FOREWORD

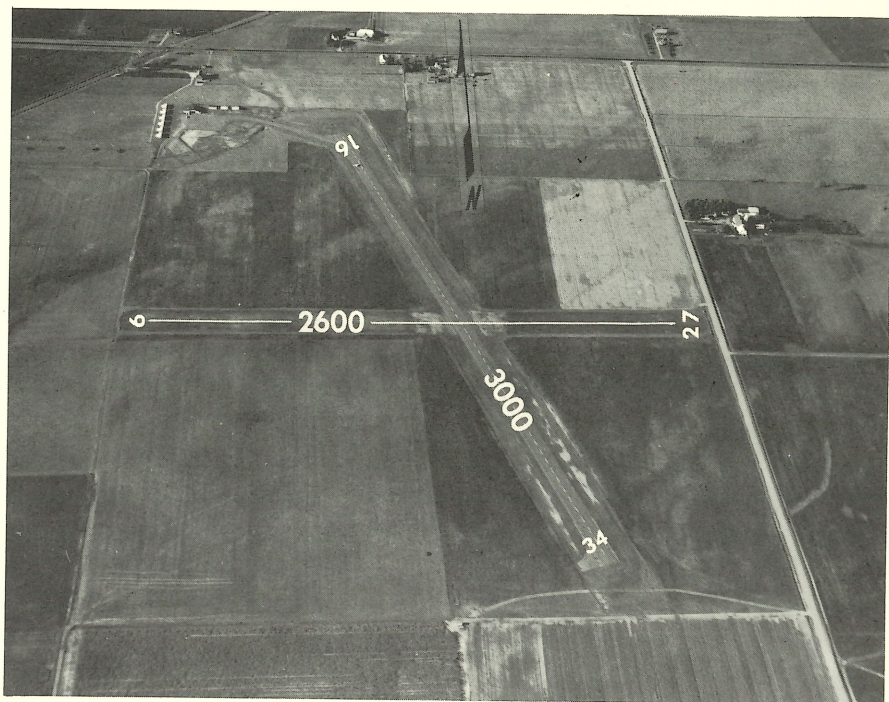

This airport directory has been prepared and distributed by the Wisconsin Division of Aeronautics as a means of making flights over Wisconsin safer and more enjoyable.

It was compiled from information submitted by airport owners and every effort has been made to provide a complete and accurate directory. Due to constantly changing conditions, the Division assumes no responsibility for any action taken by a pilot on the basis of information contained herein. It still remains the responsibility of the individual pilot to check FAA Notices to Airmen and the Airmen's Information Manual, as well as making a visual inspection of the airport before using.

Suggestions with respect to corrections, additions or deletions of any of the data contained in the directory will be welcomed by the Division of Aeronautics.
