AESTHETIC CONCEPTS WITHOUT PEDESTRIAN ACCOMMODATIONS

DESIGNER NOTES
THE THREE TYPES SHOWN ARE PREFERRED AESTHETIC CONCEPTS FOR WISDOT PROJECTS. WHEN USED WITHOUT SATELLITE OR GSDD, THE PRESENT 30" LINES SHOULD BE USED.  WALNUT MONUMENTS ARE NOT SUBJECT TO GSDD FUNDING.

ONLY THE CHOICE OF PARAPET HEIGHT AND RAIL DETAILS SHOWN FOR A GIVEN TYPE SHOULD BE USED FOR THAT TYPE.

IN ALL PARAPETS, THE CENTERLINE OR APARTMENT 30" LINES SHOULD BE USED FOR THE PARAPET.

SEE STANDARDS 4.02.4.03 FOR ADDITIONAL DETAILS.

SEE BRIDGE MANUAL SECTION 4.3 FOR LOCATION OF USE AND REQUIREMENTS.
**Designer Notes**

The three types shown are preferred aesthetic concepts for masonry projects. Masonry units are subject to concrete masonry unit (CMU) standards and are not subject to CSM standards.

Only the choice of material, size, and color details shown for a given type should be used for that type.

Windows parallel to centerline of apartment element are to be plain Type A.

In lieu of the combination railing type CT-1 shown, ship-lap railing may be used. See Standard 4.04 for details.

See References 4.04 and 4.05 for additional details.

See Reference 4.06 for location of type and application.
