Trempealeau River Corridor – La Crosse to Eau Claire

Corridor Overview
This 80-mile corridor is a primary link between the metro areas of La Crosse and Eau Claire. It also serves the furniture manufacturing industry in Arcadia. The corridor includes the urban areas of Eau Claire and La Crosse.

Current Corridor Characteristics
- **Airports:**
  - Air carrier (passenger) airports: La Crosse Municipal, Chippewa Valley Regional (Eau Claire)
- **Highways:**
  - Primary state highway: WIS 93
  - Corridors 2030 Backbone Route: I-90, I-94
  - Corridors 2030 Connector Route: WIS 93
- **NHS intermodal terminals with local road connections:** Port of La Crosse
- **Public Transit:**
  - Bus systems: La Crosse, Eau Claire
  - Shared-ride taxi: Onalaska, Chippewa Falls
- **Fixed Guideway Transit:** None along this corridor
- **Rall Freight:** Freight rail service exists
- **Intercity Passenger Rail:** Amtrak Empire Builder service between Chicago, IL and Seattle, WA/Portland OR, with a stop in La Crosse
- **Intercity Bus:**
  - Connections in La Crosse to intercity bus services to Madison and Minneapolis/St. Paul, MN and Seattle, WA/Portland OR, with a stop in La Crosse
  - Connections in Eau Claire to intercity bus services to Minneapolis/St. Paul, MN and Chicago, IL
- **Ports and Harbors:** La Crosse
- **Ferry:** None along this corridor
- **Bicycle/Pedestrian:**
  - Major trails: Chippewa River State Trail, Buffalo River State Trail, Great River State Trail, Halfway Creek Trail
  - Accommodations, linkages and accessibility along and across some facilities

Future Corridor Vision
- **Airports:** Continued service, increased direct air service and infrastructure projects to support business airplane-capable airports
- **Highways:** Maximized preservation and maintenance of infrastructure and continued user efficiency and mobility, including improved traffic movement, along WIS 93 by implementing:
  - State Access Management Plan vision
    - Tier 2A: WIS 93 (County Rd II (Eau Claire Co) to US 53)
    - Tier 2b: WIS 93 (WIS 35/54 to County Rd II (Eau Claire Co))
  - Candidate passing lane corridors (WIS 93)
- **Public Transit:** Increased regional coordination and continued service
- **Fixed Guideway Transit:** None along this corridor
- **Rail Freight:** Continued freight rail service and corridor preservation
- **Intercity Passenger Rail:**
  - Continued Amtrak Empire Builder service between Chicago, IL and Seattle, WA/Portland OR, with a stop in La Crosse
  - New service:
    - New Minneapolis/St. Paul, MN – Madison – Milwaukee – Chicago, IL intercity passenger rail service
    - All new intercity passenger rail services will operate within existing corridors
- **Intercity Bus:**
  - Continued existing services
  - New service:
    - Phase 1: Between Eau Claire and Duluth/Superior, and between Minneapolis/St. Paul, MN and Green Bay, with a stop in Eau Claire
    - Phase 2: Between Madison and La Crosse, via I-90, and between Eau Claire and Tomah passenger rail station
    - Phase 3: Between La Crosse and Wausau
- **Ports and Harbors:** Continued service, preservation, maintenance and infrastructure improvements (La Crosse)
- **Ferry:** None along this corridor
- **Bicycle/Pedestrian:** Continued and enhanced accommodations, linkages and accessibility along and across facilities

Table:
<table>
<thead>
<tr>
<th>County</th>
<th>Year 2007</th>
<th>Year 2030</th>
</tr>
</thead>
<tbody>
<tr>
<td>La Crosse</td>
<td>111,791</td>
<td>125,652</td>
</tr>
<tr>
<td>Trempealeau</td>
<td>28,119</td>
<td>30,402</td>
</tr>
<tr>
<td>Eau Claire</td>
<td>98,000</td>
<td>117,253</td>
</tr>
</tbody>
</table>

Population age 65 and older
- 29,270 in 2007
- 57,571 in 2030

Enplanements
- La Crosse Municipal Airport: 119,897 in 2007
- Chippewa Valley Regional Airport: 22,832 in 2007

Average annual daily traffic along WIS 93
- 3,200 – 6,000 in 2007
- 4,400 – 38,900 in 2030

Truck volume along WIS 93
- Low

Refer to the “Corridor Map - Data Definitions and Sources” for more information.
About Multimodal Corridors

The Connections 2030 planning process identified statewide multimodal, intercity corridors as visual communication tools to view existing conditions, transportation features and future recommendations. These corridors collectively represent a starting point toward long-term implementation of Connections 2030 and the corridor management process.

These multimodal corridors:
- Serve critical sectors of the economy or major population centers
- Carry significant travel activity for passenger and/or freight traffic
- Show significant growth in travel or economic development
- Serve an important role for other transportation modes

Corridor selection was also influenced by local land use and development plans. Each corridor is a broad geographical band that follows a general directional flow connecting trips that may include streets, highways, rail, pedestrian, bicycle facilities and routes and transit route alignments. A corridor generally follows the directional flow of a state highway alignment. It includes parallel state and local roads, service roads and facilities for other transportation modes such as rail, pedestrian, and transit, which influence the mobility, capacity, safety and other functional elements of the corridor.

For more information, refer to the Corridor Map Legend Definitions document at [www.wiconnections2030.gov](http://www.wiconnections2030.gov).
Trempealeau River Corridor – La Crosse to Eau Claire

Current and Proposed Future Activities

These activities may not occur in the time frame identified due to budget constraints, changing conditions or shifting priorities. Refer to the “Important Notes about What is Depicted” for more information or contact the WisDOT Region Office.

Short-Term (2008 – 2013)

US 31
Replace Main St bridge over Beaver Creek (Galesville)

Mid-Term (2014 – 2019)

US 30/WIS 54
Prepare corridor plan from US 30 west (at Mississippi River) to WIS 35

US 53/WIS 54/WIS 93
Prepare corridor plan from County Rd HD (La Crescent Co) b-1-94 (Eau Claire)

Bicycle/Pedestrian
Provide urban and rural accommodations along WIS 35 from Prescott to Ontonagon

Bicycle/Pedestrian
Provide urban accommodations along WIS 54 through Galesville

Intercity/Feeder Rail
Support new intercity/feeder bus service from Eau Claire to Tomah passenger rail station with a stop in Black River Falls

Intercity Passenger Rail
Implement intercity passenger rail service between Minneapolis/St. Paul, MN and Chicago, IL via Eau Claire with proposed stops in Houlton, Menomonie, Eau Claire, Wisconsin Dells, Portage, Madison, Watertown, Oconomowoc, Braffield, Milwaukee, General Mitchell International Airport and Sturtevant and/or via La Crosse with proposed stops in La Crosse, Tomah, Wisconsin Dells, Portage, Madison, Watertown, Oconomowoc, Braffield, Milwaukee, General Mitchell International Airport and Sturtevant. Implementation will be based on results of environmental study

Long Term (2020 – 2030)

US 10
Replace bridge over Session Valley Creek if supported by environmental document

WIS 33
Replace bridge south of Eleva if supported by environmental document

Important Notes about What is Depicted

The map shows currently programmed and proposed future activities (as of December 31, 2007) that have significant impacts on the corridor. Not all projects or initiatives are mapped, and additional analyses, including an environmental document, will be conducted before any of the projects or activities are completed. These analyses may include studying alternatives (including a no build/no change alternative) with public involvement opportunities as appropriate. Resources and shifting priorities may impact WisDOT’s implementation of any proposed activity within the time frames identified. WisDOT will remain flexible in the implementation of Connections 2030 recommendations. The map and table activities on the following page reflect actions identified in:

- Connections 2030 policies
- WisDOT’s Six-Year Highway Improvement Program (2008 - 2013)
- Other WisDOT program data
- Other WisDOT plans and studies
- Metropolitan planning organizations’ (MPOs), regional planning commissions’ (RPCs) and tribal long-range transportation plans

For information on funding and implementation priorities, see those Connections 2030 chapters. For more information on transportation projects, contact the WisDOT Region Office (see Connections 2030 or www.dot.wisconsin.gov/projects/ for a map of region offices). MPO, RPC and tribal long-range transportation plans offer recommendations on all transportation modes within their boundaries.
Corridor Map — Data Definitions and Sources

Data Definitions

**Corridors 2030**

*See Connections 2030 Chapter 5: Preserve and Maintain Wisconsin’s Transportation System, for more information.*

- Backbone system: Multilane, divided highways interconnected all major population and economic centers of the state and linking them to the national transportation network
- Connector system: Two- and four-lane highways directly linking other significant economic and tourism centers to the Backbone system

**State Access Management Plan vision**

*See Connections 2030 Chapter 9: Promote Transportation Efficiencies, for more information.*

- Tier 1: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at interchanges (with some existing safely spaced, locked and gated emergency vehicle driveways and a few isolated field entrances possible at select locations)
- Tier 2A: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at at-grade public road intersections (with some existing safely spaced, locked and gated emergency vehicle driveways and few isolated field entrances)
- Tier 2B: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at at-grade public road intersections with some existing safely spaced, lower volume private, residential, field or emergency service driveways
- Tier 3: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at at-grade public road intersections with some existing safely spaced, higher volume private, residential and field or emergency service driveways
- Tier 4: By 2030, in rural areas (outside of city and village boundaries), access to the highway will be at safely spaced driveways and roads

**State Airport System Plan classifications**

- Air carrier (passenger)/air cargo: Designed to accommodate virtually all aircraft up to and, in some cases, including wide body jets and large military transports
- Transport/corporate: Intended to serve corporate, small passenger and cargo jet aircraft used in regional service, and small airplanes (piston- or turboprop) used in commuter air service
- General utility: Intended to serve virtually all small aviation single and twin-engine aircraft (both piston and turboprop) with a maximum takeoff weight of 12,500 pounds or less
- Basic utility: Intended to serve all small-engine piston aircraft and many of the smaller twin-engine piston aircraft with a gross takeoff weight of 12,500 pounds or less

**Truck volume descriptions**

- Low (0 – 501 trucks per day), Medium (501 – 2,500 trucks per day), High (2,501 – 8,000 trucks per day)
- Very High (more than 8,000 trucks per day)

**Urban/urbanized areas**

- Urban areas: Areas with populations between 5,000 and 49,999
- Urbanized areas: Areas with populations of 50,000 or more

**Data Sources**

**Annual average daily traffic (AADT)**

- **Current data:** WisDOT, 2005 Wisconsin Highway Traffic Volume Data, December 2006
