FLIGHT PLAN

The flight plan form shown on the opposite page is for your use in filing VFR flight plans by telephone or radio. Use it for reference and eliminate unnecessary communications.

Flight plans are mandatory in some areas for identification purposes. However, primarily they are for your protection. The facilities of the Search and Rescue Service will be activated in your behalf when necessary if you have filed a flight plan.

1. File a flight plan and arrival report with CAA Communication Station.
2. Whenever you deviate from your flight plan such as being delayed or change your destination, notify the nearest CAA Communication Station.
3. If no arrival report is received within one hour after your E.T.A a search will be started.
4. If your final destination is not served by an Airway Communication Station, indicate in the (any other information, etc. section) the method your arrival report will be filed. Information on the number and names of passengers, if any, should be shown in this section.

Identifiers for airports can be used in place of the full name of the airport. Cruising altitude is indicated by VFR - not the altitude you propose to fly. List intermediate stops if any are to be made.

SECTIONAL AND WORLD AERONAUTICAL CHARTS FOR WISCONSIN

Sectional charts are outlined in light lines and named thus: Milwaukee

World Aeronautical charts are outlined in heavy lines and designated thus: WAC 308

AIRMARKERS

We are proud of Wisconsin's Airmarker System which consists of approximately 900 airmarked communities.

An airmarker consists of the name of the community, distance and direction to the nearest airport and the north arrow. In communities where a suitable roof is not available, the marker is restricted to the name of the community.

You can help maintain the system by informing the Aeronautics Commission of any markers in poor condition. We would also appreciate being advised of communities in which airmarkers are needed.

With your assistance we will be able to maintain an up-to-date airmarking system. Airmarkers are for your convenience and safety and by assisting us you will be creating better flight conditions for yourself.

AVIATION GAS TAX REFUNDS

Wisconsin has a 4¢ per gallon tax on all motor fuel sold in the state. However, Section 78.14(2)(a) of the Wisconsin Motor Tax Refund Law in brief states that any person who uses tax paid motor fuel for purposes other than operating a vehicle on public highways of this state shall be reimbursed the amount of the tax paid upon filing a duly certified claim.

Motor fuel tax refund claim forms can be obtained from the office of your County Clerk or by writing to the Motor Fuel Tax Division of the Wisconsin Department of Taxation, Madison 2, Wisconsin. These forms have complete instructions on the back.

Do not accept:

Original invoices that have corrections or erasers made on them.

Original invoices that do not have the sales record carboned on the back.

Original invoices that have your name misspelled or the wrong address.

Original invoices that do not show the tax as a separate item.

Credit card original invoices must be marked paid by the company issuing the credit card, not by the operator who sold the gas to you.

File your claim with the Motor Fuel Tax Division not later than six months from the date of your oldest invoice. Fill out your claim form completely as requested.

Finally, sign your name and have it witnessed by two people or else notarized.

WISCONSIN WELCOMES YOU

Whether you fly to Wisconsin for business or pleasure, you are urged to share with us the blessings that nature has bestowed upon our state. Beautiful lakes and streams and our colorful forests will, indeed, produce awe inspiring aerial views for you.

Wisconsin communities take great pride in their airport facilities which are constantly being improved. We hope you find them convenient and adequate for your use. No matter where you fly in the state, you will find that airmarkers will guide you along the way, as Wisconsin has developed an outstanding air-marking system.

Fly safely at all times and come back often.

Sincerely yours,

Walter J. Kohler, Jr.
