Wolf/Waupaca Rivers Corridor – Stevens Point to Fox Cities

Corridor Overview
This 60-mile corridor is part of a major passenger and freight route that connects central Wisconsin and the Fox Valley to locations south and east. It is also an important link between southeastern Wisconsin and the tourism and recreational centers of northern Wisconsin. The corridor includes the Vietnam Veterans Memorial Highway (US 10 from Manitowoc to the Minnesota/Wisconsin state line). It also includes the urban and urbanizing areas of Stevens Point, Waupaca, New London, Appleton and Oshkosh.

Current Corridor Characteristics
- **Airports:**
  - Air carrier (passenger)/air cargo airports: Outagamie County (Appleton), Wittman Regional (Oshkosh)
  - Transport/corporate airports: Stevens Point Municipal, Waupaca Municipal
- **Highways:**
  - Primary highway: US 10
  - Corridors 2030 Backbone Route: US 10
  - Completed passing lane corridors:
    - US 45 (WIS 54 to Clintonville)
    - WIS 21 (County Rd XX (Waushara Co) to Broderick Rd (Town of Omro))
- **Public Transit:**
  - Bus systems: Stevens Point, Fox Valley, Oshkosh
  - Shared-ride taxi: Waupaca
  - Specialized transit: Available in all counties; level of service depends on location
- **Fixed Guideway Transit:** None in this corridor
- **Rail Freight:** Freight rail service exists
- **Intercity Passenger Rail:** None in this corridor
- **Intercity Bus:**
  - Service between Wausau and Milwaukee, with stops in Stevens Point, Waupaca, New London and Appleton
  - Connections in Appleton to intercity bus services to Green Bay and Chicago
- **Ports and Harbors:** None in this corridor
- **Ferry:** None in this corridor
- **Bicycle/Pedestrian:**
  - Major trails: Tomorrow River State Trail, Green Circle Trail, Ice Age Trail (pedestrian only), Wisconsin State Trail
  - Accommodations, linkages and accessibility along and across some facilities

Future Corridor Vision
- **Airports:** Continued service, increased direct air service and infrastructure projects to support business airplane-capable airports
- **Highways:** Maximized preservation and maintenance of infrastructure and continued user efficiency and mobility, including improved traffic movement, along US 10 by implementing:
  - State Access Management Plan vision; Tier 1
  - Candidate expressway upgrade of corridor and the potential conversion of expressway to freeway corridor (US 10)
- **Public Transit:** Increased regional coordination and continued service
- **Fixed Guideway Transit:** None in this corridor
- **Rail Freight:** Continued freight rail service and corridor preservation
- **Intercity Passenger Rail:**
  - New service:
    - All new intercity passenger rail services will operate within existing corridors
- **Intercity Bus:**
  - Continued existing services
    - Phase 1: Between Madison and Green Bay, with a stop in Appleton; between Madison and Wausau, with a stop in Stevens Point
    - Phase 2: Between Wausau and proposed Appleton passenger rail station, with stops in Stevens Point, Waupaca and New London
    - Phase 3: Between La Crosse and Wausau, with a stop in Stevens Point and between Marshfield and Stevens Point
- **Ports and Harbors:** None in this corridor
- **Ferry:** None in this corridor
- **Bicycle/Pedestrian:** Continued and enhanced accommodations, linkages and accessibility along and across facilities

Refer to the “Corridor Map - Data Definitions and Sources” for more information.
Wolf/Waupaca Rivers Corridor – Stevens Point to Fox Cities

About Multimodal Corridors

The Connections 2030 planning process identified statewide multimodal, intercity corridors as visual communication tools to view existing conditions, transportation features and future recommendations. These corridors collectively represent a starting point toward long-term implementation of Connections 2030 and the corridor management process. These multimodal corridors:

- Serve critical sectors of the economy or major population centers
- Carry significant travel activity for passenger and/or freight traffic
- Show significant growth in travel or economic development
- Serve an important role for other transportation modes

Corridor selection was also influenced by local land use and development plans. Each corridor is a broad geographical band that follows a general directional flow connecting trips that may include streets, highways, rail, pedestrian, bicycle facilities and routes and transit route alignments. A corridor generally follows the directional flow of a state highway alignment. It includes parallel state and local roads, service roads and facilities for other transportation modes, such as rail, pedestrian, and transit, which influence the mobility, capacity, safety and other functional elements of the corridor.

Important Notes about What is Depicted

The map shows currently programmed and proposed future activities (as of December 31, 2007) that have significant impacts on the corridor. Not all projects or initiatives are mapped, and additional analyses, including an environmental document, will be conducted before any of the projects or activities are completed. These analyses may include studying alternatives (including a no build/no change alternative) with public involvement opportunities as appropriate. Resources and shifting priorities may impact WisDOT’s implementation of any proposed activity within the time frames identified. WisDOT will remain flexible in the implementation of Connections 2030 recommendations.

The map and table activities on the following page reflect actions identified in:

- Connections 2030 policies
- WisDOT’s Six-Year Highway Improvement Program (2008 - 2013)
- Other WisDOT program data
- Other WisDOT plans and studies
- Metropolitan planning organizations’ (MPOs), regional planning commissions’ (RPCs) and tribal long-range transportation plans

For information on funding and implementation priorities, see those Connections 2030 chapters. For more information on transportation projects, contact the WisDOT Region Office (see Connections 2030 or www.dot.wisconsin.gov/projects/) for a map of region offices. MPO, RPC and tribal long-range transportation plans offer recommendations on all transportation modes within their boundaries.
Wolf/Waupaca Rivers Corridor – Stevens Point to Fox Cities

Current and Proposed Future Activities

These activities may not occur in the time frame identified due to budget constraints, changing conditions or shifting priorities. Refer to the “Important Notes about What is Depicted” for more information or contact the WisDOT Region Office.

Short-Term (2008 – 2013)

<table>
<thead>
<tr>
<th>Route/Project</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>US 10/WIS 34</td>
<td>Construct bypass of Waupaca</td>
</tr>
<tr>
<td>US 15</td>
<td>Construct bypasses on US 15 west and WIS 15 north (Marshfield) to I-39 (north of Stevens Point), which may include bypassing several communities, and adding lanes, and new interchanges at proposed US 15 and WIS 15, proposed US 10 and WIS 34 south, proposed US 10 and WIS 34 north, and at County Rd X (Portage Co)/proposed US 10 west and I-39</td>
</tr>
<tr>
<td>US 45</td>
<td>Prepare corridor plan from US 10 north/west to WIS 29 (Whitewater)</td>
</tr>
<tr>
<td>WS 21</td>
<td>Complete corridor plan from Rivermore Rd east of Omro to US 41</td>
</tr>
<tr>
<td>WS 54</td>
<td>Replace bridge over railroad tracks west of New London</td>
</tr>
<tr>
<td>WS 161</td>
<td>Replace bridge over the Tomorrow River (Realtown)</td>
</tr>
</tbody>
</table>

Bicycles/Pedestrians

- Support construction of the Newton Blackmar State Trail
- Support new intercity bus service between Madison and Waupaca with stops in Portage, Stevens Point and Mosinee

Mid-Term (2014 – 2019)

<table>
<thead>
<tr>
<th>Route/Project</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>WS 22</td>
<td>Prepare corridor plan from I-94 (Tommel) to Rivermore Rd (Winnebago Co)</td>
</tr>
<tr>
<td>WS 49</td>
<td>Replace bridge over South Branch Little Wolf River if supported by environmental document</td>

<td>Prepare corridor plan from US 45 to WIS 76</td>
</tr>
<tr>
<td>WS 116</td>
<td>Replace bridge over the Wolf River if supported by environmental document</td>
</tr>
</tbody>
</table>

Bicycles/Pedestrians

- Support construction of a trail along US 10 from Fremont to the Fox Cities Friendship Trail
- Provide rural accommodations along WIS 54 from Grant Ave (Plover) to Port Wl Rd (Plover)

Bicycles/Pedestrians

- Provide urban accommodations along WIS 66 (existing US 10) from Water St (Stevens Point) to I-39 (Stevens Point), and along US 10 from I-39 to Algoma St (Portage Co)
- Provide urban and rural accommodations along WIS 21 from Poggin Ave (Winnebago Co) through Omro to US 45 (Steeleville)

Park & Ride

- Support proposed park and ride construction near the intersections of US 10 and WIS 22, WIS 54 and Colby Ave (Town of Plover); and I-39 and Casimer Rd (Portage Co) if supported by environmental document

Long-Term (2020 – 2030)

<table>
<thead>
<tr>
<th>Route/Project</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>I-39</td>
<td>Reconstruct existing interchanges at County Rd B (Portage Co) and I-39; WIS 54/US 51 and I-39, WIS 66 and I-39, and US 10 west and I-39 if supported by environmental document</td>
</tr>
<tr>
<td>US 15</td>
<td>Construct candidate expressway upgrades and/or convert to freeway from US 10 west/WIS 15 south (Marshfield) to the Wood/Portage county line if supported by environmental document</td>
</tr>
<tr>
<td>US 10</td>
<td>Replace bridge over Crystal River (Waupaca) if supported by environmental document</td>
</tr>
<tr>
<td>WS 21</td>
<td>Study by-pass alternatives along WS 21 near Omro</td>
</tr>
<tr>
<td>WS 21</td>
<td>Construct candidate expressway upgrades and/or convert to freeway from Waushara/Winnebago county line to Oshkosh if supported by environmental document</td>
</tr>

<tr>
<td>WIS 54</td>
<td>Prepare corridor plan from US 73 to I-39</td>
</tr>
</tbody>
</table>

Bicycles/Pedestrians

- Support construction of the Waupaca Rivers State Trail between Hortonville and Tigerton

Intercity Bus

- Support new intercity bus service between La Crosse and Waupaca with stops in Sparta, Tomah, Wisconsin Rapids, Stevens Point and Mosinee; and between Stevens Point and Marshfield

Intercity/Feeder Bus

- Support new intercity/feeder bus service between Waupaca and proposed Appleton passenger rail station with stops in Mosinee, Stevens Point, Waupaca and New London

Park & Ride

- Support proposed park and ride construction near the intersection of WIS 54 and County Rd R (Portage Co); US 10 and County Rd J (Portage Co); new WIS 66 and County Rd HH (Portage Co); US 10 and WIS 54; and US 45 and County Road D (Waupaca Co) if supported by environmental document

Entire Planning Period

<table>

<tr>
<td>Airports</td>
<td>Support continued preservation, maintenance and infrastructure projects at State Airport System Plan airports</td>
</tr>
</tbody>
</table>

Bicycles/Pedestrians

- Support accommodations and linkages to create a connected network that provides accessibility along and across facilities

Intercity Bus

- Support continued intercity bus service between Waupaca and Milwaukee with stops in Stevens Point, Appleton, Oshkosh and Fond du Lac

Local Roads

- Support continued maintenance and infrastructure projects

Park & Ride

- Support expansion of existing park and ride facilities if needed and if supported by environmental document

Public Transit

- Support regional service expansion in Stevens Point

Public Transit

- Support continued service and vehicle replacement in Stevens Point

Public Transit

- Work with counties and transit service providers to coordinate and expand rural transit service

Public Transit

- Support continued shared-ride taxi service in Waupaca and Plover

Rail Freight

- Support preservation of existing freight services and corridors

Specialized Transit

- Support continued service and encourage improved service coordination

State Highways

- Construct grade separations at rail crossings if supported by environmental document

State Highways

- Preserve and maintain infrastructure

State Highways

- Improve traffic movement with traffic operations infrastructure strategies
CONNECTIONS 2030 LONG-RANGE MULTIMODAL TRANSPORTATION PLAN

Corridor Map – Data Definitions and Sources

Data Definitions

Corridors 2030

(State Connections 2030 Chapter 5. Preserve and Maintain Wisconsin’s Transportation System, for more information.)

- Backbone system: Multilane, divided highways interconnecting all major population and economic centers of the state and linking them to the national transportation network
- Connector system: Two- and four-lane highways directly linking other significant economic and tourism centers to the Backbone system

State Access Management Plan vision

(State Connections 2030 Chapter 9, Promote Transportation Efficiencies, for more information.)

- Tier 1: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at interchanges (with some existing safely spaced, locked and gated emergency vehicle driveways and a few isolated field entrances possible at select locations)
- Tier 2A: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at at-grade public road intersections (with some existing safely spaced, locked and gated emergency vehicle driveways and few isolated field entrances)
- Tier 7: By 2030, in rural areas (outside of city and village boundaries), access to the highway will be wholly at at-grade safely spaced driveways and roads

State Airport System Plan classifications

- Air carrier (passenger)/air cargo: Designed to accommodate virtually all aircraft up to and, in some cases, including wide body jets and large military transports
- Transport/corporate: Intended to serve corporate, small passenger and cargo jet aircraft used in regional service, and small airplanes (piston- or turboprop) used in commuter air service
- General utility: Intended to serve virtually all small aviation single and twin-engine aircraft (both piston and turboprop) with a maximum take-off weight of 12,500 pounds or less
- Basic utility: Intended to serve all small-engine piston aircraft and many of the smaller twin-engine piston aircraft with a gross takeoff weight of 12,500 pounds or less

Truck volume descriptions

- Low (0–501 trucks per day), Medium (501–2,500 trucks per day)
- High (2,501–8,000 trucks per day), Very High (more than 8,000 trucks per day)

Urban/urbanized areas

- Urban areas: Areas with populations between 5,000 and 49,999
- Urbanized areas: Areas with populations of 50,000 or more

Data Sources

Annual average daily traffic (AADT)
