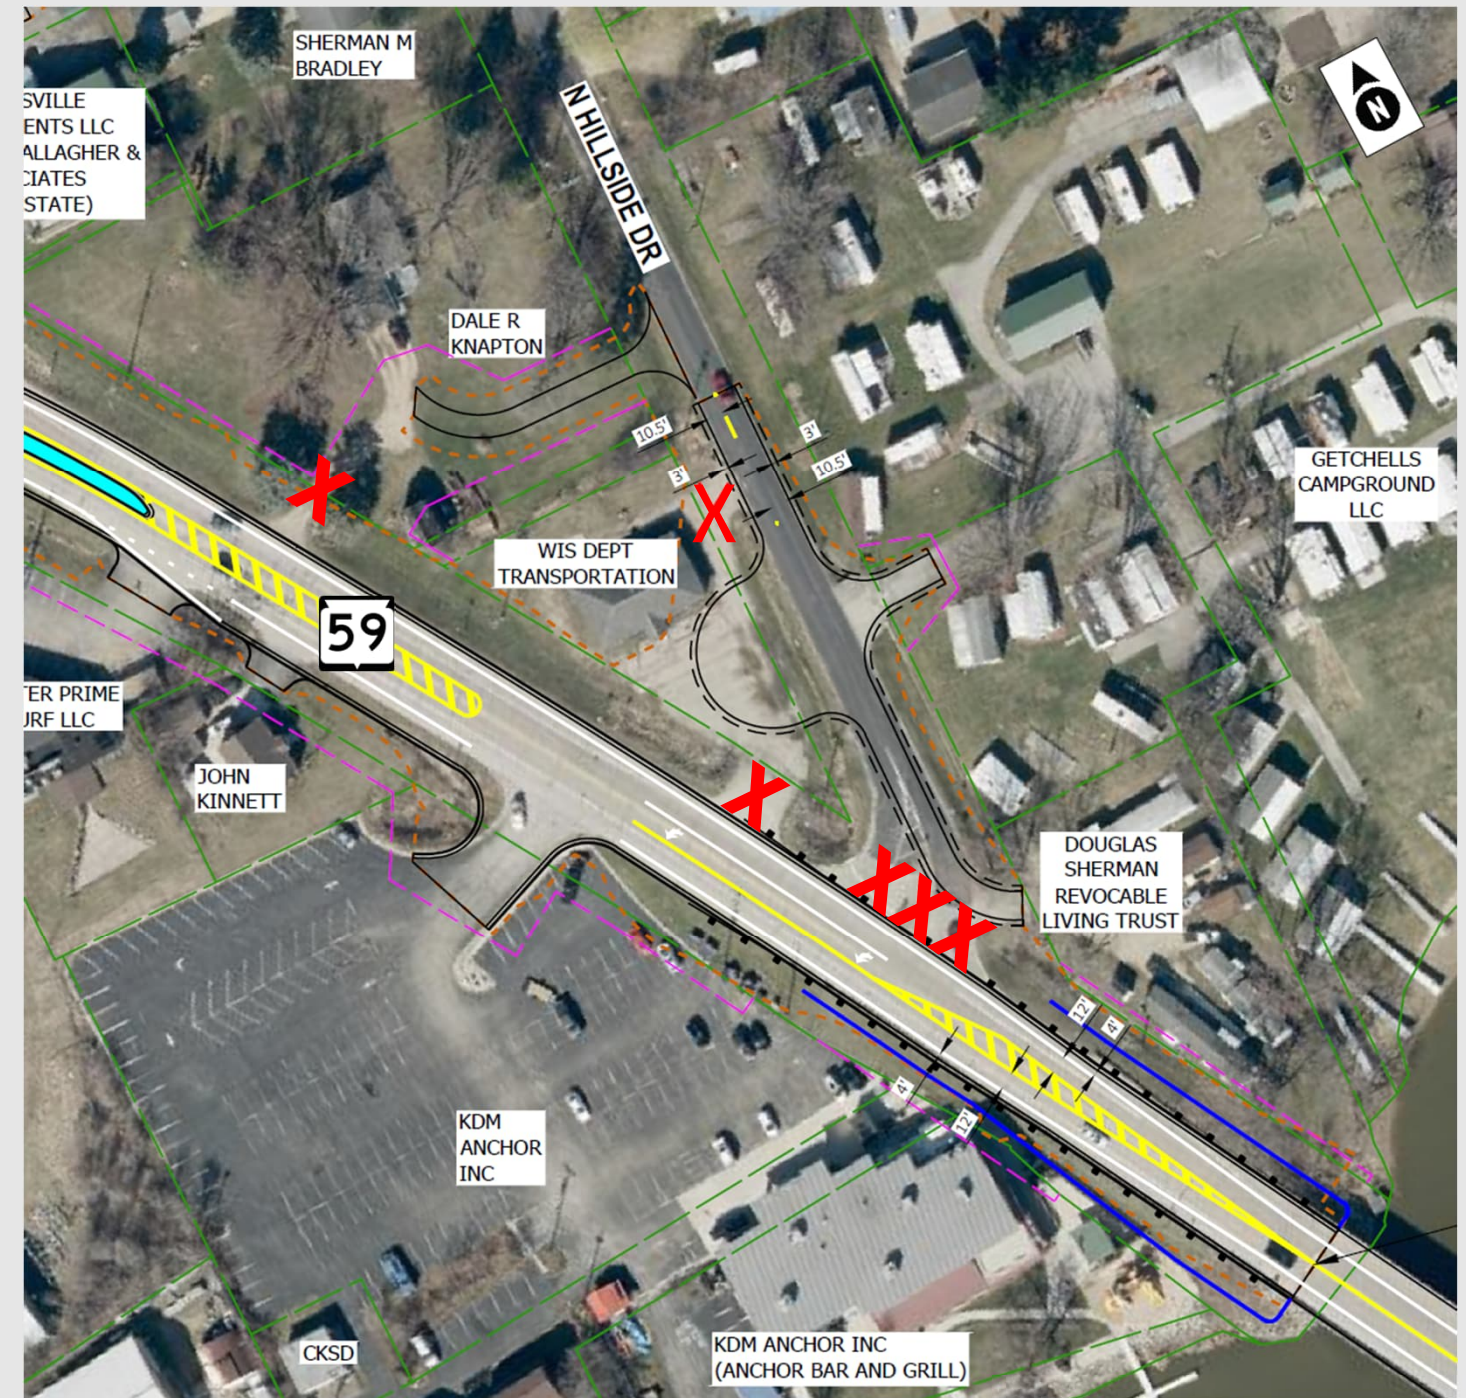

# Design Overview

## Intersection Improvements – N. Hillside Drive

- Cul-de-sac N. Hillside Drive
- Removes direct access to WIS 59

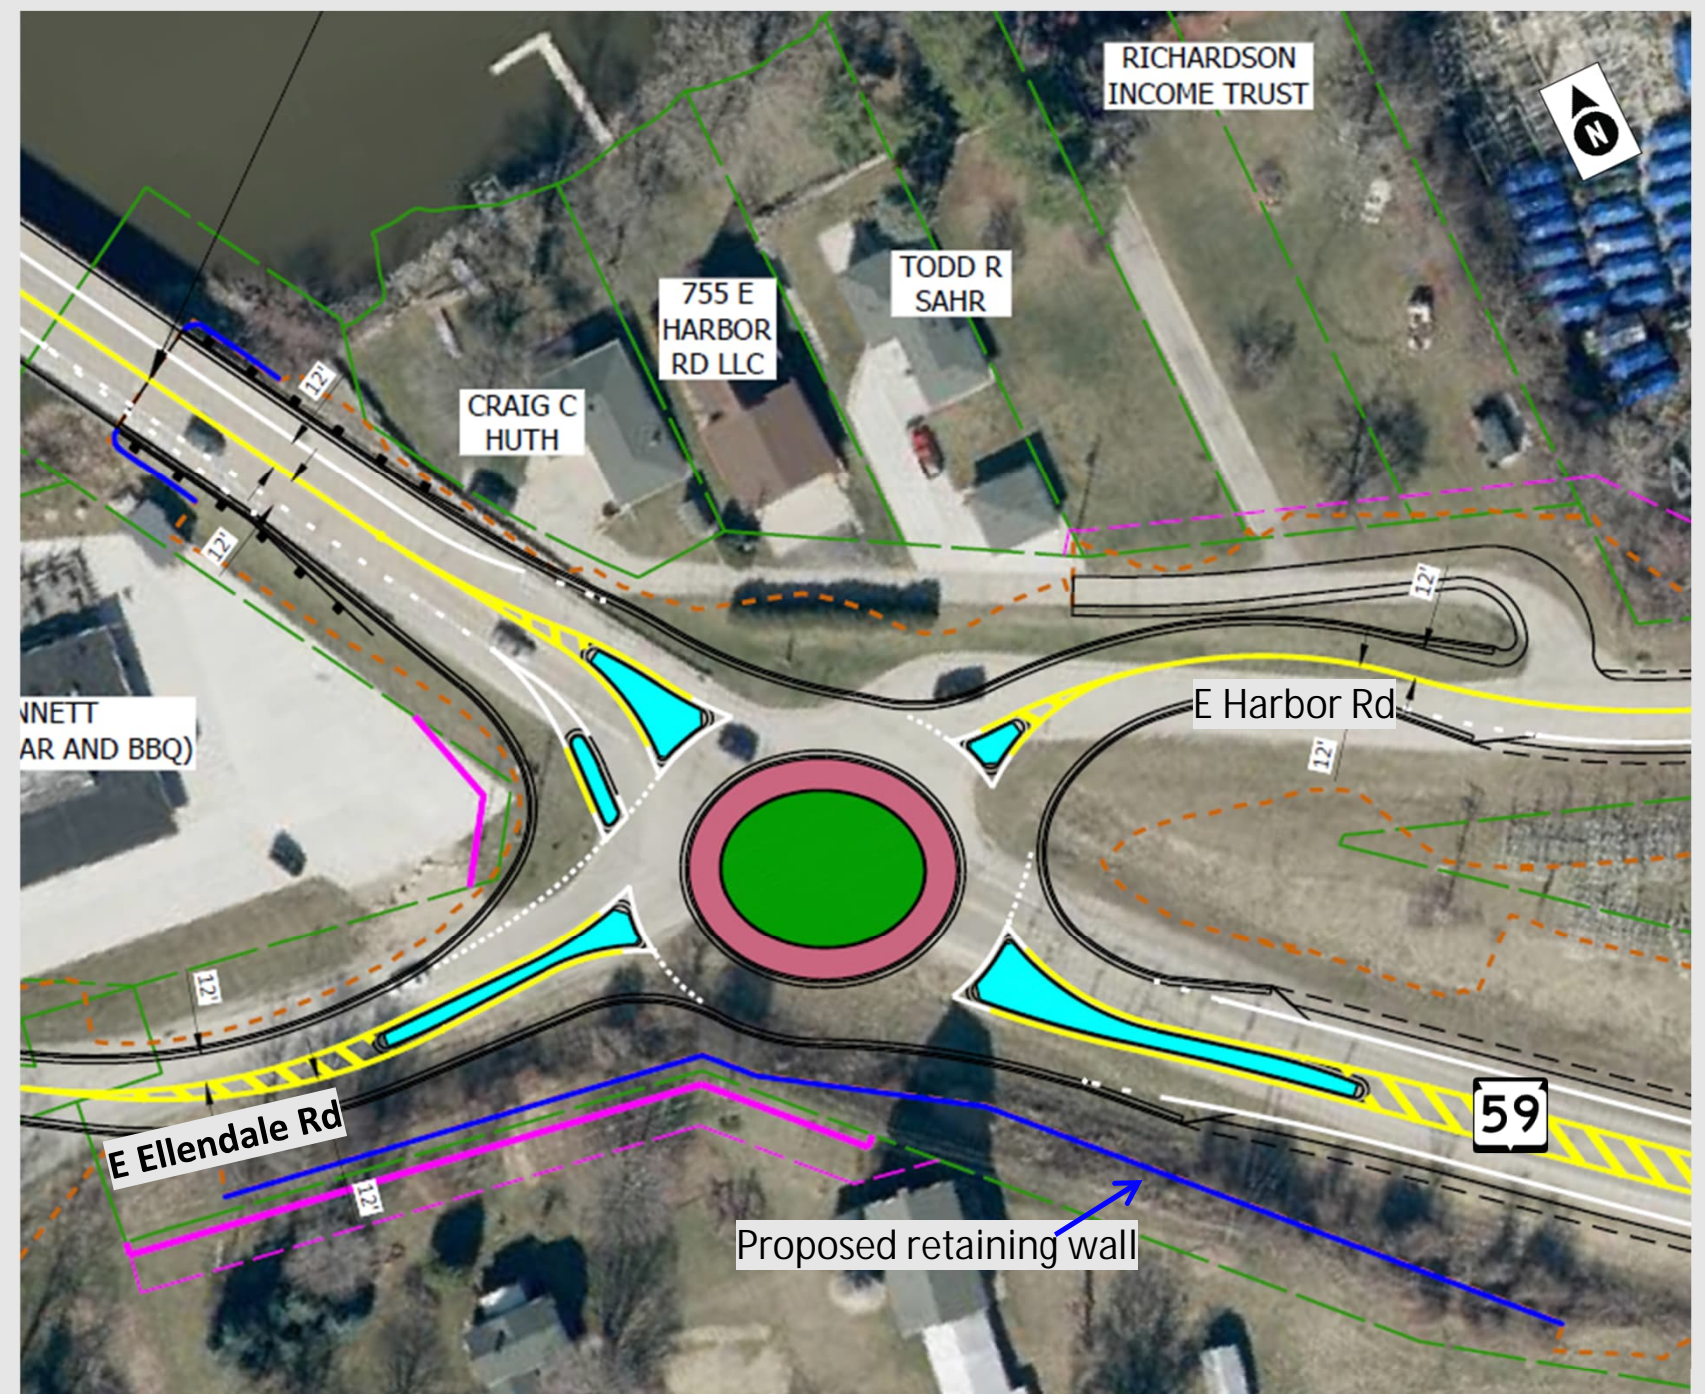

# Design Overview

## Intersection Improvements – E. Ellendale Road

- Single lane roundabout

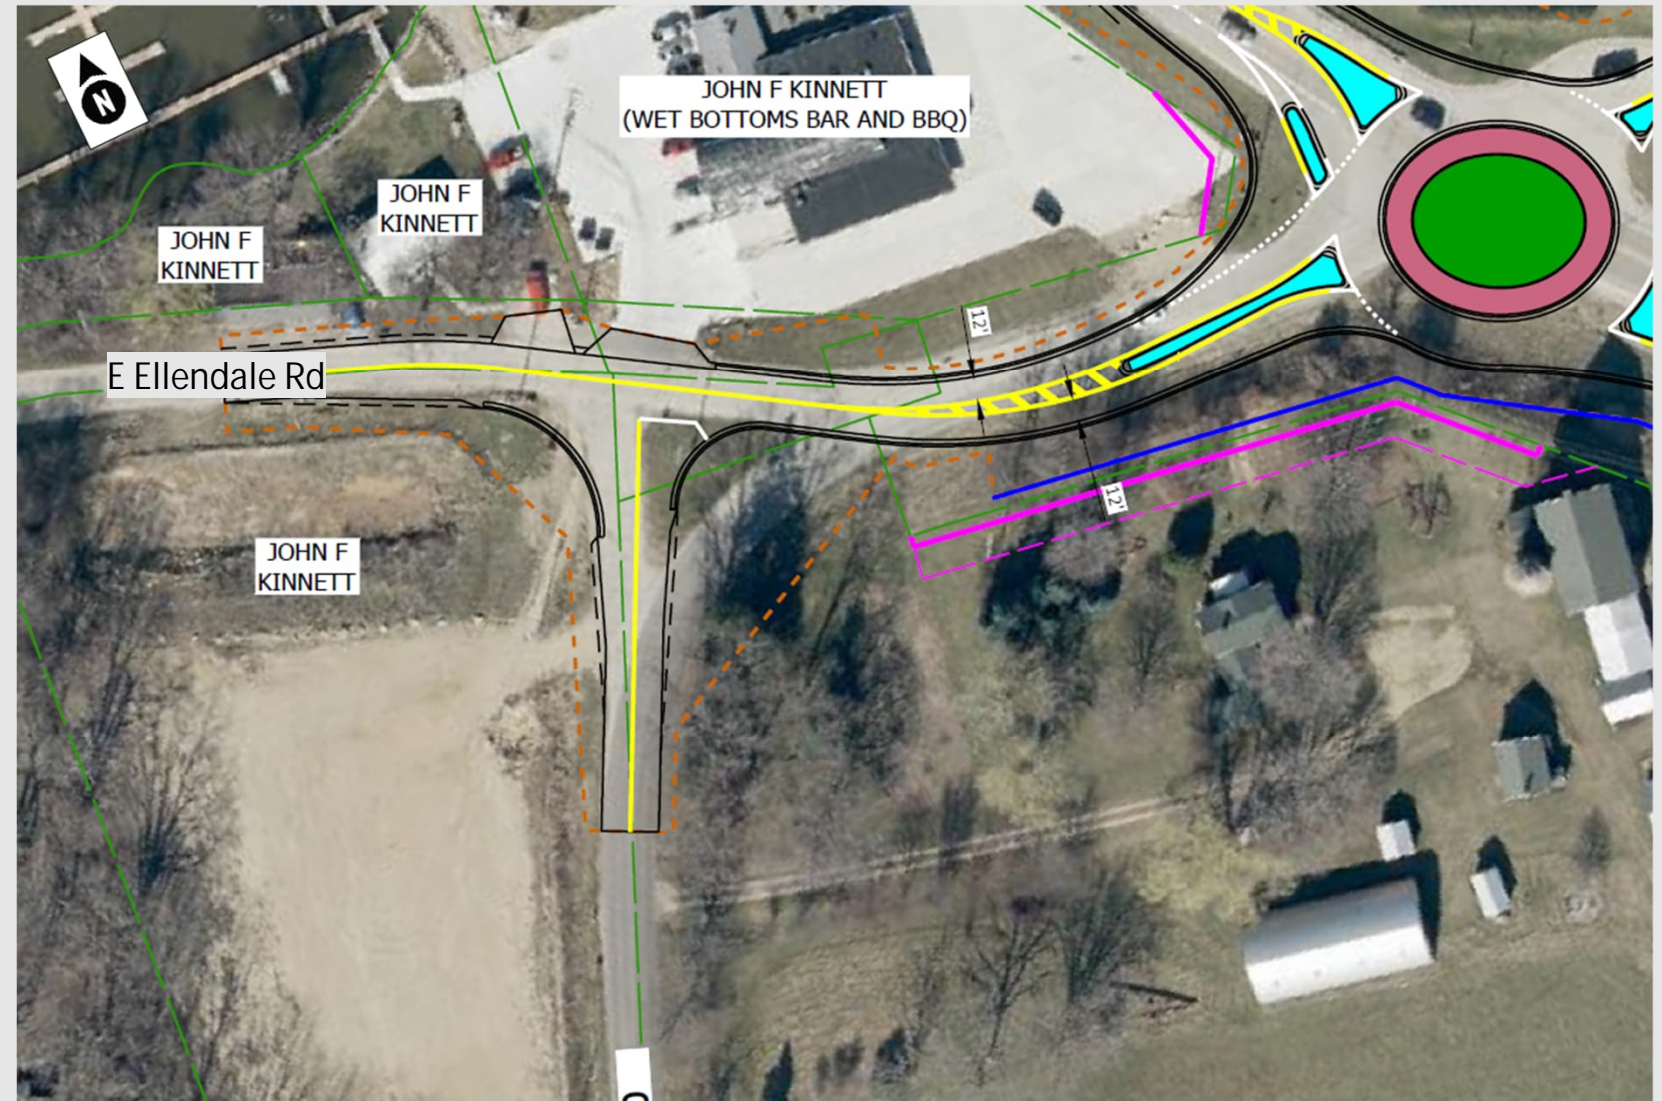

# Design Overview

## Intersection Improvements – E. Ellendale Road/N. Newville Road

- Full access “T” intersection
- E. Ellendale Road becomes thru movement
- Stop condition on N. Newville Road

# Design Overview

## Intersection Improvements – E. Harbor Road (east intersection)

- Full access “T” intersection
- Remains one-way stop controlled
- No access restrictions

# Design Overview

## Intersection Improvements – E. Vincent Road (west intersection)

- Reconstruct with turn lanes
  - Adds dedicated left turns on WIS 59
- Remains two-way stop controlled

# Design Overview

## Intersection Improvements – E. Vincent Road (east intersection)

- Reconstruct with turn lanes
  - Adds dedicated left turns on WIS 59
  - Add westbound offset right-turn lane
- Re-align E. Vincent Road west 50-feet
- Remains two-way stop controlled

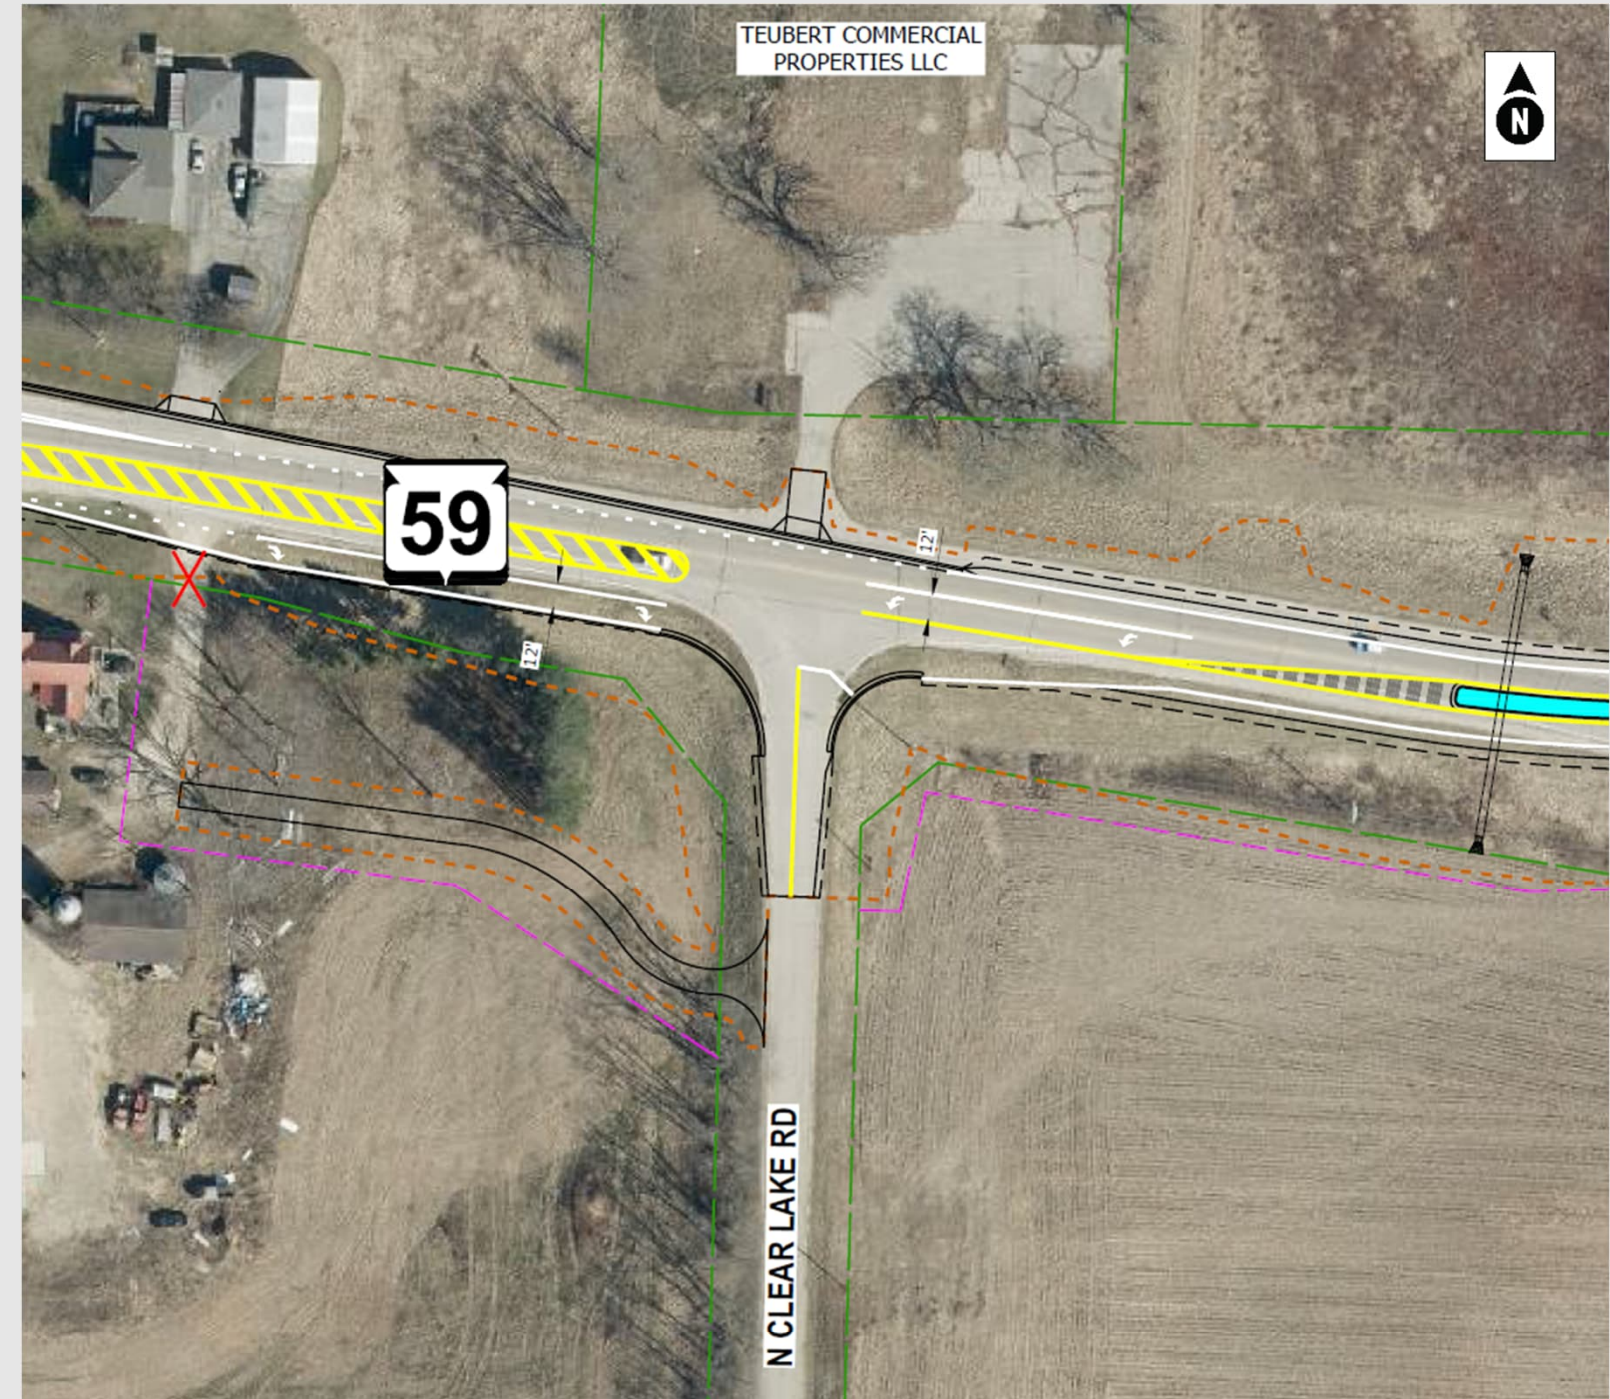

# Design Overview

## Intersection Improvements – N. Clear Lake Road

- Full access “T” intersection
- Adds dedicated westbound left turn on WIS 59
- Remains one-way stop controlled

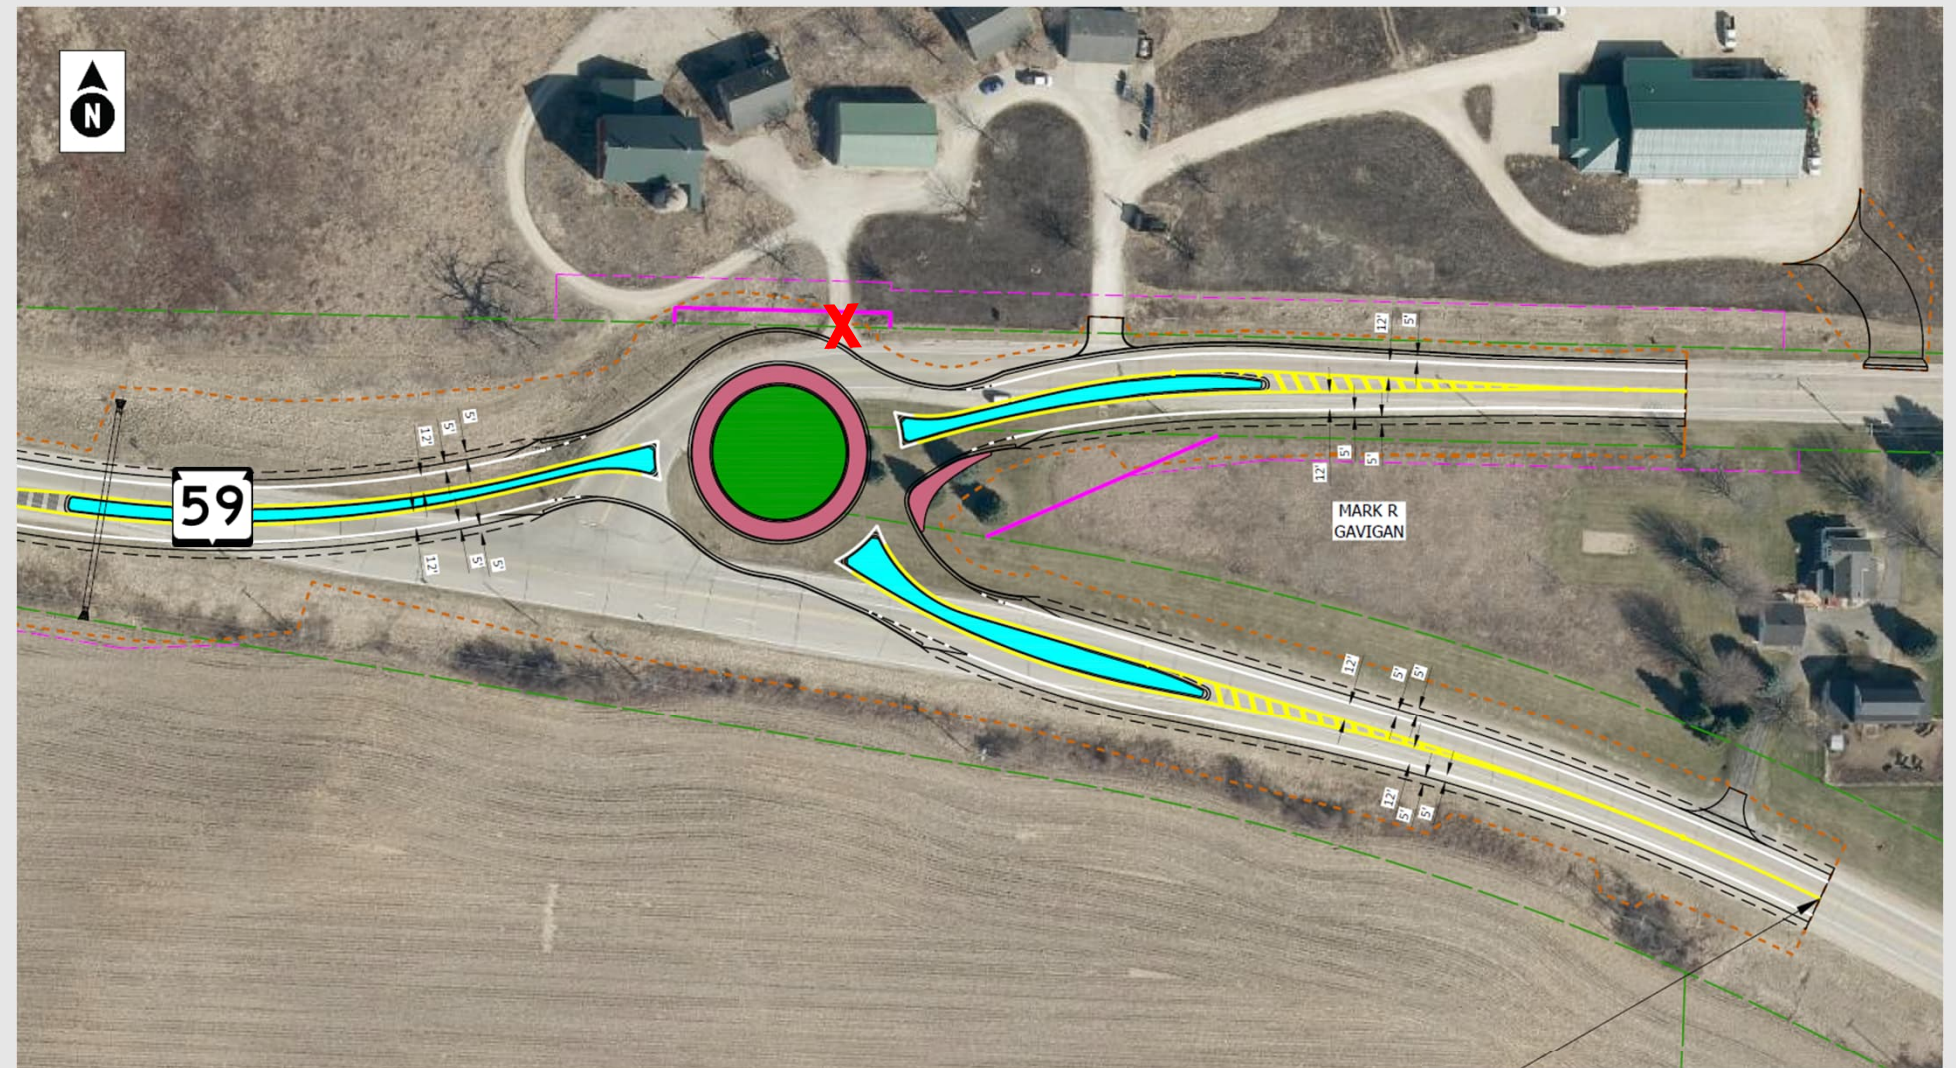

# Design Overview

## Intersection Improvements – County N

- Single lane roundabout
- Intersection shifted northeast

# Construction Staging

- Maintain two-way traffic
  - Temporary widening/pavement
  - Short-term one-lane operation with flagging where necessary
  - Construction will pause over the winter; the roadway will be cleared of traffic control devices.
- Work on or near the bridge over the Rock River
  - Traffic reduced to one lane
  - Utilize temporary signals to maintain traffic in both directions

# Real Estate

- Potential real estate needs
  - Permanent purchase – 8 properties, mostly small strips
  - Temporary easements only – 26 properties
  - Access changes – 9 locations
- Impacts may change as design continues to progress

# Schedule

## WIS 59 (E Mallwood Drive to County N)

Project Schedule	2025				2026				2027				2028				2029			
	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4
<b>PRELIMINARY DESIGN</b> Jan 2025 - May 2026																				
<b>PUBLIC INVOLVEMENT</b> Jan 2025 - Jan 2028																				
<b>RIGHT-OF-WAY ACQUISITION</b> September 2026 - Jan 2028																				
<b>FINAL DESIGN</b> June 2026 - Feb 2028																				
<b>CONSTRUCTION</b> August 2028 - Oct 2029																				

FEBRUARY 4, 2026  
PUBLIC INVOLVEMENT MEETING

# Thank You!
