The POW/MIA Remembrance Corridor – Abbotsford to Ashland

Corridor Overview
This 130-mile corridor is part of a passenger and freight corridor linking central and northern Wisconsin. The corridor serves the tourism/recreational, agriculture and forestry areas of north central Wisconsin. It is named for the POW/MIA Memorial Highway (WIS 13 from Wisconsin Dells to Superior). The corridor includes the urbanizing area of Ashland, and also serves the Bad River Indian Reservation.

Current Corridor Characteristics
- **Airports:**
  - Transport/corporate airports: Taylor County (Medford), Price County (Phillips), John F. Kennedy Memorial (Ashland)
  - Basic utility airports: Prentice, Park Falls Municipal
- **Highways:**
  - Primary highway: WIS 13
  - Corridors 2030 Connector Route: WIS 13
- **Public Transit:**
  - Bus systems: Bay Area Rural Transit, Bad River Indian Reservation
  - Shared-ride taxi: Medford
  - Specialized transit: Available in all counties; level of service depends on location
- **Fixed Guideway Transit:** None in this corridor
- **Rail Freight:** Continued freight rail service
- **Intercity Passenger Rail:** None in this corridor
- **Intercity Bus:** No services along this corridor
- **Ports and Harbors:** Ashland
- **Ferry:** None in this corridor
- **Bicycle/Pedestrian:**
  - Major trails: Tri-County Recreational Trail, North Country Trail (pedestrian only), Tuscobia State Trail, Pine Line Trail, Ice Age Trail (pedestrian only)
  - Accommodations, linkages and accessibility along and across some facilities

Future Corridor Vision
- **Airports:** Continued service, increased direct air service and infrastructure projects to support business airplane-capable airports
- **Highways:** Maximized preservation and maintenance of infrastructure and continued user efficiency and mobility, including improved traffic movement, along WIS 13, by implementing:
  - State Access Management Plan vision; Tier 2B
  - Candidate passing lane corridor (WIS 13)
- **Public Transit:** Increased regional coordination and continued service
- **Fixed Guideway Transit:** None in this corridor
- **Rail Freight:** Continued freight rail service and corridor preservation
- **Intercity Passenger Rail:** None in this corridor
- **Intercity Bus:** No services along this corridor
- **Ports and Harbors:** Continued service, preservation, maintenance and infrastructure improvements (Ashland)
- **Ferry:** None in this corridor
- **Bicycle/Pedestrian:** Continued and enhanced accommodations, linkages and accessibility along and across facilities

Refer to the “Corridor Map - Data Definitions and Sources” for more information.
The POW/MIA Remembrance Corridor – Abbotsford to Ashland

About Multimodal Corridors

The Connections 2030 planning process identified statewide multimodal, intercity corridors as visual communication tools to view existing conditions, transportation features and future recommendations. These corridors collectively represent a starting point toward long-term implementation of Connections 2030 and the corridor management process.

These multimodal corridors:
- Serve critical sectors of the economy or major population centers
- Carry significant travel activity for passenger and/or freight traffic
- Show significant growth in travel or economic development
- Serve an important role for other transportation modes

Corridor selection was also influenced by local land use and development plans. Each corridor is a broad geographical band that follows a general directional flow connecting trips that may include streets, highways, rail, pedestrian, bicycle facilities and routes and transit route alignments. A corridor generally follows the directional flow of a state highway alignment. It includes parallel state and local roads, service roads and facilities for other transportation modes, such as rail, pedestrian, and transit, which influence the mobility, capacity, safety and other functional elements of the corridor.

Important Notes about What is Depicted

The map shows currently programmed and proposed future activities (as of December 31, 2007) that have significant impacts on the corridor. Not all projects or initiatives are mapped, and additional analyses, including an environmental document, will be conducted before any of the projects or activities are completed. These analyses may include studying alternatives (including a no build/no change alternative) with public involvement opportunities as appropriate. Resources and shifting priorities may impact WisDOT’s implementation of any proposed activity within the time frames identified. WisDOT will remain flexible in the implementation of Connections 2030 recommendations. The map and table activities on the following page reflect actions identified in:
- Connections 2030 policies
- WisDOT’s Six-Year Highway Improvement Program (2008 - 2013)
- Other WisDOT program data
- Other WisDOT plans and studies
- Metropolitan planning organizations’ (MPOs), regional planning commissions’ (RPCs) and tribal long-range transportation plans

For information on funding and implementation priorities, see those Connections 2030 chapters. For more information on transportation projects, contact the WisDOT Region Office (see Connections 2030 or www.dot.wisconsin.gov/projects/ for a map of region offices). MPO, RPC and tribal long-range transportation plans offer recommendations on all transportation modes within their boundaries.

For more information, refer to the Corridor Map Legend Definitions document at www.wiconnections2030.gov.
The POW/MIA Remembrance Corridor – Abbotsford to Ashland

**Current and Proposed Future Activities**

These activities may not occur in the time frame identified due to budget constraints, changing conditions or shifting priorities. Refer to the “Important Notes about What is Depicted” for more information or contact the WisDOT Region Office.

### Short-Term (2008 – 2013)

- **US 2**: Reconstruct from Bear Trap Rd (Ashland Co) to Government Rd (Ashland Co)
- **WS 13**: Prepare corridor plan from US 10 (Marshfield) to US 8 (Preston)
- **US 13**: Reconstruct from County Rd N (Clark Co) to Division St (Abbotsford), Clark Co., and from N Fork of Flambeau River Bridge to 5th St in Park Falls
- **WS 19**: Prepare corridor plans from WS 73 (Frenzi) to WS 13 (Abbotsford), and from WS 13 (Abbotsford) to US 51 (Wausau)

**Intercity Bus**

- Support new intercity bus service between Minneapolis/St. Paul, MN and Green Bay with stops in Hudson, Menomonie, Eau Claire, Chippewa Falls, Wausau and Shawano

### Mid-Term (2014 – 2019)

- **Bicycle/Pedestrian**: Provide urban and rural accommodations along WIS 13 from US 2 (Ashland) to the southern Park Falls city limits; from Bennett Rd (Price Co) to Aspen Rd (Price Co); from Correction Lx (Taylor Co) to County Rd O (Medford); and from Abbotsford northern city limits to Colby southern city limits
- **Bicycle/Pedestrian**: Provide rural accommodations along US 2 from Government Rd (Ashland Co) to Birch Hill Rd (Ashland Co); and from WS 13 N (Bayfield Co) to WS 13 S (Ashland)
- **Bicycle/Pedestrian**: Provide rural accommodations along WIS 118 from US 63 (Bayfield Co) to WIS 112 (Ashland Co)
- **Bicycle/Pedestrian**: Provide rural accommodations along WIS 112 from WIS 118 to US 2 (Ashland)
- **Bicycle/Pedestrian**: Provide urban and rural accommodations along WIS 77 from WIS 113 (Milwaukee) to US 2 (Hurley)
- **Bicycle/Pedestrian**: Provide urban and rural accommodations along US 8 from County Rd B (Glen Flora, Rusk Co) to County Rd J (Kemmn, Price Co); and from County Rd D (Price Co) to the Bearskin Trail

### Long Term (2020 – 2030)

- **WS 29**: Convert to freeway from WS 27 to US 51 (Wausau) if supported by environmental document
- **Park & Ride**: Support proposed park and ride construction at US 13 and County Rd N (Marathon Co) if supported by environmental document

### Entire Planning Period

- **US 2**: Construct candidate passing lanes from 22nd Ave East (Ashland) to WIS 109 if supported by environmental document
- **US 8**: Construct candidate passing lanes from Forest St (Ladysmith) to WIS 101 (Rhinelander) if supported by environmental document
- **WIS 13**: Construct candidate passing lanes from Burnett St (Spencer) to County Rd N (Clark Co); from County Rd A (Clark Co) to County Rd D (Taylor Co); from Allman St (Medford) to County Rd D (Price Co); and from County Rd F (Price Co) to County Rd F/9th St S (Park Falls, Price Co) if supported by environmental document
- **WIS 29**: Study interchanges and/or preserve right-of-way at locations between WIS 13 and US 51 (Wausau) if supported by environmental document
- **Airports**: Support continued preservation, maintenance and infrastructure projects at State Airport System Plan airport
- **Bicycle/Pedestrian**: Support accommodations and linkages to create a connected network that provides accessibility along and across facilities
- **Intercity Bus**: Work with local governments to provide service between Superior and Ironwood, MI, with stops in Ashland, Brule and Iron River
- **Local Roads**: Support continued preservation, maintenance and infrastructure projects
- **Port/Waterway**: Support channel preservation, maintenance and infrastructure projects at Ashland and Washburn
- **Public Transit**: Support continued evaluation and service improvement in Ashland and Ashland County
- **Public Transit**: Support regional service expansion of Bay Area Rural Transit and Bad River Indian Reservation transit
- **Public Transit**: Support continued service and vehicle replacement for Bay Area Rural Transit and Bad River Indian Reservation transit systems
- **Public Transit**: Work with counties and transit service providers to coordinate and expand rural transit service
- **Rail Freight**: Support the preservation of existing freight services and corridors
- **Soo Locks**: Support continued coordination, maintenance, and preservation
- **Specialized Transit**: Support continued service and encourage improved service coordination
- **State Highways**: Construct grade separations at rail crossings if supported by environmental document
- **State Highways**: Preserve and maintain infrastructure
- **State Highways**: Improve traffic movement with traffic operations infrastructure strategies
Corridor Map – Data Definitions and Sources

**Data Definitions**

**Corridors 2030**
(See Connections 2030 Chapter 5, Preserve and Maintain Wisconsin’s Transportation System, for more information.)

- Backbone system: Multilane, divided highways interconnected all major population and economic centers of the state and linking them to the national transportation network
- Connector system: Two- and four-lane highways directly linking other significant economic and tourism centers to the Backbone system

**State Access Management Plan vision**
(See Connections 2030 Chapter 9, Promote Transportation Efficiencies, for more information.)

- Tier 1: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at interchanges (with some existing safely spaced, locked and gated emergency vehicle driveways and a few isolated field entrances possible at select locations)
- Tier 2A: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at at-grade public road intersections (with some existing safely spaced, locked and gated emergency vehicle driveways and few isolated field entrances)
- Tier 2B: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at at-grade public road intersections with some existing safely spaced, lower volume private, residential, field or emergency service driveways
- Tier 3: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at at-grade public road intersections with some existing safely spaced, higher volume private, residential and field or emergency service driveways
- Tier 4: By 2030, in rural areas (outside of city and village boundaries), access to the highway will be at safely spaced driveways and roads

**State Airport System Plan classifications**
- Air carrier (passenger)/air cargo: Designed to accommodate virtually all aircraft up to and, in some cases, including wide body jets and large military transports
- Transport/corporate: Intended to serve corporate, small passenger and cargo jet aircraft used in regional service, and small airplanes (piston- or turboprop) used in commuter air service
- General utility: Intended to serve virtually all small aviation single and twin-engine aircraft (both piston and turboprop) with a maximum take-off weight of 12,500 pounds or less
- Basic utility: Intended to serve all small-engine piston aircraft and many of the smaller twin-engine piston aircraft with a gross takeoff weight of 12,500 pounds or less

**Truck volume descriptions**
- Low (0 – 501 trucks per day), Medium (501 – 2,500 trucks per day), High (2,501 – 8,000 trucks per day)
- Very High (more than 8,000 trucks per day)

**Urban/urbanized areas**
- Urban areas: Areas with populations between 5,000 and 49,999
- Urbanized areas: Areas with populations of 50,000 or more

**Data Sources**
