ADMINISTRATOR
Fritz E. Wolf

July 1, 1970

FOREWORD

This airport directory has been prepared and is distributed by the Division of Aeronautics for the purpose of making your flights over Wisconsin safer and more enjoyable.

Compiled from information submitted by airport owners, every effort has been made to provide a complete and accurate directory. As a result of constantly changing airport conditions, the Division assumes no responsibility for any action taken by a pilot on the basis of information contained herein. **It must still remain the responsibility of the individual pilot to check FAA Notices to Airmen and the Airmen's Information Manual for current information, as well as making a visual inspection of the airport before using.**

Suggestions with respect to corrections, additions or deletions of any of the data contained in the directory will be welcomed by the Division of Aeronautics.

Copies may be obtained, free of charge, by writing
